Now You Can Wax-Polish All Your Floors and Linoleum

" Easily—Electrically—ten times faster than by hand "

Gleaming waxed floors are no longer a luxury—NOW you can have their radiant glow in every room. The new Johnson's Wax Electric Treatment makes WAX the most economical of floor finishes. This treatment takes only a few minutes—there is no hard work—no stooping or kneeling—no messy rags and pails. It won't soil or roughen you hands! And it saves you all the bother and expense of frequent refinishing.

This Johnson's Wax Electric Treatment is so easy anyone can use it. Just spread on a thin coat of Johnson's Polishing Wax with a Lamb's wool Mop. This cleans as it waxes. Then run the Johnson Electric Polisher over the floor and let ELECTRICITY do all the work. This Electric Floor Polisher is much easier to run than a vacuum cleaner—it glides along silently, smoothly, leaving a path of beauty behind it. You don't need to push the Johnson Electric Floor Polisher.

It makes no difference whether the floors are old or new—of wood, linoleum, tile or composition. Nor how they are finished — with varnish, shellac, wax or paint.

You can rent this Electric Floor Polisher for $2.00 a day and in just a short time give all your floors and linoleums this beautifying wax treatment.

Who Is A Hero ?

Messrs. Editors of Kent News:

In reading the Kent News of Mar. 5th, I read with pleasure the article of Dr. S. S. epbron, under he heading "A Hero Here In Kent County." Little can we forget the heroes he had mentioned; perhaps we can add little or nothing that will honor more than he, the Kent County Hero. Yet, Dr. Hepbron has started a mention in honor of one who is worthy of every tribute we can pay. Fortunate too, it seems that he has been privileged to live to hear those kind words of appreciation.

Such a life as that of Dr. Maxwell to be recognized as heroic. No doubt is there in our minds but that his name is the difinition answering the question "What Is a Hero" or "Who Is a Hero?"

Dr. Hepbron has pointed out that regardless of road or climatic condition, or distance, or color, Dr. Maxwell has answered the call of service and of duty. Has classed him as bent on humanitarium mission and spurred on by love and the high purpose of his calling.

All these things have enumerated but one thing yet remains that I would like to add even greater than the rest. Ambition and desire for advancement and wealth oftimes spur us humans on to such ends as Dr. Maxwell has attained. But these things seemed to mean nothing to him, his service being absent of a money standard. How often in bleak winter and darkest night, he has sauntered forth in answer to a call knowing his services would be unpaid for in material goods, with the same apparent eagerness and promptness as though large fees were involved.

If either I have added anything or have not, I am interested in paying this public tribute to this hero who was and is a friend to man. May God comfort him in these advanced years of his life and his affliction.

J. T. MOFFETT.

P. A.

-the password to *pipe-pleasure*

GIVE the sign to the man behind the counter and he will hand you a tin of the grandest tobacco that ever snuggled in the bowl of a pipe. Throw back the lid and revel in that tantalizing aroma of real tobacco. Load up and light up. There you have it!

That is Prince Albert, Gentlemen—smoked by more men than any other pipe-brand. This overwhelming preference didn't "just happen." It exists for the single reason that P. A. brings more deep-down, solid satisfaction out of a pipe than any diet you could put it on.

The very first pull will tell you that Prince Albert is unlike any other tobacco. Notice how cool it smokes, no matter how wide you open the throttle. Notice, too, that it doesn't bite the tongue or parch the throat, no matter how often you fill-up and pull-in.

You may think you are all set on a smoke-program. Fair enough. But don't let that interfere with your getting a first-hand knowledge of what P. A. offers in real pipe-pleasure. Where there's so much P. A. smoke, there must be the fire of truth. Try it and see!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

The DURABLE STREET *... for Modern Traffic*

PORTLAND CEMENT CONCRETE is the *modern* street pavement. It is rugged and durable under the pounding of heavy trucks—clean and even-surfaced for the constant traffic of great boulevards. And it is economical and beautiful in residential sections and suburban towns as well.

A concrete street is always open and in service. Yet necessary patching, when a street must be cut through for sewers or other underground utilities, is done easily and quickly—leaving no evidence that the surface has ever been disturbed.

The Portland Cement Association is a national organization to improve and extend the uses of concrete, with offices in 31 cities.
