KENT FARMERS WARNED AGAINST HOG CHOLERA

Dr. Jarman was called to Rock Hall this week to treat hogs in that section. Hog cholera has appeared there and the wise farmer will have his hogs treated. In several other sections of Kent this disease is prevalent.

Doesn't it seem singular that with all the advice given and with all the information at hand this disease continues to play havoc with the farmer's best source of revenue!

Hog cholera alone robs the farmer of thousands of dollars each year and yet the very thing that causes this loss is known and its use persisted in by raisers of hogs.

By the terms of a Maryland law covering contagious diseases, it is unlawful to leave carcasses of hogs dead from cholera unburied or unburned. All sick hogs must be segregated at once and kept from any possible contact with neighboring swine. It is well for no one to approach pens in which cholera hogs are kept, since germs are often carried on boots and shoes to neighboring farms.

Hog Cholera exists on the premises of George Pinder and James T. Butler near Butlertown. Dr. J. T. Moffett is treating hogs in that section and by this means it is hoped to check the disease.

BIG SHAM BATTLE ON COLLEGE CAMPUS

Something novel and inteersting in the way of an attraction at th eCarnival this week was the Sham Battle presented on College Campus at 6.30 Thursday evening. It was given by Major Frank B. Hines, commander of the Chestertown medical detachment of the Maryland National Guard Companies from Elkton, Chestertown and Centreville, numbering about 100 men staged the spectacle which was witnessed by hundreds. There were over 500 automobiles fronting the Campus on three sides making an ideal picture. Then there were hundreds standing and sitting all about the green sward making a striking picture.

The display of fine works portrayThe display of fire works portraying the throwing of bombs, etc., was equal to a 4th of July celebration.

Shallcross Brothers, of Middletown. Del., have sold their farm near Golt containing about 400 acres, to George Tibbitt. Price is said to have been $15,000.

WASHINGTON COLLEGE BEGINS ITS 146th YEAR

This has been Freshman Week at Washington College. More than 80 new students have enrolled, the sexes sharing equally in the number. With this enrollment old Washington will have 250 students this year.

The program opened at noon Tuesday when Dr. F. G. Livingood, who is chairman of the week's activities, delivered the address of welcome. He was followed by the newly appointed business manager, James W. Johns, who told the freshmen of the regulations governing the college buildings, grounds and cafeteria. Prof. Wm. R. Howell, Registrar, addressed the new class and told them how to perform the routine of registering.

Late Tuesday afternoon the students went through the formalities of registering and became officially students of Washington College.

Tuesday night, the student council held a reception for the incoming freshmen in the college gymnasium.

Chapel services were held for the first time Wednesday and Charles E. Smith, of Church Hill, president of the student council spoke to the freshmen on student government at the college.

The week's program will continue until Sunday. Addresses will be made by President Paul E. Titsworth, Dean Jones, Dean Boland, Athletic Director J. T. Kibler, Coach Phil

PAUL E. TITSWORTH, PRESIDENT OF WASHINGTON COLLEGE.

Brown, T. D. Bowers, Mrs. Nell C. Westcott, Varsity Sports, Captains, Team Managers, Presidents of Organization and many others. The largest increase in the local high school ranks came in the Junior and Senior Classes where the pupils from several other county schools were added.

At the Chestertown Elementary School about fifty little tots began their school careers on Monday.

Miss Esta V. Harrison has taken up her duties as School Supervisor. She succeeded Miss Helen Jane Woodley, who resigned at the close of the last school year and visited here on Thursday.

The colored schools begin Sept. 19.

Thomas L. Gibson, State Supervisor of Music, was in Chestertown Tuesday holding a conference with the instructors of music in the Chestertown High and Elementary School. Mrs. D. B. Ford and Miss Cora McWhorter are the teachers in the Chestertown Schools. An effort is being made to procure a new piano for High School.

CHESAPEAKE BRIDGE OPPOSITION REMOVED

Chesapeake Company Agree To Alter Its Plans To Meet Protests—Kent Sends Big Delegation To Baltimore Thursday — Work To Be Commenced Soon.

In reply to protests from Baltimore and Philadelphia shipping interests, officials of the Chesapeake Bay Bridge Company Thursday agreed to change plans for the proposed bay bridge so that greater clearance will be afforded boats.

The protests were made at a public hearing before Major C. R. Pettis, United States district engineer.

Stuart S. Janney, counsel for the bridge company, announced that the company would agree to make certain changes in the plans. T. F. Cadwalader, of the Ericsson Line, said the revised plans would meet the approval of his company.

No further protests were made and the hearing adjourned.

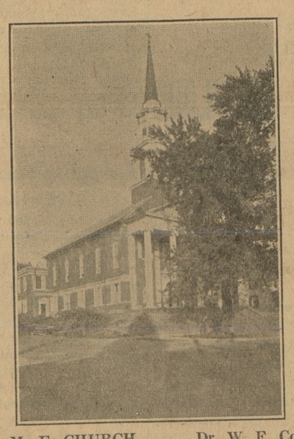

The record of the hearing Thursday will be sent to the War Department in Washington, to be used in considering the application of the company for a license to construct the bridge. The company, Major Pettis, explained, must amend the plans before the War Department. He said he did not know whether it would be necessary to hold another public hearing on the revised plans.

Senator S. Scott Beck, of Kent county, filed a statement with Major Pettis to the effect that, in authorizing the bridge, the Legislature recognized that Tolchester Beach was composed of two farms having a water front of about two miles and did not mean only that section now used as an amusement park. The question had been raised as to the legality of the undertaking because the eastern terminus of the bridge would not be directly on property included in the amusement park, he said.

Senator Beck and Thomas W. Perkins, president of the Kent County Chamber of Commerce, told Major Pettis that the people of the Eatsern Shore were entirely in favor of the bridge. W. D. Thom, representing the Baltimore Association of Commere, spoke in favor of the bridge. A number of other prominent citizens from Kent were present at the hearing.
