The Ladies' Aid of the M. E. Church will hold an oyster supper in the church basement this Saturday, March 20th.

Bishop George Davenport preached at St. John's last Sunday afternoon. A good number from I. U. Church joined in the worship. These two churches have been without a rector since the retirement of Rev. S. S. Hepburn.

Miss Bessie Taylor, of Wilmington, was taken to Easton Hospital the first of the week and operated on for appendicitis. Miss Taylor is the daughter of Mr. and Mrs. P. H. Taylor, of this place At the time of this writing her condition was not improved. We hope for a speedy recovery.

BASE BALL AT GALENA

Galena High School Baseball Team went out for practice last week for the first time, under the training of Hansen Horsey, an Eastern Shore umpire. Mr. Horsey says "I have material here for the county champions, and hope to make them so." Although Galena High lost four of their players last June they have new ones to take their place. Tomlinson, a Hagerstown High School first baseman of last year, is going strong after the bag, and looks very good with the stick, but he will have to do some good playing to beat Johnston and Everett.

Galena is backing the team to the limit, to see them the county Champions, and give the State a hard run for State championship.

CHICKEN FARM NEAR CRUMPTON

One of the interesting places in the upper section of Queen Anne's county is the Bourne Farms. This property consists of about one hundred acres, and is owned by Thomas W. Bourne. No commercial hatching is done for the public, but attention is chiefly devoted to egg production and raising of chickens for sale. This farm is located on the road from Millington to Crumpton at what is known as Spry's Mill.

There is now carried on this place over two thousand chickens, which are of a fine strain for egg production. The average shipment is about twenty cases of thirty dozen eggs per day. Last year about five thousand chickens were raised for sale and it is the hope of the management to double this year. C. R. Lamb is manager.

Eggs are now supplied by this farm under contract to the New Penn Athletic Club and the Art Club of Philadelphia, and to the Baltimore Athletic Club and the Art Club of Philadelphia, and to the Baltimore Athletic Club. Many improvements are contemplated.

OFFERS TO FURNISH SHADE TREES

The State Forestry Department offers to furnish this spring a sufficient number of trees for planting 5 miles of improved, public highway. Four species of trees are available, black walnut, black locust, cypress, and American elm. The trees will be distributed to responsible organizations, or individuals, for planting not less than one-quarter mile, nor over one mile, on both sides of the highway. There must be sufficient space to place the trees within the right-of-way of the highway, and far enough from the center of the roadway to meet road requirements. Applications will be filed in the order in which they are received. Full particulars and application forms will be sent upon request to the State Department of Forestry, 1411 Fidelity Building, Baltimore, Md.

Loblolly pine seedlings are to be planted in Kent this month for future timber, and Norway spruce seedlings for Christmas trees, according to a statement from two-year old seedling spruce trees in 8 to 10 years, Mr. F. W. Besley, the State Forester, stated; and Mrs. Evelyn Harris, of Howell's Point farm, near Betterton, will set out a plantation of these trees as a demonstration of their value for such purposes. In addition, she is planting a badly washed field on her farm near Still Pond to young loblolly pine trees, the fastest growing tree on the Eastern Shore. Both of these plantings are to be supervised by a member of the State Forestry Department staff, and all interested persons are invited to attend them. March 24 has been set for the date of these demonstrations.

Anyone interested in this or in similar forest plantings should communicate with the State Forestry Department, at Baltimore, or with the County Agent, H. B. Derrick, at Chestertown, Md.

Kennedyville Notes

Mr. and Mrs. Reed and daughter, of Philadelphia, visited Mrs. Elizabeth Cleaver, last week.

Mr. and Mrs. Robert Kennedy and daughter spent the week-end with Mr. Kennedy's mother in Baltimore.

Mrs. Harry Stanley, Mrs. R. C. Young, Miss Emma Shafer and Wm. Archibald are on the sick list.

Mr. and Mrs. John Rollison spent Sunday with Mr. and Mrs. Hadaway near Worton.

The Embroidery Club met at the home of Mrs. John Hessner Thursday afternoon.

Robert Kennedy, Jr., spent the week-end in Baltimore.

Miss Anna Rasin and Miss Mary Hill, of the State Normal School, spent the week-end with their parents.

Marion Sutton visited friends in Havre de Grace over the week-end.

Miss Mildred Melvin entertained the card club on Thursday evening.

The Aid Society of the M. P. Church met at the home of Miss Hanna and Miss Lizzie Scotten on Friday evening.

The Patrons Club held a meeting last Tuesday evening in the High School Auditorium.

Worton Notes

J. D. Maxwell spent a few days in New York this week.

Ford

Costs More to Build Is Worth More— Yet Sells for Less

If any other manufacturer endeavored to produce a car similar to the Ford according to the high standards of quality in material and workmanship used by the Ford Motor Company and with the same tried and proved design it would be impossible to offer it at anything like the present low Ford prices.

If, on the other hand, the Ford Motor Company would substitute ordinary design for the basic Ford features, Ford cars could be produced and sold for less than the present Ford prices. Yet by so doing, Ford simplicity, durability and reliability would fall below the standard insisted upon by the Ford Motor Company and established throughout twenty-two years of leadership.

Just think! 13,000,000 model T Ford cars have been produced since 1908—almost as many automobiles as were built by all other manufacturers combined. In 1925, almost 2,000,000 Ford cars and trucks were built and sold—and plans for 1926 call for the production of even more than 2,000,000.

Today, more than ever, the Ford car is the most popular automobile in the world.

It was the superiority of Ford design in 1908 that established Ford leadership. It is this same Ford design, improved but basically unchanged, that is continuing to make the Ford car the outstanding leader among all automobiles.

Features that Contribute to Ford Simplicity—Durability—Reliability

Three-Point Motor Suspension
Simple, Dependable Lubrication
Thermo-Syphon Cooling System
Planetary Transmission
Dual Ignition System
Left-Hand Drive
Torque Tube Drive
Multiple Disc-in-oil Clutch

FORD MOTOR COMPANY, DETROIT, MICHIGAN

Buick is More Expensively Built But it Costs Less to Buy one

Buick is built more expensively than any other cars in or near the Buick price class.

"Expensively built" means that the different parts and units of the Buick motor car are the best that engineers can design. But, thanks to the large volume which public demand has given to Buick, and thanks also to production methods that are models of efficiency in an efficient industry, the Buick motor car can be sold to you at a very moderate price.

Many Buick features are duplicated only in America's highest priced motor cars.

Buick, for instance, uses the Torque Tube Drive to transmit the drive of the rear wheels to the chassis, instead of burdening the rear springs with this added duty. The highest priced car in America uses the torque tube. *And so does Buick!*

The American public wants *finer transportation* and Buick provides it at *lower cost*. Consequently Buick is a very popular car*. Come in and examine the Better Buicks.

the Better Buick

G-15-14-NP

*One year after another for the last eight years, Buick has held top place in dollars and cents volume of business among all members of the National Automobile Chamber of Commerce.
