ALL EQUIPMENT STANDARDIZED

As the result of a conference here by officials of the Chestertown volunteer Fire Company, Chief William Lutz, of Wilmington; Clarence Melvin, president of the Millington Fire Company; Clayton Wright, president of the Good Will Fire Company of Centreville, and Fred S. Russell, local fire chief, arrangements have been made to standardize fire equipment in the three Maryland towns so each company can operate from fire plugs in any of the towns.

The three fire-fighting groups will co-operate in case any one is called to another town, each sixteen miles distant from the other. At the same time it was decided to open a school of instruction for Chestertown applicants for posts on the active list here. Heretofore, members have been taken in regardless of previous training in fire fighting.

Blackboard talks will be given once a week by Chief Russell, Assistant Chief Thompson and other experienced fire-fighters of the local company. Others have been issued for the proper observance of signal codes during a fire so that firemen will not be compelled to shout back and forth to each other during a blaze.

The company has thirty-eight active members and two pieces of up-to-date apparatus. Centreville numbers twenty-eight active men and two engines. Millington has enrolled thirty-six firemen and possesses one large and powerful engine.

A salvage corps has been added to the Chestertown group with Theodare Wood as captain. This subsidiary organization will co-operate with insurance companies in saving property, both real and personal.

The Chestertown Company was organized in 1891 with Thomas D. France as first president. His portrait has just been unveiled in the improved firehouse, opened this week to the public inspection. Wm. L. Fowler is the oldest member of the company.

The entire active and inactive membership will attend a special service in Christ M. P. Church March 21st. The Rev. N. O. Gibson, pastor, will preach.

Buick Is More Expensively Built

Buick is built more expensively than any other cars in or near the Buick price class.

"Expensively built" means that the different parts and units of the Buick motor cars are the best that engineers can design. But, thanks to the large volume which public demand has given to Buick, and thanks also to production methods that are models of efficiency in an efficient industry, the Buick motor car can be sold to you at a very moderate price.

Many Buick features are duplicated only in America's highest priced motor cars.

Buick, for instance, uses the Torque Tube Drive to transmit the drive of the rear wheels to the chassis, instead of burdening the rear springs with this added duty. The highest priced car in America uses the torque tube. And so does Buick.

The American public wants finer transportation and Buick provides it at lower cost. Consequently Buick is a very popular car. Come in and examine the Better Buicks.—The N-B-R Motor Co., local dealers, Chestertown, Md.

For a demonstration of the Improved Chevrolet see the N-B-R Motor Co.

CANDIDATE FOR
TOWN COMMISSIONER

I hereby announce myself a candidate for Town Commissioner subject to the votes of the taxpayers at the annual election to be held on Monday, April 26, 1926. I ask the support of all taxpayers and if elected I pledge myself to work to their interest.

f20-tf J. W. KIRBY.

CANDIDATE FOR
TOWN COMMISSIONER.

Assuring the public of my interest in every movement that will help our community in any way and believing that better streets and sidewalks add to the value of every home and business and promising you that if elected I will use every effort to continue these needed improvements I hereby submit my name for your consideration as a candidate for Town Commissioner at the election to be held April 26th, 1926.

CHAS. N. SATTERFIELD.

House on Chester river within a few yards of Queen Anne's side of Chester bridge. Possession at once. Apply to either Kent News or Eli

Five Clubs Prepare For Big Foxhunt In Kent

Accompanied by the music of baying hounds, attended by brightly attired grooms and sitting lightly on their prancing steeds, riders of five hunt clubs set out bright and early Friday morning to give chase to canny Reynard through the environs of old Kent.

At the signal of the chase's opening horn lords and ladies of the Green Spring and Elkridge Hunts of Baltimore, Rock Creek Hunt of Washington, Far Hills Hunt of New Jersey and Kent County Hunt will assemble for a two-day sporting event that promises to be the most thrilling of a long session of Eastern Shore foxhunts.

Preparations for the colorful occasion are now being made by Howard Bruce of the Elkridge Club, John Thomas of the Valley Huntsmen, George Brice of the New York and New Jersey aggregation, Wilbur Ross Hubbard, of Washington and Howard B. Strong, secretary of the local organization.

Among the guests of the Kent Hunt who will arrive here Thursday night will be T. Dudley Riggs, Jr., Jack Symington, Janon Fisher, Grainger Gaither, Miss Deborah Dixon, Miss Elizabeth Ober, George Brown, Jr., John G. Thomas, John W. S. Foster, James Piper, Congreve Jackson, Mr. and Mrs. Edgar A. Poe, Mrs. R. Curzon Hoffman, Jr., Miss Fanny McLane, Congreve Jackson, Frank Iglehart, Mrs. Grainger Gaither and Mrs. Jack Symington of Baltimore; J. W. Gregory of New York and Roland Dawson of Washington.

Baltimore huntsmen will arrive 30 strong and with 15 grooms. Two packs of hounds will be brought by Baltimore clubs. The first day out they will be used. On Saturday the Kent pack will try its luck.

Meanwhile the following local riders are preparing to join the chase: William Toulson, Harvey Brice, William French, Paul Massey, Jr., Edmund S. Hurtt, Lee Robinson, Dave Kendall, Frank Coleman, James Williams, John Brice, J. D. Maxwell, Jr., Wroth Stavely, Stephen Collins, Lewin U. Skirven, Skirven Startt, Andrew Wilson, Grover Coleman, Clarence Newcomb, Charles Quigley, Mrs. Richard Carvel, Miss Alverta Brice, Miss Rachel Willis, Miss Rowena Woods, Mrs. Wroth Stavely and others.

Riders from Cecil and Queen Anne's counties will arrive here Friday morning. Among them will be Miss Maria McKenney, Miss Nancy Wilson and John McKenney.

That Kent Island, lying off the Queen Anne's county shore and athwart the narrowest part of the Chesapeake Bay, will no longer be an obstacle to yachtsmen of three cities and the Delmarvia Peninsula is the substance of a bill now in preparation by T. Alan Goldsborough, Representative in Congress from the First Maryland District The bill provides that the United States Government dredge the channel of the Kent Island narrows to a depth of from five to seven feet. The passage of the measure not only would turn the waterway into a thoroughfare, but would mean a saving of miles of travel and many hours of time to vessels proceeding north and south.

Three sections of Queen Anne's County highway will be constructed this year according to an announcement made last Friday by Commissioner John N. Mackall, at a conference with County Commissioners R. H. Linwood Carter, Thomas R. L. Price and J. Fred Carter and Roads Engineer J. R. E. Turpin, in Baltimore. Stretches to be improved are os follows: One mile of 15-foot highway leading from Mary Carmichael's Corner toward Queenstown, in the Fifth District. Completion of the 9-foot highway between Dudley's Corner and Crumpton, which was under construction last year. One mile of 15-foot highway from the Queen Anne road toward Damsontown, in the Fifth District. This also is a continuation of the road started last year.

MONEY FOR FARMERS

We make loans to farmers for term of 33 years on easy payment mortgage plan of the FARM LOAN SYSTEM. We charge no COMMISSIONS and we do not require farmers to subscribe to any STOCK.

Loans are made for any farm Purpose or to pay off EXISTING MORTGAGES. If your farm is mortgaged why not get the advantages of one of our NEW mortgages that NEVER have to be RENEWED—a long term loan being paid off gradually. Semi-annual payments are fixed in advance and you know exactly what they will be. You need not pay more on principal unless you desire. Remember: NO COMMISSIONS and NO STOCK.

"YOU ARE ENTITLED TO KNOW THE FACTS"
DODGE BROTHERS, INC.

Over a Cliff in this STEEL BODY without injuring the DRIVER!

A careless driver . . . A triple somersault over a cliff . . . and this is the car—a Dodge Brothers all steel safety car.

A triple somersault over a cliff with the car you see in this picture! Such was the experience of its owner, who came through the fall uninjured.

After an hour of repair work, he drove the car from Montana to Minneapolis—a more sensible driver and much wiser.

All steel construction saved his life, as it has saved many other lives in the past, and will save thousands more in the future . . . . .

Dodge Brothers print this advertisement because they believe motorists are entitled to all steel safety and should insist upon it.

That's why Dodge Brothers introduced all steel construction more than eleven years ago—and recently announced additional all steel safety features.

The streets are swarming with 20,000,000 motor cars—millions more are on the way.

S[illegible] the issue. Armor yourself and you[illegible]mily with steel.

Dodge Brothers Motor Cars—both open and closed—are all steel in the strictest sense of the term. Steel reinforced by steel—framed, braced and buttressed by steel—with all seams solidly and permanently welded together by electricity.

Slim steel pillars replace the old bulky wooden corner posts—permitting unparalleled driving vision—a safety feature of the first importance.

Compare such bodies with the usual wood, or wood-and-metal body, and you will be astonished that every automobile builder has not adopted this advanced safety construction.

Remember, also, that safety is the watchword of Dodge Brothers construction throughout, as witnessed by Dodge Brothers exceptionally large, quick-action brakes, and the exceptional ruggedness and dependability of Dodge Brothers axles, frames, steering parts, and other vital units.
