

CHRISTINE BINGHAM

Victor Herbert Program Opens Chautauqua

"Silhouettes from Victor Herbert Operas" is the musical program announced for the opening night of the coming Chautauqua. Gifford Gordon in a lecture entitled, "Hold Fast, America," is the other feature of the initial program.

The Christine Bingham Company, a mixed quartet of successful singers consisting of Christine Bingham, soprano and violinist; Elinor Van Scoten, contralto; Frederick Hufsmith, tenor; and Harold C. Wright, baritone; with Dolly Stewart as pianist and accompanist, is the organization which will present the tuneful numbers from the favorite works of the great American composer. "If I Were on the Stage" and "Kiss Me Again" from "Mlle. Modiste;" "I Am Falling in Love with Someone," Waltz Song" and "Street Song" from "Naughty Marietta" and equally well known selections from "The Red Mill" and "Sweethearts" are announced as being on the program.

Appropriate costuming for these various numbers will add to the effect and will make the recalling of these perennial favorites a treat to the eye as well as the ear. Christine Bingham will play violin obligato to certain of the numbers such as "Kiss Me Again" from "Mlle. Modiste."

Frederick Hufsmith, tenor of the quartet, and Elinor VanScoten, contralto, have spent the past winter season in Florida as members of an organization singing in the leading hotels of that State, where they have added new laurels to those already bestowed upon them by the North.

At Chestertown, August 15 to 21.

OIL BURNER FOR COURT HOUSE

At the bi-monthly meeting of the Kent County Commissioners on Tuesday it was decided to install an oil burner in the furnace of the new heating plant that supplies heat to the Court House and Jail.

The new oil burner will be automatic and keep the buildings at any temperature desired. It will also reduce the work of the fireman and practically eliminate smoke.

In An English Court

Solicitor—Does your husband swear habitually?

Woman—Oh, no; he leaves off at times.

HOME DEMONSTRATION NOTES

This is the happy week for Boys' and Girls of Maryland who attend Club Week at College Park, Md. Those going from Kent county are: Mary Virginia Brown, Dorothy Walbert and Mary Lucht, of Pomona Pomona Girls' Club; Mildred Willis, Dorothy Crew, Isabelle Brice and Helen Harris, of Betterton Girls' Club; Evely Bailey, Irene Bailey, Josephine Davis and Anne Robinson, of Sassafras Girls' Club; Isabelle Fowler, Emma Anderson, Sarah Morris, Betty Moffett, Emily Sutton, Rhoda Williams, Lillian Ford and Mrs. L. A. Sutton, Local Leader of Flatland Girls' Club.

ELECTRICAL REFRIGERATION

When thinking of Electrical Refrigeration, think of the name KELVINATOR.

Refrigeration is not an experiment with the Kelvinator Co.

They have been building electrical refrigerators for 14 years.

We can also make your old ice box or refrigerator electrical.

For your convenience, I have one at my store.

Back she came . . .

A millionaire's wife —and BROKEN-HEARTED

As far back as Cherry could remember, poverty and squalor were the only life she had ever known. Many a lonely, aching night, through hot tears of self-pity, she had gazed with wistful, longing eyes into a dream-world of love, tenderness, compassion, beauty—a world that seemed forever beyond her reach.

But as Cherry blossomed into young womanhood, her determination to conquer life brought freedom, friends, success.

Then romance came. As the wife of Dick Berringer—young, rich, boyishly handsome—Cherry's measure of happiness seemed complete. Then—catastrophe! A merciless fate decreed that she go back to the gutter whence she came. With bleeding heart she saw snatched from her all the love, comfort and happiness she had fought for so bravely and so long.

What strange circumstances conspired to crush her under this frightful load of misery? Why must she exchange an honored name for the bitterness of shame and degradation?

You will want to read the whole heart-breaking story, exactly as Cherry tells it. It is entitled "Shattered Dreams," and appears complete in the September issue of True Story Magazine.

$36.40 MORE PROFIT PER ACRE —On Winter Wheat

STRIKING proof of greater profits from every acre when you use "AA QUALITY" Fertilizers is furnished by Mr. H. R. Snoberger, of New Enterprise, Bedford County, Pa.

On one field of 8 acres where Mr. Snoberger used an "AA QUALITY" Fertilizer, his yield was 47⅞ bushels per acre. The wheat in a 20-acre field where he used an "AA QUALITY" Fertilizer, yielded 30 bushels per acre. His wheat sold for $1.25. Compared to the 18-bushel average yield in his locality, his 8-acre field paid him an extra profit of $36.40 per acre—$291.20 for the field. The extra profit on the 20-acre was $300. Besides this he received 10c. per bushel premium for his wheat, or $50.40 extra.

Think of it! $641.60 added profit by using "AA QUALITY" Fertilizers.

Exceptional? . . . Not at all! As 4017 letters from growers last season will testify. Read some of these letters in the next column. Farmers who want the utmost profit on their season's effort, cannot ignore these facts. Here is proof that there is a great difference in the crop-producing power of fertilizers of the same chemical analysis. These facts prove that "AA QUALITY" Fertilizers pay you a larger profit for every dollar you invest in plant food.

These goods are made with the utmost care from the choicest plant-food materials obtainable. These materials are selected for their crop-producing power, not just for chemical analysis. Nothing is left to chance—nothing is taken for granted. These plant-food materials must meet rigid "AA QUALITY" standards, else they are rejected. "Good enough" does not suffice in making "AA QUALITY" goods. Perfect mechanical condition, always.

Facts for Wheat Growers

From Mr. H. R. Snoberger, New Enterprise, Bedford Co., Pa.

"Due to the very large yield of wheat, 47⅞ bushels per acre, which I made by using 'AA QUALITY' Fertilizer on an 8-acre field, I feel I would be doing your Company and all users of fertilizer an injustice by not telling about it. The balance of my wheat crop, 20 acres, averaged 30 bushels per acre. *The general average on farms in this section is around 18 bushels per acre.*

"I have used 'AA QUALITY' Fertilizer during my fifteen years of farming. One reason why I have used no other goods is this. *I have watched the results obtained by farmers who use other makes of fertilizer* and I notice they do not get the yields that I do. Another reason is that when other goods stored in barns or warehouses get hard and lumpy and sometimes clammy, my *'AA QUALITY' always remain fine and dry.* This enables me to get even distribution over my entire crop and avoid drill trouble.

"I cannot say too much for your 'AA QUALITY' Fertilizers."

October 11, 1927.

That is why "AA QUALITY" Fertilizers produce bigger yields, better quality—and larger profits. That is why "AA QUALITY" goods are by all odds the cheapest fertilizer you can buy. It will pay you to use "AA QUALITY" Fertilizer on your next wheat crop. See the nearest "AA QUALITY" dealer today. If you do not know where he is located, write us.

"AA QUALITY" FERTILIZERS
