END OF CYCLONE STRIKES KENT

The terrific storm which rendered such havoc in Palm Beach and other places arrived in Kent Wednesday night and Thursday morning. One of the highest tides since 1893 did considerable damage to shipping, roads, etc., etc.

Warnings sent out here saved many boat owners from loss. Further damage to poultry, corn and tomatoes is reported. We are glad it was no worse.

OVER $4.000 CLEARED AT THE CARNIVAL

Over $4,000 will go into the treasury of the Chestertown Volunteer Fire Company as the result of the annual carnival which closed here on Monday evening. The $4,500 profit represents a gross of about $8,500.

It is stated that approximately $6,000 was taken in at the carnival grounds, exclusive of the automobile raffle.

Nearly $2,300 was taken in by the automobile raffle of which about $1,500 was cleared. $800 was taken in here Monday night.

The Pontiac, the grand prize of the carnival, was won by J. Iven Rigby Sr., of near town. The winning number was seven and it cost the winner just five cents. Mr. Rigby, the winner, was present and but a few feet from the stand when the drawing was completed.

The Stewart-Warner radio was won by Ralph Miller, of Kennedyville.

Eli Elliott, of Chestertown, was the lucky holder of the winning ticket in the wicker furniture suite raffle.

The twenty-four pound ham, donated by Wm. T. Nicholson, was won by Miss Elizabeth Wood, of Rock Hall.

William Wheat, connected with the Stein Amusements in the park, won the table cover.

The turkey gobbler, donated by Mrs. H. M. Baker, was won by Miss Mary McKee, of Morgnec.

The carnival, originally scheduled to end on Saturday evening, was held over for an additional night, when the fire company officials decided that business would warrant the move and it did because about $1,500 was the receipts.

The carnival was a great financial success and those in charge managed the affair successfully. The band under Prof. C. A. Bacon, added much with their excellent music.

FARMERS WANT TARIFF PASSED

An increase in the duty on imported canned tomatoes from Italy for the protection of domestic canners, was asked of the United States Tariff Commission at the opening of the hearing Tuesday into the cost of production in Italy and in this country.

The plight of the Maryland canners was placed before the commission by Senator Cabell Bruce and Representative T. Alan Goldsboro, of Maryland, and Representative Robert G. Houston, representing the Delaware canners.

The importation of canned tomatoes from Italy since 1922 has grown to such an extent that domestic canners in recent years have found it difficult to meet competition of the foreign product produced at much lower labor cost. The increase in canned tomatoes imported into this country in 1926 amounted to 17.37 per cent of the total production in this country, Senator Bruce told the commission in outlining the difficulties and that the tomatoes were produced with such low labor cost that the Maryland canners could not meet it.

It was contended that, in order to place domestic canners on a competitive basis with the Italian product, approximately 41 per cent increase would be required. Under the present tariff act the duty only can be increased 22 1-2 per cent.

Representative Goldsborough called the attention of the commission to the fact that it was the aim of the present tariff law to protect domestic industries. He alleged that an artifical flavor was added to Italian products

Missing his bankbook containing a deposit of several hundred dollars upon his arrival at the Third National Bank the other day in his Ford runabout, Ellsworth C. Telephoning to his office one of the firm went to the spot in the road and found the bankbook and deposit intact.
