DODGE BROTHERS ROADSTER

Important Improvements in the Construction of Dodge Brothers Motor Cars

CONVENIENT GEAR SHIFT ARRANGEMENT

The hand gear shift lever has been moved forward, thus allowing easy access to the driver's seat. The throw of this lever hns been shortened to faciliate easy gear shifting, while a strong spring prevents the lever from rattling on its seat. A lock built in the transmission locks the gears in the neutral position. This lock has been approved by the Underwriters' Laboratories.

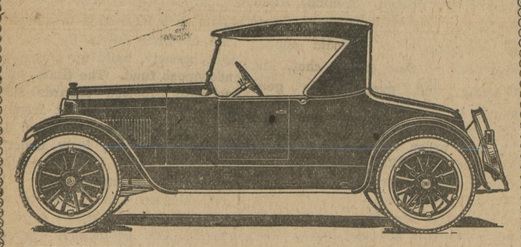

ATTRACTIVE STEERING WHEEL AND HAND CONTROL

The steering wheel is of moulded fibre construction and holds the spider firmly without the aid of screws.

The spark and hand levers are shorter, conveniently located, and are retained by friction on a handsome nickle quadrant. The horn wire is now carried inside the steering column.

ACCESSIBLE BRAKE CONTROL

The hand brake lever has been moved forward out of the way in an easily reached position.

A GREAT NEED NOW BEFORE US

The speech of Governor Albert C. Ritchie, addressed to both houses of the State Legislature recently dealing with the question of State aid to Washington College and other similar institutions, should put the citizens of every county in the State, particularly, citizens on the Easttrn Shore, on their mettle. The Governor says, in effect, following the recommendation of the College Commission appointed by him to investigate the matter, that the State has continued long enough unaided in the support of Washington College. If State aid is to continue, the citizens of Maryland particularly those on the Eastern Shore, must do what the citizens in other States have done; begin to provide an endowment fund. To replace the annual appropriation for maintenance now being made would require that Washington College have an endowment fund of $900,000. It is evident that such a sum could not be immediately secured but the State will furnish $100,000 toward the beginning of such a fund, provided friends of the college raise at least an additional $200,000. An organization has been effected to make this appeal, and every county is being organized with a definite quota assigned. The Alumni who have just paid off the $75,000 debt of the college will likewise contribute to the endowment fund, but they need help. In recent years under strong administration and with an increased interest in higher education, Washington College has shown remarkable vigor, indicating a great future immediately before it. The attendance at the college has increased 50 per cent within three years, and the College Department enrollment has doubled in the same time. State aid has made this possible. Now, however, the State feels that it is up to the citizens, particularly of the Eastern Shore. George Washington made the first contribution of $500 to the founding of the college in 1783. His friends joined in providing a fund of $30,000, a large amount in those days. It really represented one-twentieth of all the currency in circulation in Maryland. A Citizen's Campaign Committee has been formed and every county on the Eastern Shore is being organized, and our citizens will be expected to help provide this fund of $250,000. The committee has wisely given subscribers five years in which to make complete payments on their subscriptions. This appeal to the people of the Eastern Shore will find a ready response. The small college will never be supplanted by the large university. Two-thirds of Washington College graduates would never have had a college education had it not been for college near their home. We must mak ours a standard Class A College and this endowment will be a step in the right direction.
