MYRIAD DUCKS STOP AT FLATS

Flocks of canvasback ducks in such great numbers as practically to darken the skies greeted E. Lee LeCompte, State Game Warden, when he made a trip of inspection to the ducking sections of the Susquehanna flats, he said. According to Mr. LeCompte, the canvasbacks were in greater numbers making a stopover on their trip northward for the summer than he has ever seen.

"Old timers who witnessed the flight of birds with me declared that the large number of canvasbacks reminded them of old timers. As for me, I have never seen them in such great numbers, Mr. LeCompte said.

"In addition to the canvasbacks and several other varieties of ducks swam were so thick upon the surface of the water where they were feeding as to give it the appearance of being covered with banking snow."

Prospects of plentiful canvasbacks to please the most exacting gunner should be along the flats during the hunting season of next winter, he said. Unless thousands of the birds are poisoned by the alkaline waters of some of the lakes along the Canadian border, ducks of all types will return to the Maryland waters this winter.

Mr. LeCompte declared that along the shore lines of some of the Northern lakes, ducks by the thousands killed by the alkaline poisons, have been seen piled high dead.

Steps have been taken, he said, by sportsmen all over the country to prevent the poisoning of ducks by special treatments of the marsh and lake areas of the summer homes of the ducks. The results of these steps will not be known until the ducks begin their Southern migration late in the fall, Mr. LeCompte said.

CHESTERTOWN, MD.

JOHN D. URIE, Attorney.
ORDER OF PUBLICATION

Mildred Hynson vs. Otho Hynson.

In the Circuit Court for Kent Coutny
In Euity, No. 2505.

The object of this suit is to procure a decree of divorce a vinculo matrimonii by the above entitled Plaintiff, Mildred Hynson, a resident of Kent County, Md. against the above entitled Defendant, Otho Hynson, a non-resident of said State.

The Bill of Complaint states that above entitled parties were married on or about August 26th, A. D. 1914, in said Kent County by a Minister of the Gospel and that the said Otho Hynson abandoned the said Mildred Hynson who in her conduct toward him was above reproach and that said abandonment was without just cause or reason and has continued uninterruptedly for more than three years and that there is no reasonable hope or expectation of their reconcilation. That the said Otho Hynson also has committed adultery with a certain Louise Trusty, which adultery she has not condoned. That said defendant is a non-resident of the State of Maryland but believed to be residing in the City of Philadelphia, State of Pennsylvania.

It is thereupon, this 13th day of March A. D. 1928, ordered by the Circuit Court for Kent County, in Equity, that the Complaintant by causing a copy of this order to be inserted in some newspaper published in said Kent County, once in each of four successive weeks before the 16th day of April A. D. 1928, give notice to the said absent and non-resident defendant, Otho Hynson, of the object and substance of the Bill of Complaint filed in this case, warning him to appear on or before the 30th day of April next to show cause, of any he has, why a decree ought not to be passed as prayed.

ORDER OF PUBLICATION

Herman H. Darrell vs. Nellie Darrell.

In the Circuit Court for Kent County
In Equity. No. 2508.

The object of this suit is to procure a Decree of Divorce a vinculo matrimonii by the above named Plaintiff, Herman H. Darrell, from the above named Defendant, Nellie Darrell.

The Bill of Complaint in said suit states that the above entitled parties were married on the 26th day of November A. D. 1913, in said Kent County by a Minister of the Gospel and that although the conduct of the said Plaintiff toward the said Defendant was always kind and affectionate and that he supported in the manner which was usual to persons in their station in life and supplied her with every reasonable comfort she abandoned him on July 7th, 1924, without just cause or reason and such abandonment has continued uninterruptedly for more than three years and that the Plaintiff believed such abandonment to be deliberate and final and their separation to be without hope or expectation of reconciliation.

That said Defendant, Nellie Darrell, is a non-resident of the State of Maryland but believed to be a resident of the City of Philadelphia, State of Pennsylvania but whose address is unknown.

It is thereupon, this 19th day of March A. D. 1928, ordered by the Circuit Court for Kent County, in Equity, that the Complainant, by causing a copy of this order to be inserted in some newspaper published in said Kent County once in each of four successive weeks before the 23rd day of April A. D. 1928, give notice to the said absent and non-resident Defendant, Nellie Darrell, of the object and substance of the Bill of Complaint, warning her to appear on or before the 7th day of May next to show cause, if any she has, why a decree ought not to be passed as prayed.

FARMERS WILL MEET AT U. OF M. MAY 26

Agricultural Exhibits and Contests

TO FEATURE STATE-WIDE GATHERING—SPECIAL RAILROAD RATES OFFERED

"Farmers' Day this year will in all probability be the best the University of Maryland has ever celebrated," says Dr. H. J. Patterson, Chairman of the Committee in Charge and Dean of the College of Agriculture and Director of the Agricultural Experimental Station.

"Officials of the Baltimore and Ohio Railroad, co-operating with the committee have offered a special round trip fare from all points in the State at single fare cost," continued Dr. Patterson, "and we hope that this will enable more farmers from the eastern and northwestern sections of the state to attend.

President Pearson has instructed the Committee in Charge of the Farmers' Day program to make every possible arrangement to give the day a real educational value. He says that when farmers come here from Garrett to Somerset, hundreds of miles, that they ought not only to have a day of enjoyment, but also a day from which they may derive practical benefits to carry back to their homes for actual use on their farms.

The university is doing agricultural work that is of benefit to each section of the State and no matter from what section farmers come President Pearson means that they shall find something that will be of particular interest to them.

T. B. Symons, Director of the Extension Service, and Miss Venia M. Kellar, Head of the Home Economics Extension Service, are collaborating over the actual management of the day.

Interesting and unusual events will feature the entire day. There will be the fitting and judging contests sponsored by the Livestock Club at the university barns, and exhibits by all departments of the Agricultural and Home Economics Extension Service.

The entire university will be open to visitors to show the value of the work it is rendering for the state.

Officials of the Poultry Department and of the U. S. Department of Agriculture will present an exhibit showing results of the recent trip around the state, of the B. and O. Poultry Special. The progress of the university Egg Laying Contest, which is entering into its third year, will be shown.

Field Day for the Grade Schools of Prince George's county will be held during the morning and early afternoon, on the athletic field, while plans are being made for the Annual R. O. T. C. Competitive Drill, with the awarding of the Class of '96 Sword to take place at the same time on the Parade Field.

There will then follow the regular Farmers' Day program of speeches and discussions of farm problems.

"A new feature this year, will be a horse show and an old-fashioned Maryland Tournament," continued Dr. Patterson. "There will be awards of cups and ribbons for both features and the horse show especially is expected to attract some of the finest horses and best riders of Washington and nearby sections.

In order that farmers of the State may make valuable contacts, and to bring about a get-to-gether spirit between the farmers and other business organizations and interests special invitations have been sent to members of the legislature; principal officers of the Maryland banks and the editors of all Maryland newspapers, and to state and federal government officials.

Luncheon will be served at the Dining Hall for all who attend.

Plans are being made accommodate a crowd of 10,000.

SPINACH GROWERS AND CANNERS ARE AIDED BY U. OF M.

State University Scientists Determine Best Variety for Maryland Farmers and for Canning Industries

Largely because of the interests of Maryland canners and demands of farmers, work has been carried on at the University of Maryland to find which of the many varieties of spinach are best suited for growing in Maryland soil. For a period of about three and a half years this work has been carried on, with the result that Virginia Savoy, a cross between the Savoy, a market spinach commonly known, and the seed of a much hardier plant imported from Manchuria, has shown itself to be far superior to the other varieties.

The Manchurian spinach closely resembles dandylion greens in appearance. It is hardy but has a great deal of stem which makes it undesirable for marketing. Among its good points, however, are its high resistance to mosaic or "Spinach Yellows" the blight most prevalent in spinach growth, and its resistance to cold weather. It was by crossing this brand with the leafier Savoy that the new variety was obtained, with the rich leaves of the Savoy and the resistance of the Manchurian plant.

The new variety should be especially attractive to Maryland farmers because it is sown in the fall and is ready for the market in early March, four to six weeks earlier than the average crop. In this way the same land used for it is again in readiness to plant in tomatoes, beans, or any other crop desired. On the other hand it is not advisable to plant this brand of spinach in the spring, as it goes to seed too early to be profitable as a spring crop.

Among the many varieties experimented with were the Bloomsdale, a thick leafy plant which makes a good market appearance; the Thick-Leafed Henderson, Viroflay, Prickley Winter, Thick-Leafed Round, Princess Juliana, Triumph, King of Denmark, Long Season, Giant Eskimo, Victoria and Thick-Leafed Viroflay, all known to the Maryland farmer.

5 Per Cent. Interest on Farm Loans

Since the 5 Per Cent interest rate for farm loans became effective, the Kent and Queen Anne National Farm Loan Association has received applications for loans totaling $73,000, showing the increasing popularity of this cooperative means of securing money.

If you are carrying a 6 per cent mortgage on your farm, which never grows less, why not transfer it to the Federal Land Bank and get the benefit of the 5 per cent interest rate, which reduces your mortgage principal every year.

If you desire to purchase a farm, the Federal Land Bank will finance the loan to the extent of 50 per cent of the purchase price at 5 per cent interest.

No better means of financing farm loans has ever been offered than that afforded by the Federal Land Bank.

Come in and let me talk the matter over with you.

That many million men can't be wrong

FIGURES show that more Prince Albert is smoked by experienced jimmy-pipers than any other brand. You might give any of a dozen reasons why they bought their *first* tin of P.A. But their tenth and their hundredth . . . only demonstrated quality can account for *that!* Wouldn't you say so?

The very fragrance of P.A. is an indication of the quality-taste still to come. The first fire-up makes good on the aromatic promise. Cool as a steeple-jack doing his stuff. Sweet as getting back to earth again safely. Mild and mellow and long-burning. Some tobacco, Men, and no mistake!

If you don't know the joys of a pipe packed with P.A., get busy and make up for lost time. No matter what your present set-up may be, try Prince Albert. It is not an experiment, but an experience — a little journey into a land of pipe-joy that you'll take many times every day.

The revenue stamp tells you—TWO full ounces in every tin.

PRINCE ALBERT
—no other tobacco is like it!
