EGG MARKET AND EXCHANGE

Unless well laid plans go amiss, Farm Bureau members and members of the Atlantic Coast Poultry Producers' Association, will within the next few months be shipping their egg crop to a well organized and equipped egg market and exchange in Baltimore instead of the present arrangement by which these members are compelled to ship their eggs to New York to be sold by the Atlantic Coast people.

Poultrymen in many parts of the State, and this includes the Farm Flock as well as the commercial poultryman, have for some time been interested in the idea of having the Atlantic Coast people open a branch of their New York Egg Exchange in a convenient place in Baltimore thus giving Marylanders the benefit of a great saving in the way of freight and express charges.

The Maryland Farm Bureau Federation, through the State campaign in the State to sign up sufficient additional members in the Atlantic Coast Organization to represent not less than 60,000 hens. The present membership in the association represents approximately 40,000 hens, so that with the additional number, the total will be around the 100,000 mark and just as soon as this goal is reached, the Atlantic Coast people promise to establish an up-to-date egg marketing exchange in Baltimore.

The campaign for members will launch shortly and practically every poultrymanin the State whose flock of hens number 200 or more, will be solicited and urged to sign up in the association and to take the advantage of the opportunity offered to market his eggs in this orderly and co - operative manner. Secretary Stewart will put a competent force in charge of the campaign with a view of giving it a whirlwind finish and assuring its complete success.

Webb Phoebus Commanded Burned Craft Valued at $30,000.

The Victor Lynn, an oil-burning freighter that plied between Salisbury and Baltimore, was destroyed by fire Monday afternoon in the Wicomico river following an explosion from the feed pipe.

Capt. Webb Phoebus, of Baltimore and the six members of the crew were saved and put ashore at White Haven.

It was impossible to save the ship. She burned to the water in two and a half hours, as she was permitted to float out into the river.

Gill Bros. Formula Is An Open Secret

A young man once suggested "that we sell our formula for Gill Bros. Ice Cream to manufacturers in other towns who wanted to know how to make Ice Cream as Chestertown enjoys."

We told him we had no formula to sell. Any chemist could readily analyze Gill Bros. Ice Cream and find just how we make so delicious in flavor, sc rich and so pure.

Gill Bros. Ice Cream contains the same choice fruits, nuts, berries available to any other ice cream manufacturer.

More than this, it is made from our pure cream furnished in constant plenty from the pasteurized output of our private sources of superior milk supply.

Above all, it is produced with all possible skill and care to maintain the GILL BROS. reputation for highest quality—and to keep faith with a public that has put the stamp of approval on our daily production. There is no richer, no better flavored, no purer ice cream anywhere.

For Continuous Service

The Central Office Operator

FORTY-EIGHT years ago the telephone was a toy, thought by many to have no commercial value; today it is an indispensable factor in our daily lives. Day in and day out the flashing of myriads of tiny lamps, the calling signals, on the switchboards continue, and day in and day out the operator must be on the job.

Good telephone service is only possible because the central office operator is intelligent, willing and interested in her work.

From expecting little, the American public has been educated to demand a high quality of service, and gets it ---the most efficient in the world.

Aptly has the telephone been called "The Sentinel That Never Sleeps"
