NEW DESCRIPTIVE MAP FOLDER OF PENNSYLVANIA RAILROAD

The Passenger Department of the Pennsylvania Railroad system has just issued a specially attractive and educational piece of literature in the form of a descriptive map folder which is attracting considerable favorable comment.

The folder is an artistic piece of printing in four colors and contains newly engraved maps of New York, Philadelphia, Washington, Chicago and St. Louis, and a large map of the United States in colors, showing the location of all National Parks and Monuments, together with a mass of instructive data of exceptional interest.

This folder will be mailed free upon request to D. N. Bell, Passenger Traffic Manager, Pennsylvania Railroad, Broad Street Station, Philadelphia.

TAKE STEPS TO SAVE DUCKS

Two departments of the National Government are moving swiftly to save the lives of ducks that have been "committing suicide" by the thousand by feeding in the wild celery beds around the Aberdeen Proving Grounds.

The Department of Agriculture conducted an exhaustive investigation when dead and dying ducks were found in the swamps and discovered that they had eaten celery coated with phosphorus dropped from projectiles and grenades used in experiments at Aberdeen.

The War Department at once ordered that "frightening devices" be erected over the celery beds in the danger region and that experiments hereafter be limited to places where water was deeper or where there are no feeding grounds for ducks.

There was much conjecture two months ago when ducks were found dead in great numbers. It was believed at first that concussion from firing of heavy explosives had killed them.

FIGURES SHOW OUTPUT

Figures which give the average annual output of each county's agricultural and industrial activities and vividly disclóse the attractive buying possibilities of the Eastern Shore people, are as follows:

Caroline, $8,250,152; Cecil, $13,649,000; Dorchester, $11,284,301; Kent, $7,332,681; Queen Anne's, $8,072,616; Somerset, $7,956,760; Talbot, $7,938,283; Wicomico, $14,665,483, and Worcester, $10,506,310.

The total is $88,655,596.

Customer Cooperation

TELEPHONE service consists essentially in providing the facilities for communication.

Reduced to fundamentals, it may be stated thus:—

A is provided with a telephone.

B is provided with a telephone.

C, through wires and mechanism, connects these two telephones.

Satisfaction with the service depends largely on A and B.

From the very beginning their cooperation is imperative. A must call B and B must answer. Doing these things in the way which makes for good service involves:—

1—Such care in asking for the number as one would use in addressing a letter.

2—Such promptness in answering the call as one would give to keeping a personal appointment.

3—Such courtesy as one would show in making or receiving a business or social call.

4—Such clear, correct speech as one would use in the face-to-face transaction of the most important business.

Each subscriber can increase the effectiveness of his telephone communication by such thoughtfulness as he would employ in his daily life.

SEED

Every year presents new crop and market conditions to the Seed trade.

This year we are confronted with short crops of Red Clover due to less acreage last year and a poor yield. We have made a careful study of conditions from Government and Trade Paper reports, and know that we are in a position to sell you Quality Seed as cheap as they can be bought from any source. We have Seed on hand now, and will be glad to show them to you in the bags, so you are sure of what you are to get.

MARYLAND LEADS STATES

Maryland at the end of the year finds itself with 2,350 miles of improved roads included in its system under State maintenance out of a total of 15,000 miles. No other State in the union has half of this percentage of the total in its road system. California, for instance, with its 57,000 miles of road has but 3,500 miles improved; Illinois, with 55,000 miles of road has approximately 2,200 miles improved.

That Maryland should have a system of improved roads so much greater than any other State in the union certainly cannot be attributed to the wealth or density of its population, or to its natural or geographic advantages. It may, of course, be attributed to its people because its people is acknowledged the best people on the earth, but the probabilities are that it is most attributed to the fundamental policy of road financing than to any other thing.

HAVE YOU

Heard the Latest

Have you heard any of the comments all around the county about the new doctor in Chestertown? According to folks who have been to him he cures 95 per cent of all human ailments by working on the spine and spinal nerves.

Some say he practices the greatest Health System known. Others call him a fake. Those who praise him have tried him. Or some of their friends have told them of the remarkable results they obtained. Those who "knock" are the kind who knock everything new without trying it. Some day some one will knock at their bed room door, and walk in to find them "knocking" their heads against the bedstead, because they had nothing else to knock. While yet a comparatively new method in this part of the country, Chiropractic is growing by leaps and bounds and winning public confidence and favor.

If you are sick of being sick and want to get well, call on Dr. Dill, the Chiropractor, in Chestertown. You will find him honest and reliable, and anxious to rid you of your troubles. He uses no medicine, pills, massage or electricity. He traces 95 per cent of all human ailments to the spine, the great switchboard of the body.
