Are You Losing Power Right at the Start?

There is one thing the matter when cylinders foul with oil and carbon and the motor lays down on the job—bad piston rings.

And there is one correct answer to the problem—Pedrick True-Fit Rings.

Pedrick Rings are built to seal the cylinder chamber—and that's exactly what they do. They press against the cylinder wall with equal radial pressure at all points. This feature, which is the secret of piston ring perfection, is exclusive to Pedrick True-Fit Rings. It results from the patented process by which the rings are made and it accounts for their quick and permanent fit against the cylinder wall.
Pedrick True-Fit Piston Rings have been adopted by leading automobile and engine manufacturers after exhaustive road and laboratory tests proved them superior to any other piston ring on the market.

The experience of such manufacturers as Cadillac, Packard, Hudson, etc., is your assurance of perfect piston performance with Pedrick.

Your car will be a better car with Pedrick Piston Rings. The motor will operate like new. You will have increased power, less fuel and oil consumption, and carbon troubles will be banished.

Stop at your dealer or repair shop today and ask him to show you why Pedrick's are the best Piston Rings you can buy.

Pedrick True-Fit Piston Rings are sold under the unqualified guarantee that they will produce more power, save more fuel, save more oil and have more effect in reducing carbon and smoke, than any other piston rings made.
The customer will be the sole judge. If he is not satisfied that Pedrick True-Fit Rings make good all claims, the dealer is authorized to refund the purchase price any time within six months from date of sale, and the manufacturer will refund the dealer's money without question.

WEAK BLOOD IS A REAL BARRIER

Growing Children Often Need Gude's Pepto-Mangan

Some children grow too quickly—it saps their strength. They lapse into careless, desultory habits, or develop a shrinking attitude. Their faces look pinched.

The blood becomes overtaxed by too rapid growth; and poisons from the system take the place of strength-

giving red corpuscles in the blood. Red corpuscles are those little red particles that swim in blood and give it its color. Gradually that child loses interest in its play.

Poor blood needs the building that the iron in Gude's Pepto-Mangan gives to weakened blood. Gude's Pepto-Mangan enriches the blood by increasing the number of red corpuscles, and restores the blood by driving out the poisons. When the revived blood gets to work, the appetite becomes what a growing child's should be. Your druggist has Gude's Pepto-Mangan in liquid or tablet form. The name "Gude's Pepto-Mangan" is on every package. Advertisement.

A First Aid for "Weak Circulation"

Keep the favorite windows warm and safe

Many well-lighted parts of the house are not only uncomfortable but unsafe as well when a cold, raw wind is blowing outside. Cold drafts do get in, somehow. But you can turn them into warm ones with a Perfection Oil Heater.

There are some corners that you just can't seem to warm up with your regular coal heater. A Perfection will do it and save "rushing" the furnace for hours at a time.

Too much heat is almost as bad as not

enough. Keep the chill out of the house with your regular heating device and then supply the rooms you use most with the cheery warmth of a glowing Perfection.

The Perfection is remarkably light and durable. Put it just where grandmother wants it. It burns for about ten hours with a single filling.

Economize on coal this year by using more kerosene for heating. The price of Aladdin Security Oil is only about half what it was a year ago.

Almost all hardware, housefurnishing and department stores sell the Perfection Heater.

HEALTH NURSE REPORT

Report of the Kent County Health Nurse for September and October, 1921.

New patients, 8; old patients, 26; patients discharged, 5; died, 1; number of visits to patients, 52; number of co-operative visits, 52; number of visits to schools, 44; number of visits to homes of school children, 45; conferences in office, 11; child welfare visits, 21; meetings attended, 4; personally conducted to hospitals, 5; sent to sanitarium, 1.

Visits were made to all of the schools but two. Tooth towels and tooth brushes for the school children were distributed. A talk was given to every room on "The Rules of Health."

The children in eight schools have been weighed, measured and examined. The children in the Chestertown Elementary School have made a 20 per cent. increase in weight over last year. We may account for this in that they have been in their weight by the monthly weighing contests, the "Hot School Lunches" and instruction in the health rules.

The parents are urged to look to their children's defects, including teeth, tonsils, adenoids, etc.

Respectfully submitted,
MARGARET R. MASSEY
