It's all a matter of picking the packing

HOW much fun you get out of a pipe depends largely on one thing: the tobacco. The pipe itself is the accessory, after all. The tobacco's the thing. That's why the most contented bunch of smokers in the world smoke Prince Albert exclusively.

The instant you open a tidy red tin of P. A., you know this tobacco is unlike any other. That warm, rich fragrance! Only real tobacco could give off such an appetizing aroma. You are *completely* won to P. A. when you smoke that first load.

Cool as a cove, sheltered from the beat of the sun. Sweet as a breath of clover. Fragrant as fresh-cut flowers . . . fragrant and mild. Yet with a body that satisfies your smoke-taste right down to the ground. A rare combination, Men.

It is a pretty safe guess that, if you smoke one tin of Prince Albert—all of it—you will continue to smoke Prince Albert from then on. That has been the experience of other pipe-smokers. It's worth finding out about. Buy some P. A. today.

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

—are you? Are you balancing your daily affairs? You should be, because balance is just as vital in your life as it is in wire-walking, aviation or bookkeeping.

Balance your finances, it will make your life easier and prevent dire circumstances. Just like carrying water—it is easier to carry a bucket on each shoulder than both on one shoulder. They balance!

The same principle applies to your affairs. Balance work with play—sorrow with gladness—and balance your expenses with SAVINGS.

The man who fails to save money is forced to pass up opportunities, business success, future comforts and happiness for the man who does.
