THE DEMOCRATIC STATE TICKET

If one is to measure an administration by the results accomplished that of Governor Ritchie must take high rank not only in this State but in the whole Union. It will be hard to find a more progressive program of real constructive work that has proven sane and sensible and workable than that put in effect in Maryland during Ritchie's term of office.

The various departments have been re-organized, the number of heads cut down, the work so arranged and systematized that one department is not overlapping that of another. In other words, the same methods have been put into use in our State government as all big business corporations make use of.

Under the budget a careful list of the State's needs is made out and embraces every phase of the State's needs and activities. The usual and necessary expense of running each department. the amount to be expended in wellfare and other similar purposes, are carefully gone over, each estimate is studied with a view to economy and efficiency. This estimate is then presented to the legislature, which has the power to reduce but not to increase.

The State's economy system is further helped by the formation of a general purchasing center, so that things needed can be purchased in the bulk andb ought at the lowest market price.

We find that the good road movement has made tremendous strides during the present administration and Maryland, through its plan of building roads and then providing for their proper maintenance, has set the pace and given the basic idea for all other States to follow. The good road movement has not lagged under Ritchie and is still going forward with full steam.

We find that the schools of Maryland have been bettered and Maryland today has better rating in the educational world than many other richer States.

We find that the public health has not been neglected, but that equally as a great astride has been made in this important work as other lines of State work.

In fact, let one review the actual accomplishments of the Ritchie administration and one can not help but be impressed by the forethought, the planning, the study, and the efficient carrying out of a vast public work.

Working with Governor Ritchie, a part of his administration and helpers in his plans of good government, are his associates on the ticket, who also have done their part towards putting Maryland on the map by giving its people a splendid government.

Hon. William S. Gordy, Jr., a native of Wicomico County, has held and creditably filled the important office of Comptroller. Carrying to this office the experience he had gleaned from hi scareer as a leading banker of the State, he has systematized his office and it is not too much to say that the Comptroller's office today is one of the best run and man-

Under Thomas H. Robinson the legal interest of the State has been in safe and able hands, and his department is more effective than ever before in the history of the State.

The Court of Appeals has had a courteous and efficient Clerk in James A. Young, and one that has received praise and credit from all who have had dealings with his office.

In casting their ballots this year voters should not allow the many merits of Governor Ritchie and his associates on the ticket to be clouted by partisan attacks. If the people of Maryland want an able, efficient, economical, yet at the same time progressive and constructive administration of their affairs. they know where to get it. They are not taking any chances. The Democratic candidates have been tried out. What they can or will do is not problematic It has been demonstrated.

THE DEMOCRATIC TICKET DESERVES YOUR SUPPORT

Over 3,000 people decided who the candidates of the Kent Democracy should be this year. No Boss did it, and no Boss could have prevented just what happened. It is a splendid ticket and deserves the support of the people.

Now, in the light of all these proceedings, it is the duty and should be the pleasure of all affiliated Democrats to vote for the nominees of the Democratic party.

What is the use of a Primary if we do not abide by it? No man can call himself a Democrat who participates in a Democratic primary and then repudiates his act. No man can be a faithful member of a church, a lodge or any other organization, who allies himself with the opposition to such such church, lodge or other organization. Nor can he label himeslf a Democrat and be found always on the side of the opposition. The Democratic party has put up good men for office. Several of them are candidates for the office they already fill. The Democracy approved their candidacy at the Primary election, and so far as we know the Democrats who opposed the successful candidates are living up to the announcement of their own candidacy, when they proclaimed to the people that they would abide by the decision of the Democratic Primary. In other words they promised if defeated they would give their loyal support to the Democratic ticket.

We have heard rumors of faithlessness, but we hear such reports every campaign, and in nine cases out of ten the reports are false. We take it for granted that every man who claims to be a Democrat will sink his personal dislike to any one candidate, and will remember that the defeat of any candidate on the Democratic ticket is not a personal matter, but will go out as a Democratic party defeat.

Vote the Democratic Ticket!

Declaration of Principles

The following resolutions were adopted:

We, the representatives of the Republican party of Kent County, the State of Md., in convention duly assembled in Chestertown, Md., Sept. 25th, 1926, for the purpose of nominating a ticket to be voted on in the approaching November Election, do hereby subscribe to the following declaration of principles.

First of all, we believe that the paramount issue in this campaign to be law enforcement.

We therefore give our unqualified endorsement to the 18th Amendment and the Volstead Act. Since the passage of this law we as patriotic citizens of this great state have been made to feel most keenly the disgrace that has come to us as a result of the failure of officials both high and low who took a solemn oath to uphold the consitiution, of both state and nation, but who have deliberately winked at the open violation of the law. Upon two occasions Gov. Ritchie has served notice upon the President of the U. S. that this law can not be enforced in Md. The logic of this statement is on two things. First: that the U. S. Government is powerless to enforce its own laws, a position which no intelligent, self-respecting man can believe and admit. Seeond: that it shall not be enforced, which position is nothing short of anarchy. And all intelligent people of Kent Co., know that the attitude of our Governor has been reflected in the attitude of our local enforcement officers.

For even should we grant local officers are not obliged to enforce the Federal law, they surely are bound by their oath of office to enforce teh State and County laws against the sale of intoxicants, which laws were not repealed by the passage of the 18th Amendment.

It is with shame that we have to confess that the bootlegger has been made to feel that he is immune to prosecution in Kent County.

In the second place: We give our hearty endorsement to the Corrupt Practice Act of this State. It is current report that at the recent primary election held on the 14th day of September, 1926, there was a wholesale purchase of the electorate in practically every precinct of this county.

And, we the Republican party of Kent Co., do hereby pledge the people of the county that we will not spend one dollar in the approaching general election for the purpose of corruption. We also, assure the public that in nominating a ticket we have exercised special care that each candidate chosen is in perfect sympathy with this declaration of principles.

In the third place: We feel that men entrusted with the business of the levy court should by all means be men of probity and large business experience. We pledge the tax payers that if our party be put in control of this branch of our county government there shall be an honest and economical management of our fiscal affairs.

In conclusion, in presenting these principles and in naming these candidates for the offices to be filled in the November election, we make our appeal to all good thinking people of Kent Co., to put their conscience above their party, and help us redeem our beloved county from a condition which is deplorable beyond our power to describe.
