BETTERTON

The Ladies' Aid Society held a successful oyster supper in the basement of the M. E. Church last Saturday evening.

Mrs. Charles Willis spent the past week with relatives in Baltimore.

Mr. and Mrs. Howard Owens entertained the directors of the Tri-Town Building and Loan Association at a turkey dinner on Wednesday evening.

Mr. and Mrs. Eugene Gooding and sons of Baltimore, are guests of Mr. and Mrs. Harvey Moore.

The Girls' Club held their meeting on Monday at 2.30 p. m. The Women's Club met at the school Tuesday afternoon to make felt hats. Mrs. Eva Taylor and Mrs. Walter Wirts, of Rock Hall Club, ossisted Miss Schellinger, the Demonstrator with this work.

The Ericsson pier broke through under the weight of three heavily loaded trucks the early part of the week. Elmer Atwell and Richard Nicholson went down with the freight which was somewhat damaged. Fortunately neither of the men were injured. It is thought that the piling were weakened by the ice.

Mr. and Mrs. Floyd Smith spent Sunday with the latter's parents, Mr. and Mrs. Harry Clark, near Sitll Pond.

The Calendar Club held their March meeting in the Sunday school room of the church on Monday evening. Betterton Orchestra furnished music.

The Patrons' Club held a meeting at the school on Tuesday evening. The Chautauqua Community Association also held a meeting at the school the same evening.

Ground was broken last Wednesday for the garage of Newsome and Company, which will be erected on Chesapeake avenue, adjoining the Bowman property.

Feet and Talking

It's the fellow who can't talk on his feet who puts his foot in his mouth when he tries.—San Francisco Chronicle.

Fowls in Biblical Times

Partridges are noted in the Old Testament. The fatted fowl (I Kings, 4:23) is interpreted as either goose or duck. Cocks and hens were brought from Persia two or three centuries before Christ. A tomb at Marissa of about 200 B. C. has a good representation of a crowing cock. Sparrows and other "twittering birds" were also used for food.

PLAY WRITING CONTEST

The Play Writing Committee of The Woman's Eastern Shore Society of Maryland is endeavoring to collect for preservation as many of the legends and traditions of the Eastern Shore and its inhabitants as possible.

The records of the Eastern Shore contain much of which we are proud, but this Committee feels that there is a great deal of general interest that has never been recorded. All are asked to cooperate with them by writing family traditions; such as stories of the early settlers, accounts of their homes, colonial and slavery days, stories of the various wars? Also stories of social gatherings, fox hunting, tournaments, etc.

Also interview the older members of your family and friends and talk with them of "ye olden days," and write their reminiscences and send them to the Play Writing Committee of The Woman's Eastern Shore Society, in care of Miss Anne Rothwell Stewart, 811 North Charles Street Baltimore, Md., not later than June 1, 1928.

This Society is offering, through this Committee, a Free Prize of One Hundred Dollars for the best play portraying most graphically the atmosphere of the Eastern Shore, and Fifty Dollars second prize, before the advent of automobiles and other modern conveniences.

Please help to secure a play of our Eastern Shore. Rules for the contest will be sent upon request, when accompanied by a stamped, self-addressed envelope.

14TH ANNUAL NEGRO HEALTH WEEK

The annual clean-up campaign and the spring drive against disease and dirt; flies and mosquitoes and other disease producing pests, will start in the colored sections of the State in connection with the fourteenth annual celebration of Negro Health Week—April 1 to 8. The general observance of the week is arranged at the request of the National Negro Organizations by the U. S. Public Health Service in cooperation with City and State Departments of Health and the voluntary health organizations.

In callling attention to the suggested program, Dr. John S. Fulton, Director of the State Department of Health said "Out of every six persons in the State, five are white and one is colored. Whatever concerns the health of one effects the health of the entire community."

The program recommends that each day of the week be devoted to some specific health activity.

One copy of the program may be obtained by writing to the U. S. Public Health Service, Washington, D. C., or to Dr. John S. Fulton, Director of the State Department of Health, 16 W. Saratoga Street, Baltimore.

"Mechanical Ears"

So delicate are the "mechanical ears" perfected by scientists to detect sound waves in the air that a gun fired on the east coast of England was "heard" at Birmingham university, more than 135 miles away, says Popular Science Monthly. The sound was not heard by human ears, but was detected by the recording instruments.

proof . . .

there *is* a difference in FERTILIZERS

HERE is proof—proof of extra yields, better quality, earlier maturity, larger profits—made with "AA QUALITY" Fertilizers.

Read the letters printed at the right. They are from successful farmers who use sound farming methods and "AA QUALITY" goods.

These and hundreds of similar letters prove that, whatever crops you grow, "AA QUALITY" Fertilizers will help you get *more profit for every dollar invested.*

The superior crop-producing power of "AA QUALITY" Fertilizers is due to—

1. Great care in selecting the materials from which the plant-food elements are derived.
2. Formulæ based on a thorough knowledge of local crop and soil conditions; formulæ continuously checked and studied by a group of experts; formulæ tested by over 60 years of successful crop production.
3. Perfect mechanical condition, assured by extra care and the most exacting standards of manufacturing.

This year feed your crops with "AA QUALITY" Fertilizers—and let your crops feed your bank balance. Insist on getting "AA QUALITY" Fertilizers from your dealer.

ONE AND ONE-FOURTH ACRES YIELD 9,700 HEADS OF CABBAGE . . . Mr. G. E. Biddison, of Kingsville, Baltimore Co., Md., says: *"This year I bought a large run-down farm on the Lincoln Highway and began to use 'AA QUALITY' Fertilizer. I planted 1¼ acres of Savoy cabbage, not getting them in until very late. Nevertheless, I had a wonderful crop, and sold on local markets 8,000 heads averaging 4 pounds a head, and buried for winter about 1,700 heads. I am thoroughly convinced that 'AA QUALITY' Fertilizers will produce excellent truck crops."—November 26, 1927.*

BEST RESULTS OF ALL . . . Mr. R. T. Rooks, Cheriton, Northampton Co., Va., says: *"For years I have used 'AA QUALITY' Fertilizer on my early potato crops. It has proved satisfactory in every respect, not one year, but year after year. We have tried 'AA QUALITY' alongside of other fertilizers, and in all cases it has beat them. Try 'AA QUALITY' Fertilizers and be convinced."—July 15, 1927.*

"AA QUALITY" THE BEST FOR EARLY TRUCK . . . Mr. E. P. Matthews, of Pocomoke City, Worcester Co., Md., says: *"My crop of rutabagas grown with 'AA QUALITY' Fertilizer, 1,300 lbs. to the acre, is an unusual crop. I consider 'AA QUALITY' Fertilizers for early truck the best that money can buy. They make exceptionally fine crops of early white potatoes and turnips, as well as other crops."—September 1, 1927.*

"AA QUALITY" ALMOST DOUBLES YIELD . . . Mr. L. W. Trader, of Withams, Accomac Co., Va., says: *"I am very well pleased to state that I used 'AA QUALITY' Fertilizer on my potato crop this year. In fact, have been using this fertilizer for many years, and I am especially pleased with results I have always obtained. My yield, 110 barrels to the acre, is way above the average, and while potato prices have not been as good this season, the increased yield has made up the difference."—July 15, 1927.*
