

DAIRYMEN WANT AN INCREASE FOR MILK

The Easton unit of the Inter-State Milk Producers' Association held a meeting in the Court House Thursday, when a better price for milk and the methods of testing milk were discussed.

H. D. Alleback, of Philadelphia, president of the association, gave a splendid outline of milk situation in Philadelphia. This city, he said, has an influence on the price of milk in twelve cities, and it is important that the dairymen get what is deemed a price sufficient to afford a small profit.

The high cost of feed is one of the reasons why the price should be advanced at this time. And again the basic period is now on, and it is very improbable that dairymen will increase their herd in order to supply surplus milk in the future at a lower price than the basic.

Clayton Reynolds, of Philadelphia, check tester for the Inter-State Milk Producers' Association, was present and gave a most interesting talk on the methods now in use of testing milk.

Another thing the dairymen were called together for was the selection of a delegate to the annual meeting of the association, which meets in Philadelphia on November 23, 24 and 25. At this meeting the delegates will elect directors for the ensuing year. Mr. Marvel is a delegate and has 20 more years to serve. It is the aim of the dairymen in this locality to elect if possible the delegates now serving from Centreville, Kenndyville and Cecil county. Their terms have expired and they are up for re-election. Having the interests of the Eastern Shore at heart, the dairymen in this section are interested in their re-election.—Star Democrat.

Now "Lively Heat" from common kerosene

RED STAR OIL STOVE

Think of getting vigorous "Lively Heat" from an oil stove! Yes, the same intense cooking heat given by a bed of red-hot coals or a modern gas or electric burner.

That is the kind of "Lively Heat" you get from a Red Star Oil Stove—produced from common kerosene or gasoline, without wicks. Converts these fuels into a gaseous vapor which, when burned, gives the active, keen heat required for perfect cooking and baking.

As beautiful, sturdy, sanitary and easy to clean as the best gas or electric stove. Yet it costs no more than any good oil stove.

A type and size for every home

The Red Star brings freedom from the inconveniences of a coal or wood stove. It starts cooking the instant burner is lighted. It means a cool kitchen in summer. The oven burner provides delightful warmth for cool days. Your furnace insures a comfortable kitchen in winter. Convenient terms of payment gladly arranged.

Jacob Downey is quite ill at his home on The Haven.

Mrs. Etta Leaverton celebrated her 89th birthday anniversary Friday at the home of her daughter, Mrs. Sarah Crosby. Sunday morning she attended Divine services at the M. E. Church.

Mr. and Mrs. David Ayres have gone to Camden, N. J., for the winter months.

Mrs. Harry Thompson, who spent ten days at Easton Hospital and underwent minor operation, is convalescent.

Joseph Jones and family have moved from Bridgeton, N. J., to a bungalow just east of town.

Mrs. Harry Kingsland has gone to Pittsburgh for the winter and will return in the early spring when she intends to build a new boarding house.

Charles Pierce, of the Island, fell in his boat last week and has a swollen, possible broken wrist.

Nathan Satterfield has had a couple of falls recently, but continues at his employment as janitor of the elementary school.

Thomas Hogans is better and hopes soon to resume the mail route to Chestertown. His present helper is Oliver Kendall, Ellsworth Wheland having resigned.

Willis Durdin's family moved last week to Baltimore and the vacant home will be occupied by Mrs. Marvita Hubbard.

Allen Urie has moved from the postoffice building to the dwelling recently purchased from Robt. Shallcross.

Walter and Fountain Joiner went to Florida, a month ago and have taken rooms and found employment so will stay until spring, but they report that Florida is not what it is talked up to be.

The school festival at the High School Building netted more than \$200.00.

Solving An Old Problem

There are so many friends and loved ones that simply must be remembered at Christmas. Each one is expecting a present from you. That means you will have to dig down deep to make their Christmas merry.

To help finance your Christmas buying this bank has a savings plan, the CHRISTMAS SAVINGS CLUB, which solves the old problem that worries you each year.

Under the CHRISTMAS SAVINGS CLUB plan you can make small deposits, ranging from twenty-five cents up to a dollar or more each week. You'll never miss those small amounts and when Christmas comes next year you will be prepared with ready cash.

Everybody sees the wisdom of this plan and more are starting it this year than ever before. You should join too and also start a small account for the children and teach them the wise habit of thrift.

added Roominess
Come in and try the seating space in the Better Buick. There is more of it—added head room—added leg room—added width in seats for both driver and passengers. Buick engineers have discovered new ways to increase interior space.

They have made the Better Buick more roomy than other cars of even longer wheel base. It is a full-sized, man-sized car, for grown-up people to ride in, without being squeezed in. Come in and try it!

That "pay-day smile" when you smoke P. A.

WHEN a fellow's happy as a spring robin, he's just got to show it. Face lighted up like a sample house. Look at those jimmy-pipers all around you. You can't tell whether they've just got a raise, or whether they've been mentioned in a rich uncle's will.

But here's the secret: They've discovered Prince Albert! Just you tuck a neat wad of P. A. into the muzzle of that little old jimmy-pipe and make fire with a match. Man, alive. Here's tobacco as IS tobacco. Mellow. Mild. A win in every draw.

No other tobacco is like Prince Albert. Cool and sweet and fragrant. Not a nip or a scorch in a barrel of it. The Prince Albert process cuts out bite and parch, and develops a tobacco flavor that has solace and satisfaction written all over it.

Quality tobacco and no mistake. Quantity too! There are TWO full ounces in every tidy red tin. (Look at the revenue stamp.) Get together now—you and your jimmy-pipe and Prince Albert. Step around the corner and tell the man you want a tidy red tin of P. A. Then you're set for real smoke-sport.

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

Look at the U. S. revenue stamp—there are TWO full ounces in every tin.

PRINCE ALBERT

—no other tobacco is like it!
