NEW RECORD LAYING CONTEST

A new high weekly record of sixty-six eggs, only four less than ten hens can possilbly lay so long as each confines her output to the expected schedule of one per day, has been established in the second annual Egg Laying Contest now in progress at the University of Maryland Experiment Station, it has been announced by Roy H. Waite, contest supervisor.

The new high mark was established by the pen of White Leghorns entered by George B. Ferris, Grand Rapids, Michigan, which already has the distinction of holding first place for the best production since the contest opened last November. Total production for this pen covering the twenty-three week of the contest now totals 1167 eggs.

All the high positions in the contest are held by the Leghorns with no immediate prospects that they will be displaced by pen sof other breeds. The pen owned by Meadowedge Farm, Sterilng Junction, Mass., is holding down from Ellicottville, N. J., is in third position with a record to date of 1090 eggs, while the pen owned the Hollywood Poultry Farm, Woodinville, Wash., is fourth from the top with a production of 1072 eggs.

The rate of production for the contest as a whole increased slightly during the twenty-third week to 73.14 per cent. The average production per hen for the twenty-three weeks is now 73.29 eggs.

ROTARY CELEBRATES FIRST ANNIVERSARY

The first anniversary of the Chestertown Rotary Club was celebrated on Monday evening last at the Washington College gymnasium. President Paul Titsworth presided and about seventy ladies and gentlemen were present from Elkton, Easton and Chestertown. President Titsworth made the address of welcome and song leader Conlyn Noland had charge of the singing. The Washington College Orchestra rendered fine music.

The address of the evening was delivered by Charles F. Puff, Jr., of Jenkintown, Pa., who is the Governor of the 50th District Rotary International. This address was certainly a masterpiece; instructive interesting and inspiring. His exposition of the ideals of Rotary and explanation of the six principles was great. It was enthusiastically received.

The dinner was served in the cafeteria under the direction of Manager King with the By-Kota Club as charming waitresses and consisted as follows:

Cream of Tomato
Celery Olives Radishes
Minute Steak
Lyonaise Potatoes String Beans
Combination Salad
Maryland Biscuit
Ice Cream Wafers Coffee
Cigar Cigarettes

Those present from Chestertown were: Howard Baldwin, S. Scott Beck and wife, S. R. Collins, Charles L. Dodd and wife, Frank B. Hines and wife, W. R. Huey and wife, Harry F. Jefferson and wife, C. C. Jones and wife, J. S. Kreeger and wife, C. W. Kibler, Jr., J. Thomas Kibler and wife, J. G. Metcalfe and wife, Wm. P. Newnam and wife, C. E. Noland and wife, H. S. Russell Austin F. Shure and Wife, M. deK. Smith, Jr., D. F. Stam and wife, Paul E. Titsworth and wife, A. S. Turner, Jr., and wife, Wm. B. Usilton and wife, P. G. Wilmer and wife, Mrs. H. G. Simpers, Mrs. Williams, Misses Ann Smith, Grace Wilkins, Eliz. Trew, Miss Idella Treadway.

Those from Easton were Mr. and Mrs. Norman Jefferson, Mr. and Mrs. Robert C. Harris.

Resolutions Of Respect

Whereas God in His allwise judgement has seen best to remove from our community and Women's Auxiliary, our loyal sister and co-worker, Mary K. Gooding Crownhart.

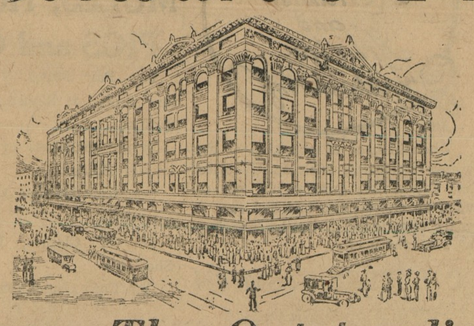

Be it therefore Resolved, That the members of the Auxiliary will greatly miss our departed sister and that we will cherish with loving remembrance her whole-hearted support and her delight in performing countless deeds of kindness and acts of mercy. That we are very grateful to have been associated with one of such noble character and refining influence.

That we express our sympathy to the bereaved husband and son in their great sorrow and commend them to the Gracious Saviour, who doeth all things for the best.

Be it also Resolved, That a copy of these resolutions be sent to the bereaved family, a copy written into the minutes of the Women's Auxiliary and a copy sent to the county papers for publication.

Here's a Pointer!

No One Need Keep or Return UNORDERED Merchandise---Sent Through the U.S. Mails

Frequent complaints have been received by the Advertising Club of Wilmington concerning unordered merchandise sent through the mail by mail-order concerns. This matter includes such unrelated articles as neckties, raincoats, traveling bags, soaps, concert tickets, handkerchiefs, etc , etc. The recipient is asked to remit for or return the shipment.

Persons receiving such merchandise are under no obligation to pay for it (unless they use it); nor even to return it. They may return it to the postman marked "Refused" if they care to. If the shipper does not send for it promptly, the person receiving it is relieved of legal liability for its safekeeping.

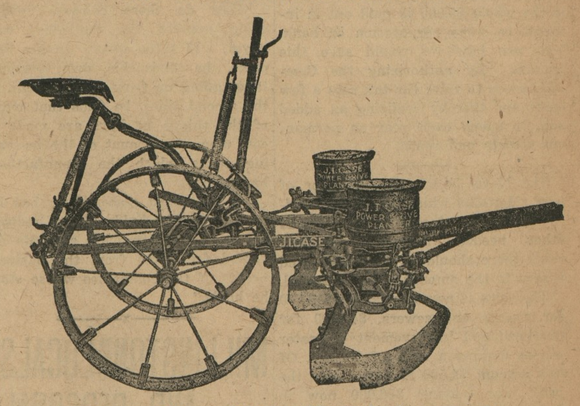

It is the opinion of the Advertising Club of Wilmington that it is more satisfactory to deal with merchantile institutions of established reputation in your community. We know that many citizens and residents of our community have been receiving unordered merchandise through the United States mail. We know that the outside-of-Wilmington mail order concerns play upon both the sympathy and the lack of desire of addressees to return such merchandise.

The Advertising Club of Wilmington desires to state to the people of Wilmington and vicinity that no one has to buy unordered articles or merchandise, or return it, even if sufficient postage is enclosed for that purpose. Our advice is to simply keep the articles or merchandise, with reasonable care, and if the individual or company mailing you the same desires it back again it will be necessary for them to send a qualified agent for the said articles or merchandise.

J. I. Case Power Drive Corn Planter

The Worlds Most Accurate

Plants Big and Little Kernels Accurately

The best way to make more money from your corn crops is to get more bushels per acre. Planting accurately will do this.

The J. I, Case Power Drive Corn Planter will plant on an average of 7 more perfectly planted kernels out of every 100. Brings 7 more bushels per acre, or at present prices $222 more profit from every 40 acres planted.

Agricultural experts tell you to **Plant Accurately.** But accuracy can only be successfully secured through the use of a number of features combined, so that the entire mechanism works in harmony. The seed corn must lie flat. Big kernels must be permitted to pass without cracking, two kernels must not pass through same cell, seed plate must move at proper speed and the materials and workmanship must be a standard which guarantees years of service.

Repairs for J. I. Case Corn Planter and Plows may be obtained here.

Make it your business when in town to call around and look the Case Corn Planter over.

IT PAYS

We are frequently asked if it pays to spend so much time in reconditioning and inspecting our used cars before they are offered for sale. The answer is that a great many of our used car purchasers come back when they want new cars. Doesn't that pay?
