DODGE BROTHERS ROADSTER

Important Improvements in the Construction of Dodge Brothers Motor Cars

CONVENIENT GEAR SHIFT ARRANGEMENT

The hand gear shift lever has been moved forward, thus allowing easy access to the driver's seat. The throw of this lever hns been shortened to faciliate easy gear shifting, while a strong spring prevents the lever from rattling on its seat. A lock built in the transmission locks the gears in the neutral position. This lock has been approved by the Underwriters' Laboratories.

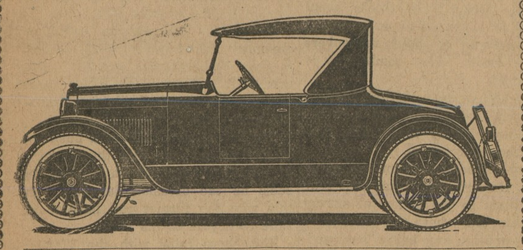

ATTRACTIVE STEERING WHEEL AND HAND CONTROL

The steering wheel is of moulded fibre construction and holds the spider firmly without the aid of screws.

The spark and hand levers are shorter, conveniently located, and are retained by friction on a handsome nickle quadrant. The horn wire is now carried inside the steering column.

ACCESSIBLE BRAKE CONTROL

The hand brake lever has been moved forward out of the way in an easily reached position.

WASHINGTON COLLEGE $250,000 CAMPAIGN

In speaking of the coming appeal to the citizens of the Eastern Shore for the Washington College Endowment Fund of $250,000, Mr. Allan A. Harris, who has accepted the Chairmanship in Kent County, made the following statement:

"As a public spirited citizen interested in the welfare of the Eastern Shore, I could not do otherwise than accept appointment for service in my own county and this, even though I am not an Alumnus of Washington College, for I regard this institution as one of the most important assets of the State.

In the first place, it is the only college on the Eastern Shore which has a white population of approximately 150,000. It is generally recognized that there should be a college to every 50,000 population because more than half of the college students of our country have come from institutions within 50 miles of their homes and I am informed that it is conservatively estimated that between 60 and 70 per cent of Washington College graduates would never had college education without the help this institution afforded.

A college is a great business asset. It is a producer of producers. The prosperity of the Eastern Shore in a business way depends upon the intelligence and resourcefulness of our citizens. The function of a college is to teach men and women how to think straight. Wealth is not picked up. It is produced and our colleges turn out the men and women who do the producing. This is evident from the fact that while less than 2 per cent of our population is college trained, this 2 per cent produces 72 per cent of the notable men and women who are listed as Who's Who. In the business world, 90 per cent of the college men make good as against 25 per cent of the non college men. It was shown recently in a survey made by the State authorities in New York and Indiana that the college trained farmers earn 2.6 times as much as those having only a common school education. As a business man therefore, interested in our prosperity, I am interested in boosting Washington College."

The present situation as indicated by President Titsworth of the college, is very simple. Heretofore, practically the entire support of the institution has been received from the State. Governor Ritchie has felt and in this State educational comsion concurred that the Alumni of the college and the citizens of the Eastern Shore should give him evidence of their interest in the appreciation of Washington College and that this expression should be in a substantial form, particularly in view of the fact that the State support must gradually be reduced or withdrawn. It is, therefore, the Governor's feelings that the citizens of the Eastern Shore should do for Washington College what the constituency of practically every college in the country has been and is now doing, namely; provide endowment for the permanent support of the institution. As an encouragement to this, the Governor agreed to place in his supplementtry budget, an appropriation of $100,000 for Washingtton College upon condition that $200,000 additional be subscribed and given by Eastern Shore citizens. The campaign is being organized in the nine counties and other sections served by the college and it is expected that the appeal can be presented and fund raised before Easter. The committee is charge, are arranging that payments on pledges can be made in five annual installments, beginning July 1st, 1924; checks should be made payable to Senator W. B. Copper, Treasurer of the Endowment Fund. The necessary expense incident to the campaign is being provided by several friends of the college as that one hundred cents of every dollar given, will go into an Endowment Fund that will perpetually provide support for the college.

AFTER AN OPERATION

Mrs. Wilke Couldn't Get Back Her Strength Until She Took Lydia E. Pinkham's Vegetable Compound

Rochester, Minnesota.—"I had a very serious operation and it seemed as if I could not get my health back after it. I suffered with pain almost constantly. My sister came to help take care of me, and she was taking Lydia E. Pinkham's Vegetable Compound for nervousness and a run-down condition. She had me try some of it, and in a very few days' time I began to feel better. In two weeks I hardly knew myself and after taking a couple of bottles more I was up and helping around, and now I am strong and healthy again and am still taking it. It is a pleasure for me to write this to you, and I hope that many other women who are suffering like I was will find out about your medicine. I will give any information I possibly can."—Mrs. JAMES WILKE, 933 E. Center Street, Rochester, Minn.

Remember, the Vegetable Compound has a record of fifty years of service and thousands of women praise its merit, as does Mrs. Wilke.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Company, Lynn, Mass.

WHOLE FAMILY FINDS TANLAC PERFECT TONIC

Retired Publisher Tells of Experience of Family—Calls Tanlac "Bottled Energy."

"Judging from the splendid results it has accomplished for myself and family, Tanlac is certainly a medicine and tonic of unusual merit," recently stated August Strauff, widely known retired publisher, residing at 5016 Catalpha Road, Baltimore, Md.

"As a result of stomach, liver and kidney disorders in the early months of 1923 I became badly run down and felt miserable most of the time. I had little desire to eat, my food did not assimilate properly, my rest was broken by nervousness and I seldom felt like getting up in the mornings.

"My wife and two children also were run-down as a result of winter colds, and nothing seemed to help any of us much until we began taking Tanlac in early summer. Then we all seemed to get well along together, and now we are enjoying better health than at any time within a year, There's something about Tanlac that gives a person 'pep and go,' It certainly is a great medicine and might be termed 'bottled energy.'"

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

While attempting to thaw a frozen gas pipe on his car, Hodge Coleman, of near Sudlersville, had a narrow escape from serious injury, when the gasoline tank exploded, setting the garage on fire. The garage, the car, and a carriage were totally destroyed by the flames.

A properly installed aerial instead of being a danger to a building is said to be an added protection, even better, in fact, than a lightning rod, according to many radio experts.
