Going Stronger Every Day "RED CIRCLE" COFFEE

And it is still 25c a pound, while all others have had to advance their price—or lower the quality. The reason—our buyers continually on the spot where the best coffee grows—buying entire productions of hundreds of plantations—so that varying fluctuations of the coffee market do not affect our price. For as we buy, so we sell. We require only a small profit, because our great volume brings the necessary results. We want every housewife in town to know that in "Red Circle" lies the most satisfaction and is the biggest coffee value for the money in the land.

FIGHTING CATTLE T. B. IS SUCCESSFUL BY AREA PLAN

In addition to systematic eradication of cattle tuberculosis by the accredited-herd plan, interest in the "area plan" as it is called, has lately developed in many States. The eradication of tuberculosis under the comprehensive plan generally includes a county as a unit and all the cattle in the county are tested. A report shows that in States where the eradication work was concentrated in certain localities in an effort to wipe out the disease entirely, a great many more animals were tested than in States where the area plan is not yet followed to appreciable extent.

In the one month, Nebraska, working on the area plan, tested 21,000 cattle. A number of other States made high records as a result of the concentration of effort in a few counties. During March, Michigan tested 18,817 head; New York, 13,076; Missouri, 12,799; Indiana, 11,933; Wisconsin, 11,778; Iowa, 11,250; and Tennessee, 8,455. The total number in all the States during the month was 228,779.

The area plan of testing is a valuable supplement to accredited-herd work which has resulted in the eradication of many thousands head of tuberculosis cattle and the establishment of more than 13,000 herds accredited as free from the disease.

For further information apply to agents at different wharves, or THE TOLCHESTER COMPANY, Baltimore, Md.

There are now more than 305,000 accredited cattle in the country; over 1,250,000 tested once and found free of tuberculosis; more than 2,133,000 under supervision; and about 408,000 on the waiting list. Wisconsin leads in number of accredited cattle with 36,183 and Minnesota follows with 33,759. However, the rate at which the work is going on in some other States, these two will have to keep very busy to stay at the top.

GET READY FOR CAMP

Dates Have Been Selected And Lads Will Be Under Canvas From July 10-25—Many Added Features On The Programme.

With the closing of school at hand and the rapid approach of the cool, short-sleeved, barefoot, days of the good old summer time, the minds of the boys of Salisbury and community have already turned to the proposition as to how they are going to spend their summer vacations. The ever alert "Y" officials, having once been boys themselves, and highly skilled in their present work, have anticipated this very thing and have already plans under way to solve just this problem for the lads.

They have planned a camp at the identical spot where the boys of the "Y" spent such an enjoyable ten days last year and are devising plans for a larger, more attractive and longer camp even than was held last year. Only this week, Mr. Boggs, the Physical Director, was in touch over the long distance telephone with the owner and permission was obtained to use it again this year.

Instead of 10 days this year the camp will run for 15 days and the time selected is from July 10 to 25, much earlier than last year. The location is everything that could be wished for. Located on a bluff overlooking the broad expanse of the Chesapeake Bay about two miles north of Tolchester Beach, and so close to the Monumental City that the light of Sparrows Point can be seen at night, the place is accessible

by both boat and auto. The bathing beach is excellent and shallow for a long distance out thus being an ideal place to teach the boys who are not so fortunate as to know how to swim, that art, and the water will be patrolled at regular bathing periods and all boys will be subject to regulations which make accidents next to impossible. The cabin, last year occupied by a private family, this year becomes the property of the "boys" and headquarters and a mess shack will be under the roof of that building. The building and regular U. S. Army tents which will be used will be large, clean and waterproof. The camp will be known as Camp Fairlee. Transportation this year to and from the camp will be by auto truck instead of by boat, a much quicker and satisfactory way.

exclude the heat and glare of the sun, yet they ventilate through their entire surface, admitting every vagrant, cooling breeze. They are easily, quickly hung and the adjustable No-Whip cords prevent their flapping in the wind. The beautiful finish and variety of colors make them appropriate for living porch, sun parlor or sleeping porch, on cottage, bungalow or mansion. They are made from lindenwood splints—tough, pliable and weather-proof. So light they can be raised by a child—strong enough to withstand wind and rain—durable enough for many seasons of all weather use.

UNITED STATES RUBBER COMPANY.

A Good Reputation plus a Better Price—\$10.90

THE new low mark of \$10.90 for the 30 x 3 1/2 size "Usco" created something of a sensation. Naturally, the first impulsive remark was on the "wonderful price."

Even more to the point are the comments of today.

People are getting more used to the \$10.90 price—but the "Usco" value is still a cause for wonder.

With thousands of \$10.90 "Uscos" running today, every locality has had a chance to check up on the surprising tire value.

Let all these "Usco" Tires now serving their owners so well remind you of this—

Whatever the price of "Usco," it has got to deliver big value because it is always done so.
