## Kent County Schools Will Not Be Closed Until June

The Board of County Commissioners of Kent County, Maryland, in special session on Tuesday, April 13, 1926, gave due consideration to the financial needs of the public schools of the county and decided to grant the request of the Board of Education for eight thousand dollars (8,000) in addition to the appropriation made last June. It will not be necessary now to close the schools on May 1st and they will be kept open until the usual closing time—the colored schools on May 29th and the white schools on June 18, 1926.

There appeared in one of the local papers last week an article headed "Schools in Kent Demand Thousands of Dollars More." The writer of this article inadvertently gave the impression that the operation of the schools in Kent this year is costing the County and State eight thousand dollars ($8,000) more than they cost last year. The facts in the case are these. The amount asked of the county for the actual needs of the schools for last year ending July 31st, 1925, as shown in the budget presented to the County Commissioners by the Board of Education, was $140,445.04 of which amount the sum of $112,627.69 was granted. Of this amount, $100,922.00 was levied and an agreement made at the time of the levy was struck to provide $10,023.79 through certificates of indebtedness for repairs, capital outlay, and debt service. The balance of $1682.00 was granted later in the year for a high school teacher and transportation of high school pupils. For the current year ending July 31, 1926, the Board of Education asked in their budget for $135,657.75 to meet the actual needs of the schools. This was cut by the County Commissioners at the time the levy was struck last June to $106,208. If to this sum we add the $1000 subsequently granted for high school transportation and the $8,000 granted last Tuesday to make it possible for the Board of Education to keep the schools open the usual length of time we have the sum of $115,208. From this amount take the total of the appropriation for last school year and we have the difference between the cost of the schools for the two years which is $2,580.31, a very small increase to be expected when we consider that the enrollment in the high schools is increasing each year to require more teachers and there is a very slight increase in the aggregate of teachers' salaries each year because of the periodical increase for each teacher on the basis of experience up to the eighth year of teaching. That increase in the cost of the schools this year over last year as every one will see, is considerably less than $8,000.

## WOMAN COULD NOT SLEEP

**Her Mother-in-Law Knew A Remedy**

Mrs. Belle Thompson was in a very weak and run-down condition for four years. She had great difficulty in getting to sleep at night and even then did not sleep soundly. She would wake up again and again. Besides this her appetite was poor. "My mother-in-law told me of Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Sanative Wash," she writes. "I took six bottles of the Vegetable Compound and I was not the same woman at all. I could sleep and would get up in the morning singing and feeling fine. I am the mother of three children and always after the babies came I had to take treatments, but I can truly say that this last time I have only used the Sanative Wash. It does me more good than the treatments. It keeps me on my feet to care for my children and I do most of my work. I feel it my duty to let you know how both of the medicines have helped me." —Mrs. Belle Thompson, R. 2, Rossville, Georgia.

Are you on the Sunlit Road to Better Health? If Lydia E. Pinkham's Vegetable Compound has helped others, why shouldn't it help you?

# P.A.

## is pippin pipe tobacco

THOSE fellows who get so much fun out of a pipe—don't envy them . . . *emulate* them! Get yourself a jimmy-pipe and a tidy red tin of Prince Albert. That's what *they* did, and look at them. Wearing smiles a mile wide. Puffing away on good old P. A. and happy as ducklings in their first rain-storm.

There's no trick about it . . . no deep, dark secret. P. A. is pippin pipe tobacco, made for pleasure and lots of it. Prince Albert is mellow as moonlight on a silent summer sea. Fragrant as a breeze that filters through apple-blossoms. Cool and sweet in a way that spells comfort to a pipe-smoker.

Not the least of P. A.'s virtues is the kindly way it treats a fellow's tongue. The Prince Albert process cut out bite and parch years ago, thereby opening the gates to smoke-peace for millions of men. No matter how hard you smoke P. A., there is no protest from your tongue or throat.

To make sure that you are not missing the full enjoyment of your pipe, go to the nearest tobacco shop and tell the man you want a tidy red tin of Prince Albert. He knows of hundreds of men that have found the enjoyment that's waiting for you. There's a revelation coming to you with a pipe—and P. A.

*P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.*

# PRINCE ALBERT

*—no other tobacco is like it!*
