The four-day tour of the poultry farm in the county arranged by County Agent Horace B. Derrick as a part of the Farm Bureau program for the year began Tuesday with demonstrations on the farms of Jonathan Jones, near Millington; Thomas F. Newnam's farm near Massey, and John Naylor's farm near Galena. Culling demonstrations were conducted by Prof. W. H. Rice, poultry expert from the University Extension Service. It is estimated that more than 20,000 useless birds will have been culled from the county flocks, which will greatly increase the profits from the flocks while lessening the expense of their care.

A butcher shop is to be opened in W. S. McDonnell's former store. Hadaway Bros. are to be the proprietors.

The time is at hand when all flues and chimneys should be given attention. We suggest that each property owner make a careful inspection of all chimneys and flues, to see that no defects exist and that all soot is removed before starting the fire. The great quantity of soft coal used during the past winter has doubtless filled the chimneys which will be the cause of many fires and loss of property unless removed. Avoid trouble later, give this attention now.

The semi-annual meeting of the Eastern Shore District, Maryland Federation of Women's Clubs, will be held on Thursday, October 28th, in the ball-room of the Wicomico Hotel, Salisbury, Md. An interesting program has been prepared in addition to routine business, and all District Club women are urged to attend.

Babe Ruth not only won everlasting base ball renown with his trio of home run swats in the fourth game of the World Series played in St. Louis, but he also won a Chevrolet. One of the circuit clouts crashed through the plate glass window of an automobile salesroom near the Cardinal park and bounded off the side of a Chevrolet coupe on display inside. In acknowledegment of his feat the Bambino was presented with the coupe. "Times have changed," said Ruth with a broad grin. "Some years ago it would have been a serious offense for any of us to break a window with a base ball. Now it brings a new automobile."

The Rock Hall Progressive Association, with the co-operation of the Town Council, has begun plans for installing a modern fire-fighting system. Already a large well has been driven and it proposes to erect a 40,000 gallon tank on an elevation of 60 feet, which will furnish ample pressure in the lowest sections. From this tank a large main will be run to the center of the town, to which will be attached a modern fire plug, with couplings to fit the Chestertown countrywide fire truck which it is proposed to use in connection with the new system. Other fire plugs will be placed at convenient places. The association proposes to equip the town with the best fire-fighting apparatus that can be installed without the extra expense of the purchase of a fire engine.
