GIRLS' CLUBS SHOW PROGRESS

Girls' Clubs throughout the county have been holding all-day club meetings, the purpose of which has been to finish the clothing and food projects, and start a new project by August 1st.

The clubs plan to meet weekly until all demonstrations are completed.

Demonstrations in selection of suitable clothes for girls, including materials, color and workmanship of ready-made garments in comparison with the hand-made garments, were given prominent place on the programs for the June meeetings.

The girls exhibited some very fine work in both clothing and food projects. The success of the clubs is due primarily to the leadership of the local people.

WOMAN CONQUERS FEARS

Husband Delighted and Home Happier

St. Paul, Minn.—"Here is a little advice I would like to have you put in the papers," Mrs. Jack Lorberter of 704 Dellwood Place wrote to the Lydia E. Pinkham Medicine Company. "If young women want to keep their health and strength for the next thirty years of their lives, it is best to start in right now and take Lydia E. Pinkham's Vegetable Compound. I have tried the Compound myself and received fine results from its use." In describing her condition before taking the Compound, she writes, "I was afraid in my own house in broad daylight, I used to lock the doors and pull down the shades so that nobody could see me." One day a booklet advertising the Vegetable Compound was left on her porch and she read it through. In so doing, she found a letter from a woman whose condition was similar to her own. "I bought Lydia E. Pinkham's Vegetable Compound," Mrs. Lorberter continued, "and have had fine results. My condition made me a burden to my husband. Now I ask him, "How is housekeeping?" and he says, "It is just like being in Heaven!" Are you on the Sunlit Road to Better Health?

TWO ACRES BERRIES NET FRUITLAND MAN $827

George Willey, who lives on "Green Brier Farm," owned by A. J. Dashiell, of Fruitland District, is one of the many happy Wicomico farmers who are wearing broad smile on their faces these days. The reason is that Mr. Willey had an unusually productive strawberry season. From two acres of Premier and other late varieties, Mr. Willey marketed 308 thirty-two quart crates of fruit which sold at the Fruitland block for $1268.36 and netted, after paying for crates and picking, $827.34. Why can't Kent county get into the berry industry?

A & P INCREASES ADV. SPACE

Announcement comes from the main offices of The Great Atlantic & Pacific Tea Company in Jersey City, that the Company's advertising appropriation for the current year will show an increase of $500,000.

A&P, as it is known throughout the country, is a large and consistent user of newspaper advertising increase this year is being devoted to newspapers for the furtherance of local retail business in every community where A&P is established. A magazine campaign will also be inaugurated.

The famiaiar red front of the A&P store is to be seen in practically every neighborhood trading center in the larger cities, and in the smaller communities as well.

The administrative and buying organization of the A&P is worldwide. In London, England, is a purchasing office with a complete purchasing staff. Food brokers from all parts of Europe travel regularly to London to offer their merchandise to A&P. In South America, A&P maintains five coffee-purchasing offices—one at Santos, Brazil; one at Rio de Janerio and three in Colombia. These buyers make several trips into the interior each season, 300 and 400 miles, to the coffee plantations, where they inspect and examine the coffee in the growing bean, on the trees.

In San Francisco, A&P maintains fruit and vegetable purchasing headquarters. Its salmon fisheries in Alaska are operated for the exclusive use of the Company's stores. Other representatives are scattered thruout the Orient.

Thirty-six large buildings, used as food distributing depots, are maintained at advantageous points thruout the United States. Bakeries are operated in various cities. Potato warehouses and cheese-curing plants are located at strategic points. A crop of trained buyers constantly travel through domestic food-producing areas. Food chemists and laboratories are actively engaged in testing foods.

Recently the A&P inaugurated free group insurance for its employees. At different times during the past few years A&P employees were given the opportunity of subscribing to shares of the Company's preferred stock, and last year both preferred and common were offered.

The organization is perhaps the most unique in the food retailing field today.

"THIRD GENERATION"

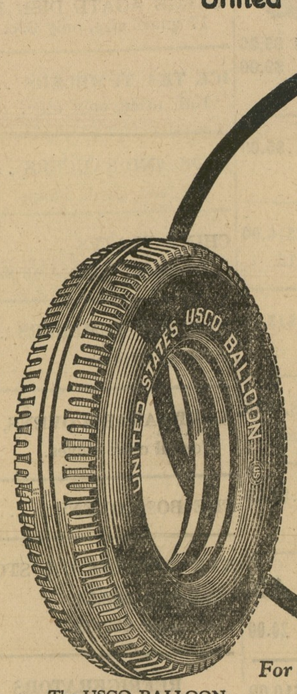

Mrs. Walter R. Abell, of Biarritz, daughter of Mr. and Mrs. Decatur H. Miller, Jr. of Baltimore, will act as sponsor for the newest steamship of the Merchants & Miners Transportation Company at the launching of the "Fairfax" at Newport News, Va. on June 12th. Mrs. Abell's grandfather, Decatur H. Miller, was one of the Company's earliest directors and a steamer named in his honor is still remembered by an older generation. The "Decatur H. Miller" plied between Boston and Baltimore in the eighties and nineties.

The "Fairfax" is one of a group of five new Merchants & Miners steamers for coastwise passenger service.

Baltimore is one of the Co[illegible] ports.
