HUDSON-ESSEX SETS RECORD

Hudson-Essex has just completed the greatest February in its history, and with March is stepping into the greatest six cylinder production the automobile industry ever has known officials of the company report. Since January 1, production of both Hudson and Essex cars has been largely increased, and on March 1, the fifth increase of the year brought the daily total close to the 1500 mark a day, it was declared.

February shipments were 27,000 cars, while March is scheduled for the production and sale of 37,000 Hudson and Essex automobiles. Even with this great volume, company officials declare that deliveries are far behind demand. The new Super-Six models on both Hudson and Essex brought out the first of the year, have far exceeded in popularity anything the company has known in its whole history.

In going close to the 40,000 mark for March, Hudson-Essex is reaching into a volume field which hitherto has been entered only by four cylinder cars. It is around 25 per cent. larger than any previous Hudson-Essex schedule.

While the factory is thus engaged in record-breaking, B. R. Sutton, local Hudson-Essex distributor has been setting new high marks of business. Never before, it is claimed, has there been so urgent and insistent demand for Hudson and Essex. On both the large and small car, business has been consistent and growing.

"In fact," says Mr. Sutton, " the public has shown its desire for these cars so strongly that we have been embarrassed — because of the fact that we have been unable to deliver the cars as fast as buyers have asked for them. We have been unceasing in urging the Hudson plant for more cars, but naturally we have had to take our just allotment, along with other distributors and dealers, and thus have been handicapped by the national Hudson-Essex shortage. We are very regretful of this situation, and are bending every effort to deliver to our customers in accordance with their wishes. But it surely looks as if Hudson-Essex would be in extra demand for the whole spring season. The wise buyer will get in his order now."
