TRAPPE, DELUGED BY FROGS

This little town, Trappe, Md., the birthplace of "Home-run Baker," nine miles from Easton, made another bid for fame Monday at noon when millions of small frogs fell from the heavens with a rain that lasted fifteen minutes. They covered the streets and highways that led out of the town so quickly that motorists and pedestrians were prevented from navigating until they could be cleaned away.

Scientists explain the phenomenon by saying that the frogs, as mere tots, are drawn into the clouds by the sun, and that when they grow to certain weight they descend with the rain.

Tourists from many large cities, including Philadelphia, Washington, Baltimore and Wilmington, visited the scene, and many of the frogs were placed in containers and taken to Easton for display.

The frogs ranged in size from a half an inch to an inch and a quarter.

"THE DOVE" WITH NORMA TALMADGE AT LYCEUM SOON

Norma Talmadge in "The Dove," her first United Artists Picture, is to be the feature at the Lyceum Theatre on Thursday and Friday, Sept. 20 and 21. Based on Willard Mack's stage play, which ran for a year on Broadway, "The Dove" is a melodramatic, romantic tale of Costa Roja, the "red coast." Miss Talmadge is supported by Noah Beery and Gilbert Roland. Roland West directed the picture from the scenario by Wallace Smith and Paul Bern.

"The Dove" is the colorful, quick-action narrative of a virtuous dance hall girl, a courageous young American employed in a gambling house, and "the bes' damn caballero in all Costa Roja," Don Jose Mariay Sandoval. Against a background of guitars, stilletos, roulette wheels, fine ladies and grand gentlemen, the characterization of Miss Talmadge as Dolores, "The Dove," a beautiful dancer, comes to glowing life, according to advance reports.

Directed by Roland West who has previously made Norma Talmadge pictures, and supported by Noah Beery and Gilbert Roland, who were accorded considerable roles by the star. Miss Talmadge has a role of fire, tempestuous, loving, defying and yielding in its several shades. The film is said to retain all of the color which David Belasco put into the stage version of "The Dove," in which Judith Anderson and Holbrook Blinn appeared. Roland West, the director, believes the story is even more suited to films, and that in "The Dove" Miss Talmadge achieves new heights in a part as different from her prior characterization as that was from its predecessors.

Norma Talmadge not only becomes a United Artists star through "The Dove" her first picture for that organization, but she is also now one of the eight owner-members of United Artists. Mary Pickford, Gloria Swanson, Charlie Chaplin, Douglas Fairbanks, D. W. Griffith, Joseph M. Schenck and Samuel Goldwyn are the others.

Little Richard—A fib is the same as a story and a story is the same as a lie.

Little Roy—No, it isn't.

Little Richard—Yes, it is, because my father said so, and my father is an editor.

Little Roy—I don't care if he is. My father is a real estate man, and he knows more about lying than your father does.

A SMOKE SURPRISE FOR A NICKEL
Here's a Really Fine-tasting Cigar at a Low Price

You smokers who raise your eyebrows when "a good five-cent cigar" is mentioned—don't be so sure that "there ain't no such animal." There is! All you need is a nickel and a memory for names, to get on its track. *Havana Ribbon*—that's the cigar. Been on the market for thirty years. Always a mighty good cigar for the money. Today—thanks to modern methods and immense production—it is nothing less than marvelous! Ripe tobacco—from heart to wrapper! Smoke so cool and sweet and full of mellow-mild flavor, you'll scarce believe such goodness could ever be crowded into a cigar for five cents.

Try it, men! A nickel won't break you. And it won't make us. Yet, if you think we're overstating things, your dealer is authorized to hand back your money, if you say the word. There's a cigar counter near. Let's go. Also sold in *Practical Pocket Packages* of five cigars.

Eighteen Million Telephones

"In 1907 there were about 6,000,000 telephones in the United States, but they were only partially interconnected, while today there are over 18,000,000 telephones in the United States so interconnected that it is possible for practically any one of the 18,000,000 to be connected with reasonable promptness with any other one of the 18,000,000 * * * "

WALTER S. GIFFORD,
President of the American Telephone and Telegraph Company
(Bell System)

¶ There are now over 18,000,000 telephones in and connected with the Bell System in the United States. And it has been less than the span of a lifetime since the telephone first talked.

¶ It started with one man, a set of crude instruments, and a vision of a great service that might be given if the way could be found. That was all.

¶ The way *was* found and today, instead of two telephone workers—the inventor and his assistant—and two telephone instruments, 374,000 men and women and 18,000,000 telephones make possible a service—a continuous service—used more than 73,000,000 times each day, saving time and money and bringing comfort and convenience to millions of people. *A service within the reach of anyone, anywhere!*

¶ Today, there is one telephone for every seven persons in the United States and there is scarcely a hamlet without the service. The nation is made one neighborhood for you through *your* telephone.

¶ The Chesapeake and Potomac Telephone Company of Baltimore City with more than 194,000 telephones in the State of Maryland, is one of the associate companies of this nation-wide system. Its policy is the same—to give you a quick, dependable, and reasonably priced telephone service. To that end we are bending every energy.
