RODE ENOUGH TO ENCIRCLE GLOBE 81 TIMES

Edward Lambert, of Easton, Md., graduate of Washington College and Law School of McKinley College, Chicago, started out in life to become a lawyer but he ended in the postal department in which work for 35 years, he traveled on mail trains a distance that would encircle the globe more than 81 times.

Mr. Lambert has just retired from the mail service and daily during 28 years of his service, he twice made the 90 mile round trip between Clayton to Easton. For three years, he made the run from Delmar to Philadelphia, 400 mile round trip, and then from Seaford to Cambridge, 80 mil round trip, for two years; from Clayton to Chestertown, 76 mile round trip, daily, for two years. The total of miles he has ridden within 35 years amounts to 2,044,224.

During this time, he never missed a train.

Mr. Lambert's intention of becoming a lawyer was changed when he accepted a position as deputy sheriff in Kent county, Md., soon after he had become affiliated with the law office of the late Judge Alfred Pearce of Chestertown. He served as sheriff two years, refused another term and came to Wilmington where he took the postal examinations and passed with a percentage of 96, the highest in his class of 26, and the only one who passed.—Exchange.

INCREASE IN CHEVROLET SALE

A tremendous increase in retail deliveries of new Chevrolet automobile throughout the country during the first two months of 1927 as compared with the same period of 1926 is shown in the following report compiled by the Chevrolet Motor Company.

The magnitude of this increase is indicated in reports from thirty-two of the most important trading areas in the United States and shows an average increase of 97.4 per cent in these centers for the first two months of 1927 as compared with 1926.

The increase is striking evidence of the country-wide and constantly mounting demand for the Chevrolet car, a demand which caused the Chevrolet Motor Company to reach a new high peak of production during February of this year of 85,821 cars, and still further marking the company's preeminence as the world's largest manufacturers of gear shift automobiles.
