

PLACE TO CAMP

The announcement made a short time ago by the Adjutant General of the State of Maryland relative to the time and place selected for this summer's encampment has been a subject of considerable favorable discussion among the members of Company 'SD' First Infantry, Maryland National Guard.

After considering the merits of several cities that would provide the necessary facilities for a large camp of this nature, Edgewood Arsenal was selected because of its desirable location and splendid surroundings. Edgewood Arsenal is the home of

the Chemical Warfare Service, and was constructed and improved at a cost of fifty million dollars. It is a permanent Government Reservation and one of the fastest in the United States. It is located about twenty-one miles north of Baltimore, on the main line to Philadelphia, and is most delightfully situated over-looking an inlet to the Chesapeake Bay.

The entire reservation contains ten thousand acres with fine improved roads and every modern facility.

The men will of course live under canvas during their period in camp, and estimates are being prepared to provide, wooden floors, electric lights, and every convenience for the comfort

and pleasure of the men attending this camp.

The young men of Chestertown who feel that they would like to attend this camp with Company "SD", should see Captain Hines the Commanding Officer of the local company, before the enlistments are complete and the full number enlisted to take along to camp.
