Buick Uses Radio To Announce 1928 Models

Residents of Chestertown and vicinity are cordially invited to visit the showroom of The N-B-R Motor Co., local Buick dealers, tonight, and hear the famous Arthur Pryor and his Band, Roxy and his gang, and the rest of the Buick Motor Company's special announcement program, which is being broadcast from coast to coast, also to see the new 1928 Buick Models, now on display. The three broadcasting networks of the National Broadcasting Company have been engaged, for an hour each, to span the continent with special music heralding Buick for 1928.

Never before has an automobile manufacturer utilized broadcasting facilities in connection with his announcement, and never before, except in the case of presidential addresses and the homecoming of Lindbergh, has any feature, commercial or otherwise, monopolized the great nationwide broadcasting network. Buick's action in engaging the three great broadcasting chains was consistent with Buick's leadership in the automobile world, a leadership which charges any Buick announcement with unique interest.

Those who prefer may tune in at home on any or all of the three Buick special programs. The Blue network, through its key station, WJZ, New York, will go on the air at 9 to 10 p. m., Eastern Daylight Saving Time, 8 to 9 p. m., Eastern Standard Time, or 7 to 8 p. m., Central Standard Time, with a program by the famous Authur Pryor and his Band. The Red will follow, one hour later, with that Radio listeners' favorite, Roxy and His Gang, over WEAF and affiliated stations, and the Pacific network will start at ..... broadcasting a concert orchestra program, also specially arranged for the Buick announcement event. Each program will last one hour. Since many of the stations of the three chains have overlapping territories of reception, it will be impossible for thousands of listeners to tune in on all three programs.

In listening to all or any of the three great special musical hours sponsored by Buick, the public will in a sense participate in the making not only of automobile history but radio history too, for tonight's evening of broadcasting, like the Buick for 1928 which it heralds, is entirely without precedent.
