### B-r-r-r! Where's the Blankets?

There's a hurrying and scurrying these nights! For the wind is blowing cold and no one wants to sleep in a cold bed. Consequently we are all hunting warm bed clothes and some of us have discovered perhaps that our supply is low.

Here are some particularly good blankets:

They come in white and gray and plaid and are priced at \$6.50, \$8.75, \$10.50, \$12.50, \$15.00, \$17.50, \$18.00. They will weigh from five to six pounds and are, according to price, from 15 to 100 per cent wool.

Cotton comforts, in fine silklike covered, are \$4.00.

Lambs' wool comforts, covered in silklike, sateen and silk mull, are \$7.00, \$7.75, \$8.75, \$11.00 and \$17.50.

Silk-covered comforts range from \$19.00 to \$30.00, filled with lambs' wool, soft and warm, the finest comforts you can buy, in blue and old rose. Surely there's no need to shiver these nights when you can buy such warmth at such prices.

And note that these are TODAY'S prices on this bedding and that every blanket is plainly and truthfully marked with its filling.

If you're doing up your curtains a curtain stretcher is a necessity. Three good styles are \$3.00, \$4.50 and \$6.00.

We deliver by motor truck to points within a Reasonable distance.

### How you, too, can cut down on your coal this year

Over a million families will by using the Perfection

Perfection Oil Heaters will be more economical than ever this year—Aladdin Security Oil costs but a trifle more than half what it did a year ago.

It's wasteful to "rush" your heater to make two or three rooms comfortable. The economical way is to warm the house all over with your coal heater and then keep those rooms you use most comfortable and cozy with the additional heat of a Perfection.

The Perfection Oil Heater is simplicity itself—no trouble to take care of it—and it burns for about 10 hours on a single gallon of kerosene. Most hardware, housefurnishing and department stores sell Perfection Oil Heaters—blue or black, with nickle-plated trimmings if you like.

### The Source of Motor Trouble is not Always Under the Hood

YOU do not look into your gasoline tank to find the cause of engine troubles, but you might find it there.

Automobile motors require a good, steady diet of balanced gasoline. If the distilled product varies because of changing qualities of the crude oil from which it is refined, your gasoline is one-sided. Every oil field produces petroleum rich in certain properties, but lacking in others.

The Standard Oil Company (New Jersey) has eliminated numerous motor troubles and much gasoline wastage by de-

veloping a motor fuel which is not only properly balanced, but is the same day after day—to the last ounce—wherever and whenever you buy it. It starts the motor in a hurry, burns up cleanly, and delivers exceptional pulling power.

We have never claimed merits for our products which you could not prove for yourself. We recommend that you get a tankful of "Standard" Motor Gasoline and give it a thorough trial. You will quickly note the advantages of a completely balanced gasoline.
