Emory shipped last week the first cultivated chestnuts to Baltimore through the Chestertown post-office. J. B. Next Tuesday is the last day to register or be transferred in order to vote November 8th. Clark Davis has returned from Philadelphia, where he took a special course of instruction in the maintenance, repairing and construction of the U. S. L. Storage Batteries and electrical equipment for automobiles. From a letter written by the U. S. L. Co. and received by John H. Clendaniel, Jr., they speak in the highest terms of young Mr. Davis and say that he is the most efficient battery man that ever took a course with them. Two negro boys went on a rampage in Rock Hall Saturday night, and with pistols and knives proceeded to "do up" the town. They shot out window panes in houses, tore up gardens and threatened to shoot a number of residents before they were arrested. The matter was immediately reported to State's Attorney S. Scott Beck, who ordered Deputy Sheriff Jester to arrest the boys and bring them to jail here. On the way to Chestertown one of the boys, who had not been handcuffed, drew a pistol and threatened to fire upon the officer, who overpowered him and landed him safely in jail. They are held for the action of the grand jury.

An advertisement was placed in a local paper and this week the mule was found in an old well in the pasture, where he had been four weeks and four days. A block and tackle was brought into play and the mule was brought to the surface, still alive but a little thin.
