Senator Weller "The Absentee Senator's" Record

Senator O. E. Weller during his five years in the United States Senate has been absent over one half the time missing 1495 out of 2713 roll calls. When the Child Labor Amendment came up in the senate for action there were 8 votes taken on it and the Amendments thereto. The Child Labor Amendment, as will be recalled gave Congress the power to prohibit all persons, white or black, from working until after they were 18 years of age.

As usual, Senator Weller lived up to his reputation as "the absentee Senator" by being absent on all these votes. He was absent 100 per cent of the time. Following are the changes upon which votes were taken where Maryland's interests were unprotected because Senator Weller was absent and not voting:

An amendment excluding persons engaged in Agricultural and Horticulture. On this Senator Weller did not vote.

An amendment to strike out "18" and insert "14" years of age. On this Senator Weller did not vote.

An amendment to strike out "18" and insert "16" year of age. On this Senator Weller did not vote.

An amendment stipulating that Congress have the power only to "reasonably" regulate Child Labor in matters involving special hazard to health, life or limb. On this Senator Weller did not vote.

An amendment to strike out requirements for ratification by State legislatures and insert ratification by State Conventions, thus insuring State referendums on the proposed Child Labor Amendment. On this Senator Weller did not vote.

An amendment providing the Child Labor Amendment should be inoperative unless ratified within five years. On this Senator Weller did not vote.

An amendment to strike out the words "and prohibit." On this Senator Weller did not vote.

Finally, on the passage of the Child Labor Amendment, which required a two-thirds vote, Senator Weller did not vote.

The Senate by a special rule, adopted May 27th, 1924, set apart June 2nd, 1924, for voting on the Child Labor Amendment and all proposed amendments thereto, thus giving Senator Weller at least six days notice.

Colonel Millard E. Tydings, the Democratic candidate for the United States Senate, who is opposing Weller, not only voted against the amendment on every vote but also made a speech and led the fight against it. Colonel Tydings said while he favored protection of children from labor by state law that one law for all the 48 states with their different climates and conditions was ill advisable. That, further, the age limit of 18 years would prevent a farmer having his 16 and 17-year-old sons milking cows or bringing in some wood; that large groups of colored people of 16 and 17 years would be without schools and not allowed to work at all.

Weller was absent neglecting his state's interests.

GUNNING SEASON NEAR

The fall gunning season is near at hand, and all sportsmen are busy getting their outfits in shape that they may be ready for the opening November 1.

The upland season for rabbits, quail and other birds will not open until November 10. From reports coming in from the county, game will be more plentiful this year than for many years, as the farmers say there are many young rabbits and several coveys of birds on their places.

The ducking season will open on Monday, November 1, and the duckers are looking for a successful season as already there are hundreds of ducks on the "flats" and each day brings additional hundreds from the cold shores of the arctic regious.

The sink box shooters accordingly have been busy for weeks getting their boxes, boats and decoys in readiness for the rush of city sportsmen who will come for the sport on the open days.

The bushwhackers of near Havre de Grace are also painting their decoys and giving their boats of white that they may take their places on the flats, when the season is officially opened at sunrise November 1. Very few canvasbacks and red heads have made their appearance yet, but they will be here when the weather gets cooler, as thes echoice birds do not reach here until the latter part of October or first of November.

"HAVE A CAMEL" IS MUSIC TO YOUR EARS

Camel is totally different from any other smoke. . . . It is more than a cigarette. . . . A lighted Camel is smoking enjoyment realized—the closest thing to the perfection of taste this old earth ever knew.

Camel's popularity has no equal. Camel demand exceeds any other cigarette preference ever known. To say "Camel" is to ask for the world's most popular cigarette. And to light a Camel is to taste the best.

For there's a solid reason back of the fame and the enjoyment of Camels. *Quality.* Camels are rolled of the choicest Turkish and Domestic tobaccos money can buy . . . blended for matchless taste and fragrance.

If you would know how mild and mellow a smoke can really be, just treat yourself to a pack of Camels. Once you know what these words mean, they're music . . . *"Have a Camel!"*
