SHAKE UP IN ROAD COMMISSION

John N. Mackall, chairman and chief engineer of the State Roads Commission, will be replaced in the chairmanship by Oscar F. Lackey, former City Harbor Engineer, Governor Ritchie announced Monday.

Mr. Mackall will continue, at least for a time, as chief engineer, the Governor said.

The changes are a result of the Governor's decision to separate the two offices, in accordance with a recommendation made by the special committee which he appointed to study the State Roads Commission's physical workings. Appointment of this committee was made last spring, following the uncovering of a shortage in the State Roads Commission accounts which finally mounted to $376,000.

The result of the Governor's action will be to relieve Mr. Mackall both of his chairmanship and his membership on the commission. He will be placed directly under the supervision of the body which for nine years he headed and his salary will be reduced from $12,500 annually to $8,000. The difference of $4,500 will go to .Mr Lackey.

Announcement of the separation of the two offices and the replacement of Mr. Mackall as chairman of the body was made at the conclusion of a conference between Governor Ritchie and the former State roads head in the Governor's office. In making public his decision, Governor Ritchie said Mr. Mackall had indicated to him during their talk that he would like to remain as chief engineer. This the Governor said he would be pleased to have him do, although the employment of the engineer is up to the commission itself.

Chestertown, : Maryland

W. S. SEIPP REELECTED

Warren S. Seipp, for the past eight years grand master of the Grand Lodge of the Ancient Free and Accepted Masons of Maryland, has been reelected to that post for the coming year.

Following the traditions of the order, the grand secretary and treasurer also have been re-elected. The grand secretary, George Cook, has held his post since 1910. J. Rosco Wheatley, assistant grand lecturer.

GROWING GIRLS NEED Scott's Emulsion

NEWSPAPER MAN PRIVATE SEC'Y

The man who made Herbert Hoover articulate to the common people and who has been buffer extraordinary and greeter plenipotentiary for the secretary of commerce, White House candidate and President-elect, is slated to continue his liaison work as secretary to the President, says a special dispatch from Palo Alto in a recent issue of the New York World.

George Akerson, forty, who went from Allegheny College, Meadville, Pa., into newspaper writing and was successfully managing editor and Washington correspondent of the Minneapolis Tribune, came in contact with Mr. Hoover as secretary of the United States Commission of the Philadelphia Sesqui-centennial Exposition, and for three years has exerted virtual power of attorney as master of Hoover public relations.

He taught the secretary of commerce the value of using the first name, and soon "George" was the medium of exchange from the Hoover reception room both ways—to the inner office and the callers' waiting room.

Mr. Akerson, now in a composite role of secretary, adviser, bodyguard, press agent, and general contact man, is the mouthpiece of a President-elect, who wants to do things for several weeks before saying much about them, and unde rthe Hoover plan will combine these into a Presidential innovation—a one-man White House spokesman in the flesh.

Akerson's graying hair does not belie the comparative youth of his rotund face, and he moves his 230 pounds with surprising agility. Always immaculate in appearance, he never has that tired look. Hard work and worries never bring disheveled hair, a bag in the trouser knees, nor curt conversation.

He never frowns in public. He was the Hoover campaign smile, and that same facial optimism, which never falls below a quizzical interest in whoever is engaging his attention, is the President-elect's good-will mission.

He puts an almost savage concentration into any task at hand, from completing a phone call to driving an automobile on an urgent mission or approaching a library to get one figure for a link of statistics. He cannot sit still and do nothing. Smoking a cigar or carrying on light conversation are his last resorts, usually developing some new suggestion for work by the second or third spare moment.

Akerson handled all requests for passage on the battleship Maryland, turning them down with a smile by the hundreds, answering knocks and boosts, making and breaking engagements, directing living accommodations changes aboard the Maryland, informing and sparring with newspaper correspondents, resifting sifted mail that was brought in by the truckload daily, conferring with "the Chief" on plans ranging from two minutes to eight years in the future and using his slightly limited power of attorney to pass into the Hoover presence daily only a handful of the scores of persons that knocked at the doors of the Hoover home.

Mr. Hoover does not have a "newspaper sense." He is considerate and appreciative of the correspondents that have been with him through the campaign and in declining to answer questions or announcing at one of his infrequent press conferences that he has nothing to say invariably apologizes smilingly for being a "poor source of news." Akerson, however, makes up the deficiency of head-line material from incidents picked up in his close contact with Mr. Hoover and by making announcements that carry Hoover's approval.

Akerson is married and has three children, all boys. In his jack-of-all-trades capacity he keeps himself on call 24 hours a day, and during his absence from home his wife acts in his behalf on queries and engagements.

GRADING OF TURKEYS

Nothwithstanding the fact the efforts of the Kent County Chamber of Commerce to establish a turkey pool for the sale of the county's crop of turkeys was not as successful as was anticipated for Thanksgiving, it has served the purpose of bringing home forcibly to the growers the underlying cause of their failure to receive top market prices for their stock.

A buyer recently stated that he preferred Western turkeys, not that they are any better than the Maryland product, but because the Western stock is property graded and marked for what they really are when offered for sale, while in Maryland and throughout the peninsula the lack of organization has made shipments somewhat of a gamble to the buyers. Mrs. Harold M. Baker, pioneer of the industry in this State in raising turkeys on a large scale, has been insisting on this practice for the disposal of Kent county's crop ever since the development of the industry to its present proportions, but the majority of growers fail to exercise the necessary care in grading and marketing their stock for market, and consequently the large city buyers pass up the Maryland stock because of the risk they must necessarily run in buying stock they know little or nothing about.

This statement has changed somewhat the program of Chamber of Commerce officials in that before seeking to establish a turkey pool with the hope of attracting city buyers, they will begin an educational campaign for the purpose of inducing the growers to learn the proper methods of preparing their turkeys for market before establishing a pool for their sale.

Coughs Stopped Almost Instantly

Doctor's Prescription Relieves Without Harmful Drugs

Almost instant relief for coughs is now guaranteed in the use of a famous physician's prescription called Thoxine which contans no chloroform or dope. It works on an entirely different principle, has a double action, relieves the irritation and goes direct to the internal cause not reached by cough syrups and patent medicines. The very first swallow usually relieves.

Thoxine is pleasant and safe for the whole family. Also excellent for sore throat. Quick relief guaranteed or your money back. 35c., 60c., and $1.00. Sold by Toulson's, Chestertown, Md., and all good drug stores.

CHEVROLET

New Features of-
The Outstanding Chevrolet
of Chevrolet History
-a Six in the price range of the four!

Everywhere The Outstanding Chevrolet is being hailed as a spectacular achievement in advanced design, because it embodies the greatest array of improvements ever offered on any automobile of comparable price.

Here, for example, is a marvelous new six-cylinder, valve-in-head engine whose design represents over four years of development and testing on the part of Chevrolet and General Motors engineers. It has numerous advancements typified by a non-detonating, high-compression cylinder head—gasoline pump with filter, and automatic rocker arm lubrication. It provides performance the like of which was never before available in the low-price field—marvelous smoothness, tremendous reserve power and sensationally swift acceleration—all with an economy averaging *better than 20 miles to the gallon of gasoline!*

Here are new and improved four-wheel brakes unsurpassed for silence in operation, positive action and ease of adjustability!

Here are marvelous new Fisher bodies introducing a new order of beauty, smartness and luxury.

And here, also, are other features by the score—each an impressive example of automotive progress—each contributing to outstanding performance, quiet operation, long life, ease of control and economical ownership!

We cordially invite you to visit our showroom and secure complete and detailed information regarding this great new car, which will be ready for delivery beginning January 1st.

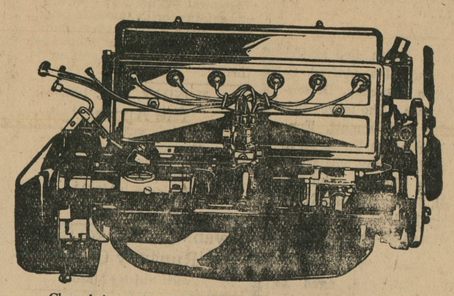

Advance Showings

The Outstanding Chevrolet of Chevrolet History is being displayed in a series of advance showings, the last of which are in the cities listed below:

San Francisco, Dec. 8-13, Civic Auditorium, Larkin Hall . . . Cincinnati, Dec. 8-14, Hotel Sinton . . . St. Louis, Dec. 8-14, Arcadia Ballroom, 3515 Olive Street . . . Atlanta, Dec. 18-22, Auditorium—Armory . . . Dallas, Dec. 18-22, Adolphus Hotel, Junior Ballroom . . . Portland, Ore., Dec. 18-22, Public Auditorium.

The Roadster	$525	The Convertible Landau	$725
The Phaeton	$525	Sedan Delivery	$595
The Coach	$595	Light Delivery Chassis	$400
The Coupe	$595	1½ Ton Chassis	$545
The Sedan	$675	1½ Ton Chassis With Cab	$650
The Sport Cabriolet	$695		

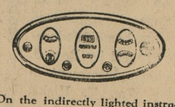

All prices f. o. b. Flint, Mich.

Chevrolet's new six-cylinder, fully enclosed valve-in-head engine has a high compression non-detonating head. Its piston displacement is 194 cu. in. and it develops 46 H. P. at low engine speed.

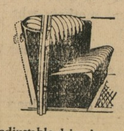

An automatic accelerating pump results in unusually swift acceleration, as well as greater gasoline economy.

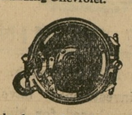

On the indirectly lighted instrament panel are grouped all controls, including the water temperature indicator and theft-proof Electro-lock.

The new chromium plated radiator, lamp standards and rims, and one-piece full crown fenders are typical fine car features of the Outstanding Chevrolet.

The adjustable driver's seat in all closed models. This brings the clutch and brake pedals within proper reach for all drivers.

Newly designed 4-wheel brakes, safe—positive—quiet.

Marvelous new bodies by Fisher are an outstanding feature of the Outstanding Chevrolet.

Other Outstanding Features of Advanced Design and Equipment

MOTOR

New six-cylinder motor, valve-in-head type, fully enclosed.
New automatic lubrication of rocker arm mechanism.
New fabric camshaft gear.
New heavier crankshaft statically and dynamically balanced.
New hot-spot manifold.
New AC gasoline pump with filter, replacing vacuum tank.
New type AC air cleaner.

COOLING SYSTEM

New type thermostat cooling system control.
New electric water temperature indicator on dash.

ELECTRICAL EQUIPMENT

New two-beam headlamps with foot button control.
New prismatic headlamp lenses.
New theft-proof Electrolock.
New semi-automatic spark control.

CHASSIS

New self-adjusting, single plate dry disc clutch.
New smooth 3-speed transmission.
New solid shaft type steering column.
New flat type, slender rim steering wheel.
New and more complete Alemite chassis lubrication.
