The Home Is A Business

The many advantages of the personal checking account quickly appeal to women. Paying all the bills by check eliminates all discussions, as cancelled checks are receipts. When the housewife has a checking account budgets are easier to keep; savings are less subject to disturbance; thrift is established as a practice; and the home is placed in its rightful position as a business—conducted along business lines. Open a checking account for your wife at this bank. Give her the opportunity to show you how efficient she can do. No doubt she will show you a healthy cash balance at the end of a year.
