THE MEN'S STORE

Men are walking blocks out of their way to see these new ones!

MEN, as a rule, don't enthuse much over articles of apparel. Usually they take hats as a matter of course and when they take a stock by storm there must be some mighty big reason.

Ever since the first lid was lifted on this Fall display—the lid has been off.

We have been swept off our feet selling hats to men who have never had two feet in this store before—and in two weeks we have closed almost a season's business.

Why? Simply because we have the blocks that are worth walking blocks to buy—and if you haven't purchased your hat yet—there is no reason why you shouldn't cash in on the tip that others are capitalizing on.

OLD RESIDENT OF KENNEDYVILLE SICK FOR YEARS, NOW IN GOOD HEALTH

Neighbors Say Mr. George Acts Like He Had Monkey Gland Transformation.

In these days when farmers as a rule are depressed and sick thinking about hard times, and a poor corn crop, it seems hard to get the good plodders of the soil to laugh or "crack a good yarn," but Mr. Nicholas George is telling them like ten yards of hot dogs coming out of a boiling pot; one after the other.

A year or so ago, when monkey gland transformations were the fad, the papers were full of reports about the new owners of monkey glands going crazy, but Mr. George is just the other way. He is past seventy and just as active as a bumble bee.

A neighbor, Mr. Frank Cullen, accused him of being a monkey gland victim, but Mr. George only laughed and promised to take him to Chestertown and introduce him to his Doctor, who is Dr. Dill, The Chiropractor.

Mr. Cullen was also suffering with chronic sciatica which crippled him for years. He asked the doctor if he thought he was too old to be helped, but the doctor told him of a number of local residents from 60 to 80 who had almost miraculous cures.

Though skeptical, Mr. Cullen took the spinal adjustments three times a week for seven weeks and he too is entirely cured, and working again for the first time in over a year. Mr. Cullen thinks Chiropractic is the eighth wonder of the world, and Mr. George still talks about Dr. Dill in his sleep.

SCHOOL ATTENDANCE

In order that the parents may know our objective regarding the attendance of children, the following letter, which was sent to each teacher in the county, is being published. It is hoped that all will co-operate in helping their children come in for a share of the honors and prizes, to say nothing of the larger results and the greater benefits that are sure to follow regular attendance in school.

September 10, 1924.

Dear Teacher:

I trust you have begun this year's work with the conviction that attendance is the first consideration. You may work your fingers off, but it will avail nothing if the children are not in school regularly.

To help you accomplish your purpose, the School Board is going to furnish you a small monthly certificate at attendance for each child who is present and not tardy every session in the month. For every child who gets ten of these certificates during the year, beginning with Monday, September 15th, there will be given an enameled pin.

When he has won twenty certificates he will be presented with a prettier pin stamped with gold.

For the child who makes 50 per cent of the days that school is open, there will be a different award, which will be quite an honor and worth working for. The description of this award will be given later.

Then there will be a large certificate for the child who makes 90 per cent of the school days.

Without some misfortune every child in your school should win some one of the honors in attendance. Let us see if we cannot make this the banner year for Kent and make Kent the banner county for the State.

With best wishes and hearty co-operation in your work, I am,

Cordially yours,
MAY M. BECK,
Attendance Officer

Approved: L. C. Robinson, Superintendent of Schools.
