## 12 REASONS WHY WOMEN SHOULD VOTE FOR SMITH

1. He called the New York Legislature into special session, in 1919, to ratify the Nineteenth or Woman's Suffrage Amendment to the Constitution, in order to help secure nationally this privilege for women.

2. He has brought about increased pay for New York public school teachers, with an average doubling of the salaries of the women in the profession, demanding at the same time equal pay for women with men.

3. He ended the discrimination against women seeking positions under the New York civil service by refusing to allow appointing officials to specify that one sex only could take the examination.

4. He has urged the New York Legislature to remove from the statute books all laws that unjustly discriminate against women, but at the same time would not permit any changes to be made that might interfere with the statutes for the protection of women in the home and in industry.

5. He secured the forty-eight-hour law for New York, making a shorter week and day for women wage earners in factories and stores.

6. He secured the passageof laws ending child labor and the outrageous overwork of women in canneries in his state.

7. He stood for a minimum wage commission to assure a living wage to women and minors and would have secured the same had not the Republicans in the New York Legislature and Constitutional Convention defeated it.

8. He favors the creation of terminal markets and the proper distribution of food supplies so that the farmer and consumer will have deserved protection.

9. He favors ample school facilities and provisions for the education of children in rural districts. He believes their educational advantages should be as great as those acorded the children of the cities.

10. He will, if elected President, call all of the proper agencies of the Government at his command to his support in order to end profiteering in the necessities of life.

11. He had perfected the workmen's compensation law from which women workers receive benefits as well as men. The family of the workingman also has profited from this legislation.

12. He secured the passage of the New York widow's pension law. Under its terms, generous provision has been made for women left penniless and allowances have been made for their minor children. Thus children have been kept under the care of their mothers rather than of orphanages.

Alfred E. Smith — Honest, Abie, Fearless—His election means that a President will be in the White House who thinks of Government in terms of the Men, Women and Children it should help.

## Outstanding Growth In U. S. Telephones

### Now 15 Telephones For Each 100 People As Compared With 1.6 in Europe

*Smile when you telephone. It pays big dividends as this business woman knows.*

America leads the world in telephone development and many cities in the United States are served by more telephones than some entire nations. Washington, the nation's capital, with a population of 500,000 is served by more than 145,264 telephones, which is equivalent to 29 for each 100 people.

Some of the countries with large populations but small telephone development, according to telephone and telegraph statistics of the world just issued by the American Telephone and Telegraph Company are, Greece with a population of about 5,500,000 and only 6,328 telephones; Bolivia, S. A., with a population of 2,890,000 had 1824 telephones; Ecuador with 2,000,000 people had 4518 telephones; and Paraguay with a population of 1,000,000 only 413 telephones.

These figures are in startling contrast with facts which show that four government departments at Washington, D. C.; the U. S. Capitol, War and Navy, Treasury, and Agriculture, and five hotels in that city, are served by a total of 10,500 telephones.

The United States had, as of January 1, 1927, about 18,000,000 telephones which is equivalent to 15.3 telephones for each 100 people as compared with only 1.6 for each 100 persons in Europe where nearly 88 per cent of the telephones are under government control.

Eight rural normal schools have been established in the State of Guanajuato, Mexico. The number of rural and elementary schools has been increased, teachers' salaries, and a larger budget for education provided.

## COLLEGE GETS CAGE START

Aasketball is getting off to an early start at Washington College. Local mentors believe the Maryland title holders will likely retain the championship with the aid of veteran material at hand and additional experienced recruits enrolled this year. Last Monday saw the first real workout in the college cage when freshman candidates performed for "Dutch" Dumschott, assistant coach and graduate-manager of athletics. Twice a week until the season opens practice tilts will be held in the gymnasium, it is announced by Head Coach Tom Kibler.

Veterans of the winning Washington quintet will work out at least once a week, with the exception of those on the gridiron squad, but will not do any heavy practicing for fear of going stale later in the season, in this manner it is believed a line on all the available material will be ascertained before the season starts.

The basketball season here will be a long one. Several first-year squad candidates are looking good. Ross, formerly of Crosby High, Waterbury, Conn., and Cobourn, of Virginia, are especially promising.

Every year the Pinkham Medicine Company distributes about 30,000,000 booklets from house to house. Mr. Ted Hinzman does this work in Lodi, California. His wife writes: "It was in these little books that I read about so many women being helped by the medicine. I thought I would give it a trial and I can truly say that it has done me good. My neighbors and friends ask me what I am doing to make me look so much better. I tell them that I am taking Lydia E. Pinkham's Vegetable Compound."

Enjoy a Maytag no-rub washing

For homes without electricity, the Maytag is available with in-built gasoline motor.

THE Maytag is so much faster, so much easier to handle, so quiet and smooth-running, so thorough, so remarkable in every way that the most forceful way of convincing the housewife is to let her do a washing with it.

The Maytag Company originated the seamless, heat-retaining, non-breakable, cast-aluminum tub, the gyrafoam washing action, and many other outstanding washer improvements.

The Maytag deserves an opportunity to demonstrate how it will save you time by doing an entire washing in an hour or so, save your health by making hand-rubbing of badly soiled clothes unnecessary, save clothes by its easy way of cleansing by soap and water action alone, and by its Roller Water Remover, with a soft top roll and hard bottom roll.
