PROMISING SEASON AT BAKER'S TURKEY FARM

With over one thousand turkeys in first class condition, Mr. and Mrs. H. M. Baker has so far experienced a record breaking year in their business. All young stock were incubator hatched and raised in brooders, weaned early and trained to roost as soon as possible. One remarkable feature of this year's flock has been the total absence of any disease among the birds while losses from other causes have been very slight. To guard the valuable turkeys from thieves or disturbance a small movable house has just been completed in which a watchman will spend the nights. The house is built on wheels and can easily be taken to various sections of the farm. Mrs. Baker considers the Eastern Shore an ideal country for the turkey industry and many neighboring farmers have started to build up flocks which net a solid income from November to February.

BIRD DROPS SNAKE IN DRIVER'S LAP

Mr. and Mrs. Alexander Donoho, Mrs. James B. Robinson, Dorsey Donoho and Charles W. Burton, had an exciting experience Thursday afternoon, while motoring from Seaford to Ocean City, Md., in the Donoho car. They had arrived within two miles of Ocean City, when they observed a buzzard get up out of the marsh with a large snake in its bill. The buzzard, evidently became frightened at the approach of the car, and in its bewilderment, flew straight at the machine, dropping the snake in the lap of Mr. and Mrs. Donoho's son, Dorsey, who was struck the second window of the machine, where Mr. and Mrs. Donoho and Mrs. Robinson was sitting, causing much alarm fortunately the bird did not break the glass, and no one was injured.

CHEVROLET PRODUCTION

Chevrolet production for July raised the total volume for the first seven months of this year to nearly on a par with its entire output for 1926, in which year Chevrolet established an all-time production record for the manufacture of gear shift cars, according to figures released today by the Chevrolet Motor Co.

Production for the month ended totaled 89,569 units as against 50,993 units for July, 1926, an increase of 75.65 per cent. This percentage of gain over the corresponding month of last year was greater in July than in any other month so far into 1927. The next highest month was February, when this year's figures revealed an increase of 67 per cent over February, 1926.

July volume brings production for the first seven months of this year to 697,318 units; whereas in the entire year of 1926 the total volume was only 728,697 units, whereas in the entire year 1926 the total volume was only 728,697 units, indicating that at the present rate of output the figures for last year will be passed before August gets fairly under way.

GAME PLENTIFUL IN KENT

Deputy game wardens in the county are gratified at the present prospect for a plentiful supply of all kinds of game in about every section of the county, and if conditions remain favorable until next November sportsmen will have some of the finest sport shooting rabbits and partridges they have enjoyed for years.

A campaign begun some years ago in the county of breaking up the running at large of dogs which had been destroying hundreds of rabbits and birds during the closed season as well as the vigilance of the wardens in enforcing the closed season law, has had a very beneficial effect upon the natural propagation of game in the county.
