WOMAN WEAK DIZZY, FAINT

Found Relief in Taking Lydia E. Pinkham's Vegetable Compound. Always Recommends It

Bridgeport, Connecticut. — "I was completely run-down, had headaches, dizzy, faint feelings and other troubles women often have. As I had taken Lydia E. Pinkham's Vegetable Compound before, my husband said to take it again. I have now taken Lydia E. Pinkham's Blood Medicine, the Liver Pills, and six boxes of Lydia E. Pinkham's Vegetable Compound Tablets. I am feeling very good now and shall continue taking them for a while. I have been telling my cousin about the medicine and she wants to take it, too. I always recommend it." — Mrs. HENRY C. SMITH, R.F.D. No. 3, Box 6, Bridgeport, Conn.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved those symptoms by removing the cause of them. Mrs. Smith's experience is but one of many.

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, over 121,000 replies were received, and 98 per cent. reported they were benefited by its use. For sale by druggists everywhere.

Notice To Taxpayers

Notice is hereby given that the levy has been made for the year 1924 as follows:

STATE TAX 30 2-13 Cents on the $100
COUNTY TAX $1.50 on the $100
Corporation Tax, County 30 and State 15 on the $100.

Tax bills may be obtained upon request to Treasurer and paid net until October 1st. No discount will be allowed on any bills. Interest on State Tax will be added to all bills immediately after the first day of October, 1924. County Taxes, if not paid on or before January 1, 1925, interest will be charged from Sept. 1st, 1924.

DAIRY FACTS

WAGE WAR ON TUBERCULOSIS

Besides Organized Forces There Are Thousands of Accredited Veterinarians Helping.

(Prepared by the United States Department of Agriculture.)

Tuberculosis of live stock is being attacked on all sides. In addition to the large force of federal, state and county veterinarians engaged in the nation-wide campaign for eradicating this disease, there are thousands of accredited veterinarians assisting with the work. Records of the bureau of animal industry, United States Department of Agriculture, show that on March 1, 1923, there were 5,120 accredited veterinarians in the United States. As accredited herds are established the various states turn them over to accredited veterinarians, who test them annually at the expense of the owner. This permits county, state and federal veterinarians to devote all their time to herds that have not been accredited.

The federal government keeps in close touch with the accredited veterinarians and furnishes them every few months with information regarding the disease and any unusual conditions that may be encountered in the herds under supervision.

The tuberculosis-free accredited herd list is increasing very rapidly. The report of the bureau of animal industry just published shows that on March 1, 1923, there were 24,132 fully accredited herds, 260,034 once-tested free herds, and 332,887 herds under supervision.

MUDDY BARN LOT IS COSTLY

Additional Work Heaped on Dairyman Every Way He Turns—Clean Stable Pays Best.

A poorly drained barnyard costs the dairyman more money than he imagines. In some cases, no doubt, it costs him more than the laying of the necessary tile through which to keep it dry. It means additional work for him pretty nearly every way he turns—dirty cows, dirty stables and an extra physical effort on his own part in the matter of going about his chores with mud-caked boots. If he sells his milk locally from house to house, he probably loses many a customer who associates thoughts of the general appearance of the barn and its surroundings with the milk which is being delivered to his home. Clean environment in the case of a dairy barn offers a telling argument, in an advertising way, for the milk produced amid these surroundings.

COW TESTING IS IMPORTANT

Record Showing High Production of Animal Greatly Increases Price of Bull Calf.

A farmer sold a male calf for $35. Later its dam was tested for advanced registry. When the yearly record was completed it was found that the cow produced over 22,000 pounds of milk and 681 pounds of butter. Her next bull calf was sold for $300. This indicates in a concrete way something of the value of testing dairy cows.

Production of Cows.

Average production of dairy cows in the United States is 3,412 pounds of milk per cow per year. In Holland it is 7,585 pounds; Switzerland, 6,950 pounds, and Denmark, 5,666 pounds.

DAIRY NOTES

Nobody cries when a scrub bull dies.

* * *

Don't keep cows. Make cows keep you.

* * *

Good cream is clean cream, kept cool.

* * *

Tuberculosis is a community problem.

* * *

Fall calving usually gives best results.

* * *

The dairy cow, like a human being, enjoys sunshine.

* * *

The most successful dairymen raise most of their cows.

* * *

Milk from infected cows or from a creamery should be pasteurized before it is fed.

* * *

Milk substitutes are not equal to milk, but give fair results when used with care.

* * *

Creameries prefer the rich cream, as they can use it more easily and efficiently.

* * *

All calves should be fed regularly; very young calves should be fed three times a day.

* * *

The dairyman who produces and sells a low grade of cream is nipping profits in the bud.

* * *

Young dairy stock should have all the hay they will eat, and grain in proportion to weight.

* * *

"Keep the milk cool and the utensils clean." This applies as well in winter as in summer.

SIMPLE ENOUGH

In calling telephone numbers in Germany, instead of giving the number by single digits, they have a habit of giving it in blocks of two. Thus 2578 would be "twenty-five, seventy-eight." That seems simple enough in English, but try it out in German and it becomes "funf-und-zwanzig, acht-und-sieb-zig."

Daily Thought.

Hamper your iron when it is glow[illegible]
—Publius Lyrus.

PEARL HUNTING PROVES PROFITABLE OCCUPATION

Comparatively few people, in all probability, are aware of the fact that pearl hunting is a fairly lucrative occupation in certain local waters and that, upon some occasions, gems of startling worth are uncovered by individuals who are painstaking enough to stalk the elusive mussel to his lair, and rob him of the valuable stores in nature's treasure chest.

Two of the most recent explorers into the realm of pearl mines, are Henry H. Evans, of Rolph's Wharf, and L. A. Prettyman, of Galena, Kent county. On Tuesday they explored the smaller tributaries of Chester River and were successful in finding seveal pearls of substantial value. While none of the gems proved fabulously worth while, they were well repaid for the jaunt.

For many years pearls have been found in mussels of Chester River and Mrs. John H. Evans, of Rolph's is said to have a brooch worth several hundred dollars, set with pearls found in waters near her home. Just why some individuals have never embraced the opportunity to hunt pearls in some instances, have been found that were worth several hundred dollars.

New Light On Cause of Asthma and Hay Fever

The medical world has been groping about in the dark for years in an effort to find a "cure" for Asthma and Hay Fever.

These two ailments are undoubtedly among the most annoying and troublesome ailments man or woman can have.

During recent years, however, clinical experience has proven the fact that Asthma and Hay Fever have their seat of origin in the nerves that emanate from the spine, and the cure of course lies in correcting the trouble from its source.

For every effect (ailment) there must be a cause, and chiropractic is most successful because it strikes at the very source of trouble and removes the cause, so that the effect (ailment) disappears.

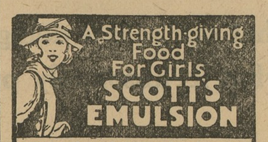

William Bright, of Worton, Kent county, suffered with Asthma for a long time. Medicine only seemed to aggravate the trouble, and he found himself on the decline. A friend who had just been cured of a similar ailment took him to Dr. Dill, the Chiropractor, and after a series of Special Adjustments, he was completely restored to health and is now well and strong and advises all who are sick to try Chiropractic.

If you have been ailing talk to someone who has given Chiropractic a fair trial, and you will hear a story of wonderful recovery.

Does It Pay?

B. S. SUTTON, at Blacks, took out a policy for $1900 in 1912 in the

MUTUAL FIRE INSURANCE CO. of Kent County, Md.

In January 1923, he canceled this policy and was paid $199.05.

He paid in premiums during the 11 years $376.20.

Thus he got insurance for 11 years for only $177.15, or about $16 per year.

SERVICE THAT COUNTS

The one superior thing we have for sale is OUR SERVICE.

Any one who takes out a license can sell any casket, from a Steel Bronze down; but to guarantee perfect preservation in all cases under all weather conditions requires scientific preparation for business. Our qualification is attested by a diploma from the Oriel School of Embalming and a post-graduate certificate from the Chicago School of Anatomy and Sanitary Science. With our many years study and experience and our full auto equipment, we are surely in position to do the very best work to the satisfaction of our patrons.

W. T. HICKS, Funeral Director and Embalmer.
