A proclamation naming Friday April 13, as Arbor Day in Maryland has been issued by Governor Albert C. Ritchie.

FOR A NINE-FOOT ROAD

In an open letter to the Board of Commissioners of Kent county, directors of the Kent County Chamber of Commerce have outlined a program for the construction of a nine-foot concrete road building program thruout the county, and have offered to support such a program if adopted by the Commissioners for county secondary roads.

It is said that the mileage of secondary roads, yet to be paved, amounts to 75 miles; that payment for the construction of new lateral roads would be made from the State gasoline tax, and that the maintenance would be deducted from a separate percentage of the same fund. The future widening of such roads would also come from the same State tax fund.

Replying to an inquiry, John N. Mackall, Chairman of the State Roads Commission, has advised that it is illegal for the farmers to erect stands along the State roads for milk cans, unless they obtain a permit from the State Roads Commission. Mr. Mackall states that in case of an accident the farmer would be held liable if he had erected a milk stand without an official permit.

COL. LINDBERG, THIRD, TO GET PEACE PRIZE

Local radio owners enjoyed a treat Monday night. The name of Col. Charles A. Lindberg stood linked with those of Viscount Cecil and Elihu Root as one whose contribution to the cause of international peace and understanding was recognized as worthy of the Woodrow Wilson award.

The award, consisting of a bronze medal 12 inches in diameter and $25,000, was presented by the Woodrow Wilson Foundation at a dinner at the Hotel Astor Monday night.

Colonel Lindberg, in his speech of acceptance paid tribute to the achievements of President Wilson, "a man," he said, "who was always at the head of progress and peace and yet who was able to successfuly lead his nation through the greatest war in history when peace was no longer possible and after that war, to bring this country back to his high ideals."

Switching to aviation, Colonel Lindberg expressed the belief that aviation would play a large part in the betterment of world understanding."

"It is my hope," he added, "within the next few months we will have air lines operating from the United States down through the Caribbean area to South America."

John W. Davis, former Ambassador to Great Britain, and Dr. Orestes Ferrara, Cuban Ambassador to the United States, made addresses in praise of Colonel Lindberg and they came in fine over radio.

While crossing a street in the northwestern section of Baltimore on Wednesday, Dr. Gordon T. Atkinson, former State Comptroller and prominent resident of Crisfield, was struck by an automobile and seriously injured. He was taken immediately to the Maryland General Hospital where it was found that his leg had been broken in two places below the knee. He is now a patient at the hospital under the attention of Dr. Baer, of the Maryland General Hospital staff. Reports were to the effect that Dr. Atkinson was resting easily and was getting along as well as could be expected.

BANKERS URGE LOWER RATE INTEREST, SAVINGS ACCOUNTS

A reduction of the present 4 per cent rate of interest paid in Delaware on savings accounts was urged by two speakers at the semi-annual meeting of the Delaware Bankers' Association Thursday at the duPont Biltmore in Wilmington. Thomas R. Ingram, cashier of the Sussex Trust Company, Lewes, said he believed it unethical for the banks to tax their stockholders and reduce their profits in order to maintain a 4 per cent rate for savings depositors, when present earnings do not warrant so high a rate. He said that interest paid on savings accounts should be based on current bank earnings and not on past profits. "If the question was asked — 'have savings departments paid in the past '—my answer would have been unconditionally 'yes', but many of them do not pay today." He said he doubted whether an investment with a 5 per cent yield is enough to pay both the costs of operation and 4 per cent interest to the depositors. "A spread of one per cent in Delaware generally is not enough," he said. Otho Nowland, president of the Wilmington Clearing House Association, host to the bankers, complimented Mr. Ingram upon his address and said that he felt the banks of the State should join to reduce the present 4 per cent rate of interest. No action was taken at the meeting on the suggestion but the matter will be considered by he executive committee in session within the next few weeks.

The twenty-third annual meeting and conference of the Maryland Daughters of the American Revolution will take pace Thursday, Friday and Saturday of next week at the Hotel Belvedere. Mrs. Charles T. Marsden State vice-regent, will preside and will make the address of welcome. Miss Frances Stuart, regent of Old Kent Chapter, will respond. Thursday address will be given by Mrs. Alfred J. Brosseau, president-general in whose honor a luncheon will be served.

IN MEMORIAM

In loving remembrance of my dear father, William Dixon, who departed this life two years ago March 23, 1926.
Death has robbed us of my dear father,
Whom we loved and cherished dear,
He was a father, yes, a dear father,
Can we help but shed a tear?
We do not know the pain he bore,
As you dear brother sat and watched him die;
But we only know he went away
Without bidding us good-bye.
Oh, dearest, sweetest father,
Since you have passed away,
It seems not two years ago,
But only yesterday.
But in our saddest moments,
One happy thought holds sway,
We will meet again dear father,
And be happy some sweet day.

By his loving daughter, Janie C.

In loving remembrance of my dear father, John O. Legg, who departed this life seven years ago March 22, 1921.
In my heart your memory lingers.
Tenderly kind and true;
There is not a day, dear father,
That I do not think of you.
By his loving daughter, Grace A. Legg.

There will be a special meeting at the Fire House Tuesday at 7.30 p. m. The Rock Hall Volunteer Fire Co. will dedicate their new building May 3rd. On the same day at 6 p. m. they will serve a shad supper in Jr. Hall. Watch for details later.

SUPERIOR
BLACK HAWK SPREADER

The Greatest Spreader Ever Built
IF YOU are hauling and scattering manure by the old, slow, costly and back-breaking method—if you are using a spreader that wasn't built right to start with—if you are using a spreader that has seen its best days—come in and see how you can save work and money with a SUPERIOR Black Hawk Spreader.
Thousands of users know that it produces earlier crops, bigger crops, better crops—crops that bring the highest market prices. It insures quick absorption—prevents burn-outs—*doubles the crop-producing value of your manure.*
No Other Spreader to Compare With It
The SUPERIOR Black Hawk pulverizes every particle of the manure. It spreads it in a broad, smooth layer. None is wasted. No part of the field gets too much—no part gets too little. It is built low for quick and easy loading. It's the easiest hauling spreader ever built. Alemite lubrication keeps all working parts in perfect condition. Automobile type mounting in front gives a shorter turn.
These are just some of the reasons why thousands of farmers choose the SUPERIOR Black Hawk in preference to all others. Come in and see it for yourself. See how it will save work for you and for your horses. See how it will boost your crops and your profits.
