PLANT FLOWERS

Nothing adds so much to the beauty of a place as flowers. If everybody in Chestertown would fix their places and plant some flowers it would make this town more attractive. This is the time to plan and begin work. It need not take a great deal of time or labor and a few small beds here and there on a place will add greatly to it. Where there are fences these might be removed and flowering hedges planted and on division fences climbing roses would be very nice. Many of the high board fences could be hidden in this way.

STUDEBAKER

New Standard Six Coach

\$1295

f. o. b. factory [with full-size balloon tires]

STUDEBAKER has \$60,000,000 invested in plants in which Studebaker cars are manufactured complete, including all bodies, both open and closed. No other large automobile manufacturer that we know of makes all of his own bodies.

This means that Studebaker saves the profit of outside parts makers and body-builders. Thus the price of this new coach is not burdened by an extra profit. At \$1295 it represents a value no other automobile manufacturer can equal.

And no other manufacturer can offer a coach of such fine quality at the price. For every coach that Studebaker builds carries with it traditions of fine craftsmanship that have existed in Studebaker plants since 1852.

Compare this coach with other coaches which sell at much higher prices. This will prove that Studebaker values are unequalled.

**We Don't Blame Some Men
For Trading Out of Town!**

Let us repeat that we don't blame some men for jumping a train or stepping on an accelerator when the need for new clothes sets in—

They don't know us—they don't know this stock—they have never been in this store—and they don't know what's in store for them.

If the Chestertown men now wearing Clothes that were purchased in Baltimore or Philadelphia would take the time to drop in here and compare Notes and Notions—the P. B. & W. Railroad would sell fewer tickets and the Restaurants, Hotels and Theatres in Baltimore would do less business—and—
