LOCAL NOTES.....

The Ochtamaquath Camp Fire Girls' have started working on the fountain in the park. Last Saturday they got the ground ready for the planting of flowers which will be done soon.

Wilbur W. Hubbard has purchased of the trustees of the late Harvey Cooper the Round Top farms in Queen Anne's for $17,500. These farms contain about a thousand acres and at one time produced the finest peaches in the country.

Thedwelling on the property of Jas. A. Jester, at Fairlee Creek landing, was destroyed by fire was insured for $1,000 with J. Waters Russell.

A clinic for diseases of the chest will be conducted in Health Center, Chestertown, May 14, at 10.30 a. m. Individuals complaining of any of the following: Cough, expectoration of blood spitting, tired feeling, loss of weight, and appetite, indigestion, hoarseness, etc., should see their family physicians and obtain permission to attend clinic at the place announced above.

Harry Fowler, an enmployе in the E. S. Adkins and Company's lumberyards here sustained a compound fracture of the left arm Thursday afternoon when the arm became caught between a pulley and a belt in the factory. He was given first aid by Dr. Simpers and then carried to Easton where the fracture was set.

John H. Clendaniel has been appointed a member of a commission to represent the State by Governor Ritchie in the annual convention of the National Good Roads Commission which will meet in Des Moines, Iowa, shortly.

The Kent County Savings Bank elected Wm. F. Russell and Thomas W. Perkins as delegates to the Bankers' Convention which meets at Old Point Comfort next week.

Camp Davenport, conducted by the Diocese of Easton for some years past will not be continued, according to a decision of the Social Service Council of the Diocese of Easton. It is determined to abolish the Camp until such time as the site and necessary funds are in hand to make it a permanent place.

A FINE CONCERT

Chestertown Lyceum was well filled Tuesday evening with an appreciative audience at the second annual concert of the Volunteer Fire Company Band. C. Arthur Bacon was the able conductor and wielded his baton in a most graceful manner. The Band as a whole and as individuals is worthy of congratulations and the entire program was one of pleasure and interest to all. The features as presented were as follows:

Part I—Band.

March, Washington Post, John Philip Sousa.

Overture, Frolic of the Nymphs, Francis A. Myers.

Valse, Dreaming, Archibald Joyce.

oo

Mr. and Mrs. Harry B. Lambert and Mr. and Mrs. Edward Bramble was run into on the State road between Rock Hall and Edesville last Sunday afternoon by a Baltimore car and upset in a ditch, outside of a good shaking up and scare no one was hurt. Both cars were slightly damaged.

o

St. James C. E. will present a special program Sunday evening with Walter Morris, Jr., leader. Prof. Fox will speak and John Alderson will sing "Mother McCree."

ANNUAL MEETING OF INSURANCE CO.

The 83rd annual meeting of the policy holders of the Mutual Fire Insurance Company of Kent county was held at the company's office, in Chestertown Monday and the following officers re-elected:

President—Fred. G. Usilton.

Secretary and Treasurer—Eben F. Perkins.

Directors — Robert G. Nicholson, Edward W. Emory, J. D. Bacchus, Allan A. Harris, T. W. Eliason, Jr. P. Medford Brooks, of Chestertown; Wm. A. Hyland, of Galena; Howard Turner, Betterton; James P. Brown, Church Hill; Dudley G. Roe, Sudlersville.

The condition of the company showed $3,629,100.00 in force. The net fire losses have been $5,939.34 There was distributed $10,756.77 to the credit of the policy-holders and $5,632.56 added to reserve. The reserve account now amounts to $78,393.55, while the amount to the credit of policy-holders exclusive of the reserve account is $90,315.72.

The State Insurance Department in a recent examination says, "The company is efficiently and economically maneged, its books and records neatly and accurately kept and it is in a sound financial condition, with business steadily increasing."

It is certainly gratifying to this company to know that the people of Kent county appreciate its mutual benefits.

Last year this company provided for accident insurance for the volunteer firemen of the Chestertown Company.

At the meeting Monday the Directors appreciated a committee consisting of the President, Secretary and Treasurer and Medford P. Brooks to present an important and far-reaching proposal to the county firemen. This is a plan by which the three volunteer fire companies would receive an income for necessary erpenses.

How long should it take to boil water?

2 qts. of water raised from 45° to boiling -in 6 min. on the new KITCHENKOOK

-in 7½ min. on an ordinary city gas range

-in 21 min. on a popular make of kerosene range

These figures are the result of scientific tests made in the engineering Department of a leading American University. They are given here to show the progress which is being made in the development of fine cook stoves.

Kitchenkook has set a new High Mark in Cooking Speed

Comparative tests show that the Kitchenkook is faster than any other type of cook stove; faster even than city gas, the usual standard for comparison.

Kitchenkook makes its own gas from common gasoline, bringing to homes located beyond the reach of gas all the convenience, cleanliness and comfort of city gas service. It's different from any stove you have ever used. No wicks or chimneys, no smoke, soot or kerosene odor. Master burner lights in less than one minute; then all burners turn on or off as wanted, just like gas. No waiting, no delay; fire regulated instantly just as you want it. Kitchenkook is so simple children can use it in perfect safety.

Don't fail to ask us for a demonstration of the wonder stove that is revolutionizing the whole industry, the most talked of stove today. Made in 16 attractive popular priced models, including white porcelain enamel ranges, with oven and broiler.

KITCHENKOOK

THE WORLDS FASTEST COOK STOVE

THE NEW FORD CAR

BODIES

The bodies of the new Ford are of steel, the only wood used being stripes for attaching interior trim, and in the soft roofing of the closed cars. In designing the new Ford car every precaution was taken to prevent squeaks, ratles or drumming sounds. The bodies are built with every feature necessary to eliminate metallic noises. The doors are of heavy construction and welded to give greater strength and rigidity. All body parts that are of steel stamping which might develop noises have re-inforcing beads which not only prevent drumming sounds, but also increases strength. In assemblying a body, panels and frame sections are welded and riveted together where ever there is a possibility of the body weaving, due to uneven conditions on the road, thus eliminating all chance of metallic squeaks of this nature. In the final assembly of the large units of the body where bolts are necessary stripes of anti-squeak material are used between the sections. Wherever there is two pieces of metal coming together which might cause squeaks a double ply artifical leather anti-squeak tape is put between them. Another feature of the body construction is the insulation of a heavy pad heat insulatior on the dash of each car. This pad not only keeps heat from the engine entering the front part of the body, but also serves to quiet noises.

WINDSHIELDS

The windshields of the new Ford cars are of triplex shadow proof glass, and important safety feature. When this glass is broken each small particle of glass adheres firmly to the pyroxlin plastic internal layer with the result that there is no flying glass. This is a highly important safety factor in automobile accidents, a large percentage of injury result from cuts by flying glass, particularly from the windshield. There are also other safety features of this glass. It softens direct sun rays, it beraks headlight glare, it eliminates condensation under windshield of closed cars during winter and is flexible under impact.

There are many more important features of the new Model A car which we will be glad to demonstrate to you if you will give us a call.

IT PAYS TO FERTILIZE A CORN CROP

Did you know, it pays to feed your Corn better than most any other crop, particularly with our regular Corn Fertilizer, that is especially adapted to its growth and maturity.

One of the requisites is to apply a sufficient quantity say: 350 lbs. to the acre, which is the amount used by the most successful Corn growers.

All of the County Agents and agronomists over the Country are now advocating the use of fertilizers on your Corn, as it not only increases the yield from 15 to 20 bushels more than the unfertilized, but also improves the quality, in that one user claims, he has now 50% more merchantable corn, than he used to have, before he commenced using fertilizer.

I know of one man, who bet his Son, it would not pay to use fertilizer, as he never had, they each put in a field, the young man fed his and the old man lost his bet, TRY IT.

For Tomatoes

Use Our Peerless Tomato Fertilizer, this has been on the market for years and many of the most successful Tomato Growers, will use no other.

We had one customer, who grew 19 tons to the acre a few years ago, with our goods and we will be pleased to supply you.
