(Crowded Out Last Week) MOTHER'S DAY

Sunday, May 10th is designated by Congress as Mothers' Day. How appropriate that we should set aside one day in the year to recall the days when mother kissed away our childhood cares and impressed upon our hearts and minds the memory of that love that now blesses us. Some of the most beautiful and useful lessons of life may be taught on this occasion.

Today the world needs the influence of mothers as never before. Character foundations are laid during the first twelve years of a child's life. Evil influences are abroad that are a menace to the children of the nation, teaching them disobedience to law and making them rebellious to the authority of the home, the school and the government. This condition must be met by the combined efforts of mothers. For half a century The Woman's Christian Temperance Union has stood for the protection of Home and Country. Mothers, why not take your stand with us. Interest your children in the work of the Loyal Temperance Legion and the Young People's Branch. Here much that is helpful in character building will be learned as well as valuable lessons in loyalty to Home and Country.

We are facing a dangerous period in our nation's history, youth is not on guard. Youth is daring and loves novelty. Youth is curious and loves adventure. Therefore when youth starts out to find new ways it should be under Christian guidance. Should be trained in Christian ideals. Be alert mothers, and be alert now. United States Rubber Company Celebrates Tenth Anniversary Of A Pioneering Advertising Program.

In 1915 there were 2,445,666 automobiles in this country. It seemed a tremendous number. Some people were already talking about "the saturation point" being not far ahead.

It took a lot of vision for them to see that the true market for the automobile had hardly been touched. Back in 1915, the United States Rubber Company said "The real future of the automobile is not in the big cities but away from them."

It is not in short runs on city streets, but in mile after mile on country roads. So back in 1925 the United States Rubber Company began to prepare for this movement—and to help it. 1915 — ten years ago — the first U. S. Tire advertising began to appear in the "home town" papers.

Few people saw these papers in their true dimension. The United States Rubber Company saw that the development of the automobile would be in the smaller communities, it saw that the people in these communities would have to have tires to measure up to the service and tire merchants to sell them. So ten years ago people began to read the first U. S. Tire Advertising in their "home town" paper—over the name of their "home town" dealer.

They have been reading it ever since. Co-incident with the tenth anniversary of "home town" advertising by the United States Rubber Company. This company announces another long step forward in the perfection of automobile tires—the greatest since the introduction of the cord itself—in its perfected Latex treated "Web Cord Royal Ballon" Tire with the flat top pressure tread.

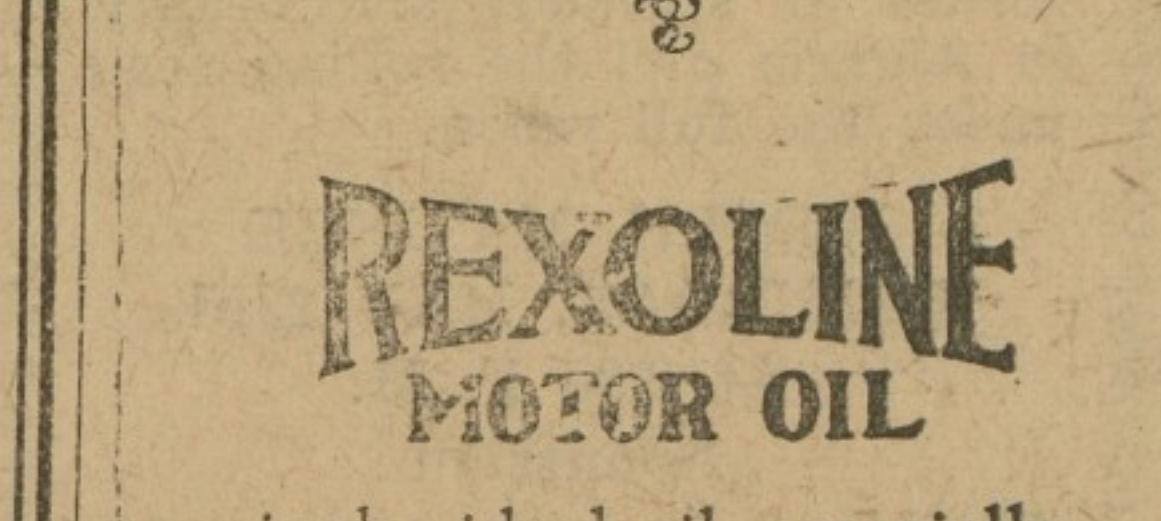

Today there are 16,000,000 automobiles in this country. 80 per cent of them are owned by men and women on the farms and in the smaller communities. Where there was one U. S. tire dealer in the small towns then there are hundreds today—real merchants.

What was only a vision in 1915 has come true in 1925.

The directors of the Third National Bank have decided to observe the 35th anniversary of the organization of the institution with a banquet and speech-making. Thomas W. Perkins and Albert S. Turner, stockholders, were appointed a committee to arrange the details. Covers will be laid for about one hundred guests.

It is constantly used by those motorists who delight in setting out upon the open highway, thrilled by the realization of extra power always at their immediate command.

is the ideal oil, especially when a longer country run makes extra demands upon the motor lubricant

Washington College took sweet revenge for the 3-2 licking handed out by the Blue Ridge College nine a week ago, when it trounced the New Windsor squad, 14 to 0, on Friday afternoon at the local diamond. The visitors, who had put up a wonderful battle on their home field, were meek as lambs before the attack of the Eastern Shoremen Friday.

Jack Carroll twirled a masterful brand of ball, while his teammates slammed the offerings of both Hatcher and Heberlig to all corners of the lot. Carroll let the visitors down with four slinky singles and never did they threaten.

The Washington College sluggers jumped on Hatcher in the opening frame and smashed five tallies over the plate. The New Windsor hurler stood up under the bombardment until the seventh, when Heberlig rushed to the rescue. Heberlig had the Shore-Coach Kibler's sluggers solved his delivery in the eighth and pushed another over the counting station.

Prof. Johns Resigns From College

President's Office, Washington College, Chestertown, Md., May 11, 1925:

Washington College is taking this opportunity to announce with regret the resignation of Mr. James W. Johns, as professor of education, to take effect at the termination of the present academic year. In presenting his resignation, Professor Johns announced his intention of going into public school work in the near future. He has been an indefatigable worker; a loyal collaborator; a congenial colleague; a devoted alumnus and an able and popular teacher at Washington College. He has also served for some time as an efficient treasurer of the boarding club and has succeeded in putting its affairs on a sound business basis.
