DODGE BROTHERS ROADSTER

Important Improvements in the Construction of Dodge Brothers Motor Cars

CONVENIENT GEAR SHIFT ARRANGEMENT

The hand gear shift lever has been moved forward, thus allowing easy access to the driver's seat. The throw of this lever hns been shortened to faciliate easy gear shifting, while a strong spring prevents the lever from rattling on its seat. A lock built in the transmission locks the gears in the neutral position. This lock has been approved by the Underwriters' Laboratories.

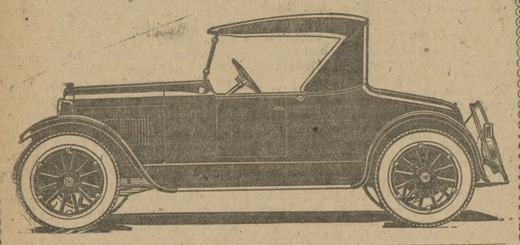

ATTRACTIVE STEERING WHEEL AND HAND CONTROL

The steering wheel is of moulded fibre construction and holds the spider firmly without the aid of screws.

The spark and hand levers are shorter, conveniently located, and are retained by friction on a handsome nickle quadrant. The horn wire is now carried inside the steering column.

ACCESSIBLE BRAKE CONTROL

The hand brake lever has been moved forward out of the way in an easily reached position.

IN MEMORIAM

In loving remembrance of our dear wife and mother, Mary E. Dolan, who departed this life 8 years ago April 8, today, recalls sad memories

Nobly, at her past she stood
Our mother, kind and true,
Beloved by her friends so well
And kind to all she knew.
She toiled with us for many
Years as by our side she stayed
And kept our hearts from fears
Nor thought to be prepaid.
A happy home we once enjoyed,
How sweet the memory still
But death has left a vacant home
This world can never fill.

By her husband and children, James Dolan.

Pure bred water puppies, eight weeks old. W. DUNCAN DERINGER, near Locust Grove, Md., Post Office Millington, Md., R. F. D.

Maintenance and National Service

NATURE is both the ally and the enemy of the telephone. One of her forces, electricity, carries the voice of man afar. Others, as flood, tornado or sleet storm, can cripple communications in a large area through their devastating might.

Each pair of telephone wires in the Bell System is a pathway for reciprocal speech. When beaten down by the uncontrollable forces of nature, that pathway to fifteen million telephones is blocked, and none of the nation's voices can pass that way.

Reserve materials must be on hand, that storm damage may be repaired without delay. Adequate funds must be made available so that the cost of restoration may be met.

National telephone service is only possible through an organization capable of handling, on a nation-wide basis, the problem of maintenance as well as of operation.

SYNOPSIS OF THE WEATHER

Aug, with dog days, hot and dry.
With scorching beams from Sol on high,
With seared meadows and dried up brooks,
Then off we hie to shady nooks.
To Aug, we throw a parting "cuss."
The nineties are too hot for us.

Sept. comes in a pleasant way,
As fragrant as a morn in May;
Grain, vegetables, flowers and fruit galore,
Sept. breezes from the tropic shore;
With the harvest moon and sunrise haze.
Delightful nights, as well as days.

Oct. comes in with withering smiles,
And knocks gay flowers in withered piles,
Cold northeast rains then bright sunshine,
The weather mostly very fine.
The weird hoots of the booby owl,
Is heard as the chilly night winds howl.

Nov. then will be here on time.
Some of the weather will be fine,
Then dark clouds hover o'er the scene,
With snow squalls dancing in between,
With Cyclones raging o'er the lakes,
And cold waves following in their wakes.

Old Dec. comes in to end the year
And fill us all with Christmas cheer,
Old boreas howls around the coast
And freezes everything—almost;
With snow and ice and sleet and rain
You'll know that winter's here again.

Well Jan. has come again to you,
To try perchance what he can do,
He'll blow some warm but lots of cold,
Old Jan. we know of you of old,
You'll freeze the ground a foot or so,
And often give us lots of snow.

Then old Miss Feb. makes her debut,
She's an old hydra headed shrew.
She blows cold waves o'er mountain range,
Then gives us snow drifts for a change,
Foul weather seems, that's all you make,
Old Feb. you surely take the "cake."

FREE FISH FOR ALL

Mackerel is being given away in old Gloucester Mass. One day recently a half-million pounds of this fish were brought into the harbor, and on another day 660,000 pounds found their way to the wharves. It has been impossible to take care of all this fish. Down below in the fishing vessels the fish is on ice, but, owing to the size of the catch, the decks have been cluttered with fish knee deep. When the ships have docked all that could be split and salted in a day have, of course, been sold; the rest must be thrown away. Many Gloucesterites have been living on mackerel gratis for some time.

Those who are too proud to hang around the fishing ships have to pay 25 cents for two pounds, while the fishermen not having enough help have actually had to throw a lot of fish away.

Local fishermen say that there has not been such a mackerel catch in 40 years.

WOMAN SO ILL COULD NOT WORK

Tells How Lydia E. Pinkham's Vegetable Compound Stopped Her Suffering and Restored Her Health

Momence, Illinois.—"I surely can recommend your medicine to other women

who have female weakness, as it has helped me very much in every way possible. I was working in a dining room in town, and sometimes I could not do my work; had pains in the lower part of my body and had to stay in bed. One of my neighbors told me what good Lydia E. Pinkham's Vegetable Compound did for her, and it has surely done wonders for me. I hope all women who suffer will take my advice as the Vegetable Compound has done so much to bring back my vigor and strength."—Mrs. ALBERT E. DESCHAUD, Momence, Illinois.

Over 121,000 women have so far replied to our question, "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?" 98 per cent. of these replies answer "Yes."

That is 98 out of every 100 women who take this medicine for the ailments for which it is recommended are benefited by it. For sale by druggists everywhere.
