As So Often Happens

Likewise it is possible to marry in an inside paragraph and repent in a front-page column.—Arkansas Gazette

Correct Pronunciation

The word "suite" is always correctly pronounced "sweet," no matter whether it means a set or series, a series of connected rooms, or a train or retinue. It is frequently confused with "suit," which in many cases has a similar meaning.—Exchange.

Grinders - Shellers - Engines

WHOLE GRAIN is bulky and it fills the animal's stomach, but it cheats you by satisfying the hunger through this bulk rather than through complete nourishment.

Tests have been conducted by Government stations in past years, with healthy animals, to determine the seriousness of these feeding losses.

The tests show an average loss of from 12 to 25 per cent. In other words, out of every 100 bushels of whole corn fed, 26 bushels yield practically no nourishment while passing through the digestive tract. The unground oat diet showed a similar loss of 12 bushels out of every 100.

Such feeding losses can easily spell the difference between loss and a handsome profit. Many farmers are putting various combinations of grains through a Feed Grinder, assuring their animal a nourishing ration that is quickly and completely assimilated.

5c IS PLENTY!

No Need to Pay More for a Good Cigar. Thirty-year Favorite Now 5c Everywhere. Read the Details!

It cost more than a nickel for years. It was such a corking good smoke, so mild, fragrant, satisfying, that sales boomed. The manufacturer reduced the price. The sales curve kept going up. Then the cigar was bettered in quality and production soared on to new levels. Tremendous volume kept the price at five cents.

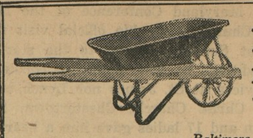

That's why you don't have to pay more than 5c today to buy a real cigar, expertly made from *ripe* tobacco. It sounds too good to be true, we'll admit. There's only one way to settle all doubt about it. Buy one *Havana Ribbon*.

A nickel is little enough to pay if it introduces you to a cigar as sweet and full-bodied as *Havana Ribbon*. Drop in at any cigar counter and light up. The first draw will convince you for all time.

In Winter, too—

BLUE SUNOCO

is as perfect for WINTER driving as you found it to be for Summer

The public acceptance of BLUE Sunoco has been phenomenal, due without any doubt, to the fact that its outstanding good points could be easily tested and proved by any driver.

Its high knockless rating, a most necessary requirement of any good motor fuel for Winter driving, has been proven by official tests of the American Automobile Association and the Canadian Automobile Association.

Ease of starting and quick acceleration are as provable as BLUE Sunoco's high mileage record.

BLUE Sunoco is a Premium Fuel . . . yet no premium price is asked for it
