Essay Contest Closes November 10

The Farm Bureau Contest which has gripped the ambitions of the school boys and girls of the rural sections of the State since the beginning of October, is still running in high gear with little or no prospect of a let down until the very day of its close on November 10.

Letters reaching the State Farm Bureau office in Baltimore indicate that the enthusiasm is rampant in practically every county in the State, with the school teachers, farm bureau officials and county agents almost as much interested as the boys and girls themselves.

WORLD DOMINION BEING TRANSFERRED

MILLIONS NOW LIVING WILL NEVER DIE

The rapid changes of government among the nations seem only to check temporarily their steady approach to utter collapse.

Thrones are toppled over to make way for military dictators. Officials of republics serve only the selfish interests of big business; and instead of an improvement of affairs, each new move leaves the nations weaker. Suffering is increased; lawlessness becomes rampant; and hopelessness is followed by despair.

This march of the nations toward destruction and anarchy moves onward relentlessly. Armageddon, which nations seek to avert by their union, leagues, associations, and federations, looms up threateningly.

Yet man need not entirely despair. This troublous period of earth's history was foretold as immediately preceding the new order—a righteous world-wide government.

The WINDMILL with a RECORD

The Auto-oiled Aermotor has behind it 9 years of wonderful success. It is not an experiment.

The Auto-oiled Aermotor is the Genuine Self-Oiling Windmill, with every moving part fully and constantly oiled.

Oil an Aermotor once a year and it is always oiled. It never makes a squeak.

The double gears run in oil in a tightly enclosed gear case. They are always flooded with oil and are protected from dust and sleet.

The Auto-oiled Aermotor is so thoroughly oiled that it runs in the slightest breeze. It gives more service for the money invested than any other piece of machinery on the farm.

You do not have to experiment to get a windmill that will run a year with one oiling. The Auto-oiled Aermotor is a tried and perfected machine.

Our large factory and our superior equipment enable us to produce economically and accurately. Every purchaser of an Aermotor gets the benefit from quantity production. The Aermotor is made by a responsible company which has specialized in steel windmills for 36 years.

Try 2 Bags of **Larro** The Ready Ration for Dairy Cows

Every dairyman in this county shold investigate Larro. We want you to see how it will either increase your milk yield or else produce the same milk with fewer cows, less feed and less work. It keeps cows in "tip top" condition. Ends off-feed conditions. Does all this because its famous blend of selected ingredients is succulent, palatable, easily digested and highly nourishing. Contains positively no filler or off-grade ingredients. Your neighbors know these things are true. If Larro fails to produce more milk—the 2-bag trial costs you nothing! Why take chances with uncertain home mixtures? Why waste time? We invite you to try Larro at once.
