OFF TO HOLLYWOOD, FLORIDA

One of the headquarters of winter sports the coming season will be Hollywood, Fla., 15 miles north of Miami and 50 miles south of Palm Beach, according to Joe Kelly, sports director of that city who has been in New York working out plans for the next sport season.

Mr. Kelly represents J. W. Young, builder of Hollywood-by-the-Sea, in this sports promotion. He is in the east to engage two gold professionals of international reputation to represent Hollywood in the Florida golf league next winter. Last winter, Gene Sarazen and Leo Diegel represented Hollywood-by-the-Sea and won first honors in that organization. In the league were such stars as Walter Hagen, Joe Kinkwood, Jim Barnes, Freddie McLeod, Johnny Farrell, Bobby Cruikshank, Mike Brady, Tommy Armour, Cyril Walker, Jimmy Maiden, Dow George and George Kerrigan.

The Florida Golf League, according to Mr. Kelly, should be a bigger and better organization next winter than last for it did have some defects in its first year of life.

Mr. Kelly too had been looking toward arranging some national swimming events for the casino at Hollywood. He says several meetings will be held at Hollywood during the winter season—that both men and women cranks will be in a program. He is lining up all the swimming stars for next winter's competition.

Southern Florida, he says, is to make an effort to get some of the major league teams to train in that section, instead of the Florida West Coast and central portions where now a majority of the big league clubs train. The weather, Mr. Kelly says, is much more suitable for base ball training in southern Florida, even up to this time, little effort has been made to get the big league teams there.

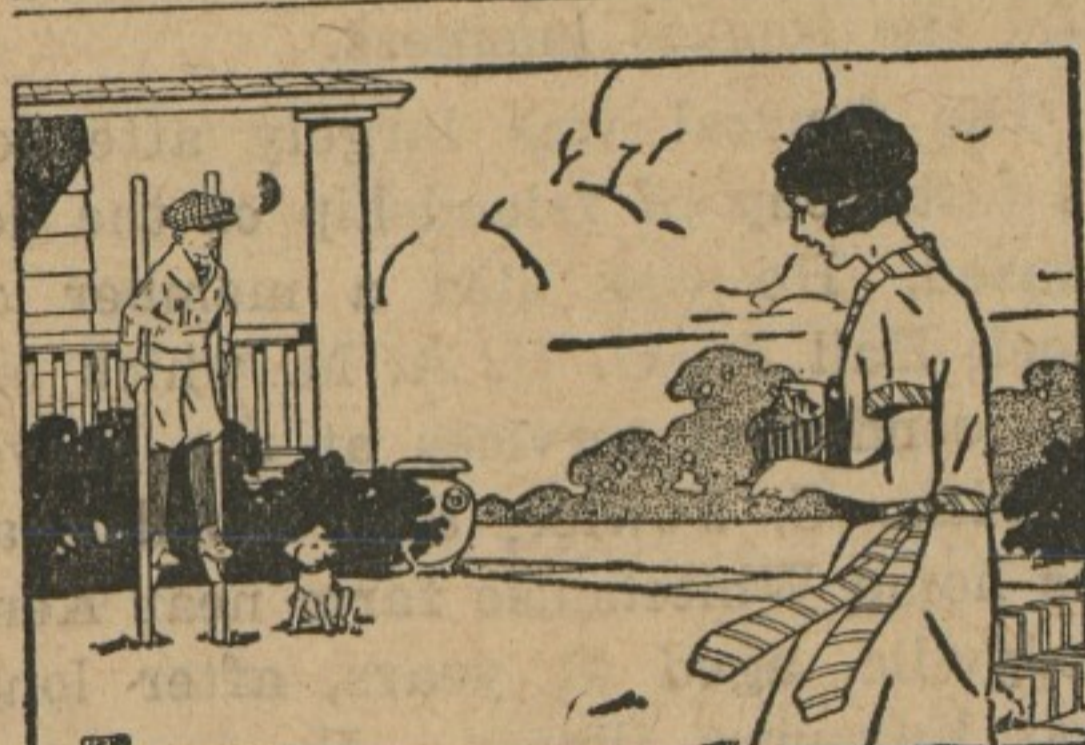

Hollywood, he says, is inviting some major league clubs to train in that city. Miami, likewise will try to get a big league club as will Miami Beach, Fort Lauderdale and West Palm Beach. If three or four clubs could be brought to Southern Florida during March, when the South Florida social season is at its height, much money could be made from the exhibition games. There would be a sufficient number of teams there for practice and games could be arranged between the teams in the south with those in the west and central section.

A WONDERFUL SIGHT

While on a visit to Ocean Grove, N. J., the News man visited the naval air station at Lakehurst, the home of the U. S. S. Shenadoah and Los Angeles, the two largest dirigibles in the world. The hangar where these giants are housed is 962 feet long, 268 feet high and 348 feet wide. The Woolworth building lying on its side could be placed in the hangar. Herein these giant air ships were resting at anchor as peacefully as a ship on the ways.

We walked on swinging platforms about the Los Angeles and examined the pilot compartment and the sleeping quarters, etc., and marvelled at the completeness of the affair.

The Shenadoah was being equipped with guns and last Friday made the trip safely to Newport, R. I. It is 680 feet long and 78 feet wide; while the Los Angeles is 556 feet long and 90 feet wide. They each carry 45 men and make a speed of 75 miles per hour. The fine sleeping compartments each carry four passengers. They require 300 men to dock one of these giants into the hangar. While they looked perfectly safe and fitted out with all conveniences we made no request for accommodations on the next trip.

Keep the Story with a Kodak

Billy proudly "trying out" his new stills—it's a chance for mother to get a Kodak picture of her boy. Story-telling pictures like this make the record of childhood days. And, kept in an Eastman album, the story is complete—a treasured possession later.

The camera you want, at the price you can afford, is at our Kodak counter.

Kodaks \$6.50 up. Albums 25c up.

The difference between just "getting by" and prospering is the difference between small and large wheat yields.

Heavy acre yields, grading high, with practically the same investment as for a poor crop, are the natural result of the proper use of Royster Fertilizers.
