# Kent News

SATURDAY, MARCH 20, 1926

Col. John C. Coolidge, father of the President, died at his home Plymouth, Vt., Thursday night, aged 82.

Candidates for office in Garrett county must come up if they wish to inform the voters of the county thru the columns of the Oakland Republican what office they desire, as is shown by the following announcement published in that paper.

"Announcement of candidates for political offices will be published in The Republican at the following rates the cash or its equivalent to accompany all orders for insertion of the advertisements:

"State Senator, $25; Members of the House of Delegates, $15; Clerk of the Circuit Court, $25; Sheriff, $20; County Treasurer, $20; County Commissioners, $15; County Surveyor, $5; Judges of the Orphans' Court $5; Register of Wills, $10."

## A SUGGESTION FOR MESSRS. MAHON AND KELLY

The Kent News of last week publishes the following, which is referred to the two city leaders:

"Inasmuch as Brennan, of Chicago, has announced his candidacy for United States Senate it is now up to Sonny Mahon or Kelly, of Maryland to throw their hats in the ring."

When the attention of Mr. Hahon was called to the above he said:

"If I did now, I would have a better chance to win than Brennan."—The Marylander.

Prof. Kenneth G. Faulkner, organist at the New Dover Opera House is not only a skilled musician but can put in prose what music is to the photo-play. In a column article he says in conclusion, "Some people claim that when attending the movies they never pay any attention to the music, and that they watch only the picture. But these same people will readily admit that if the music were not there they would not find the picture interesting, that it would seem empty and void of that substance which makes the pictures seem to live and appeal to the understanding. If we are moved enough by music so that we respond to its influence, it proves that music lives in us, in our souls, and that we live in music; that we are indeed close to the harmony of life and are a part of the symphony of the Universe."

Reunited with her two youngest children at her father's home, in Denton, Thursday night, Mrs. Edna May Coursey declared she will seek to divorce her husband, Ralph J. Coursey, who is serving eighteen years in the Penitentiary for administering the beating that resulted in the death of her five-year-old-son, Eldridge.

Mrs. Coursey was paroled in care of her father, Edward C. Wright, and was fined $200 by Judge Frank I. Duncan, following a verdict of manslaughter for her part in the death of her boy. She left the crowded Courthouse immediately with her father, gathered a few belongings at her Braddish street home and made the trip to Denton, where her sons, Ralph, Jr., and Edward, were impatiently waiting at the station.

## TIME FOR BROADMINDED ACTION

A bitter primary fight, in the Democratic party of this county, is in prospect. The actors are already preparing upon the stage. Already reasons pro and con why certain parties should be recognized and why others should not are being circulated. Mild in form and words, so far, but certain to gain in emphasis and heat as the campaign progresses This primary contest, if fought out as now staged, will make the success of the party at the polls next fall uncertain to say the least, and sow the seeds of dissension, of party strife, making future harmony ever harder to bring about than is now the case.

If the party is to live and be successful in this county, there must be a stop to this inter-party warfare; the longer it continues, the harder it will be to check it. All are agreed that it should stop. The way to stop it, is puzzling many. Inaction—letting things drift—is the greatest menace to a successful solution of the problem.

It is not only possible, but highly probable, that a heart to heart talk between the leadrs of the party, would result in some plan to avoid bitterness and factionalism in this year's primaries.

Democrats in the county naturally look to certain citizens to take the first step; they have a right to expect an honest attempt, at least, to find some way out of the difficulty. Unless we very much mistake the temper of the people of this county, any solution that promises success would be received by the Democrats with open arms. These citizens know that by a little sacrifice and by a willingness to put party above ambition a bitter contest with grave consequences may be avoided.

If a solution is to be found—if effectual action is to be taken—if a bitter primary is to be avoided—if the party is to go into the election with a united front — something must be done and DONE AT ONCE.

The candidates are already getting in the field—their friends are already beginning to talk — animosities will soon begin to arise—it will not be long before even an honest effort to stop the melee will meet failure.

The following resolution, offered by W. Irving Walker, Queen Anne's County Farm Bureau Director, from Rich Neck, was unanimously approved by the Farm Bureau at a recent board meeting and placed among the records of the organization.

Be It Resolved, That the Secretary be instructed to write to Wm. H. Truslow and Son, near Chestertown Bridge, expressing our appreciation for the distribution by this firm, free of cost to the poultry raisers of Queen Anne's and Kent counties. eggs from purebred poultry to the amount of over four hundred dollars.

The Farm Bureau is passing this resolution as a result of its recognition of a public service unselfishly rendered. This service is rapidly tending toward the creation of a much needed uniformity in the shipment of eggs from Queen Anne's and Kent counties, and can only tend toward the betterment, financially, of those interests depending upon poultry and egg production.

The Truslow plant is one of the finest in Maryland and each year ships thousands of baby chicks to all parts of the country. The generosity and interest of the company were warmly commended by Bureau Officials and members.

## Buick Is More Expensivelv Built

Buick is built more expensively than any other cars in or near the Buick price class.

"Expensively built" means tha the different parts and units of the Buick motor cars are the best that engineers can design. But, thanks to the large volume which, public demand has given to Buick, and thanks also to production methods that are models of efficiency in an efficient industry, the Buick motor car can be sold to you at a very moderate price.

Many Buick features are duplicated only in America's highest priced motor cars.

Buick, for instance, uses the Torque Tube Drive to transmit the drive of the rear wheels to the chassis, instead of burdening the rear springs with this added duty. The highest priced car in America uses the torque tube. And so does Buick.

The American public wants finer transportation and Buick provides it at lower cost. Consequently Buick is a very popular car. Come in and examine the Better Buicks.—The N-B-R Motor Co., local dealers, Chestertown, Md.
