STATE TO GIVE W. C. \$10,000

A last minute piece of good news, too late to go on the front page of the Collegian, is the report from Senator S. Scott Beck that Governor Ritchie has placed an additional \$10,000 to the allotment of Washington College for the coming year. The money is to be used for enlarging and improving the gymnasium. This sum will greatly aid the college for just the crowded conditions on Saturday night were evidence of the urgent need of more space.

NEW SOCIETY AT COLLEGE

At recent meetings of the Board of Visitors and Governors, and the Faculty of Washington College, a petition was recognized authorizing and allowing the formation of a Greek letter fraternity at Washington College.

This great step in the development and modernization of Washington College has come through an organization known as the A K, or Alpha Kappa, which has been in existence at Washington College since the fall of 1923. Through the action of the Board and the faculty the A K is a legally recognized Greek Letter fraternity, subject to the rules of the faculty that have been made to govern fraternities.

The Present Chapter. The present chapter is made up of the following men: John M. Alderson, Class of '29; Harry R. Poole, Class of '29; George P. Carrington, Class of '29; James P. Marvel, Class of '29; Wm. B. Usilton, Class of '29; Howard Dopsen, Class of '30; Stanley Girault, Class of '30; Eric Wood, Class of '30; Nelson Hurlay, Class of '31; Arthur Karfigin, Class of '29; Frank Lloyd, Class of '31; Oliver Robinson, Class of '32, and Walter Karfigin, Class of '32.

Dean Jones To Be Congratulated. The success of the attempt at recognition of the A K is due to a great extent to the work of Dean J. S. Wm. Jones. Dr. Jones met with the members of the fraternity heard their arguments for fraternities at Washington, and realizing the benefits of them began to investigate. He went to St. John's Universities of Maryland, Delaware, and Hopkins and interviewed the deans of these schools on their attitude toward fraternities. At all of the institutions he received a favorable report. He visited fraternity houses at all of the colleges and on his return to Washington College he was very enthusiastic over the fraternity idea.

FARM FOR RENT
165 acres cash rental or shares or consider man with tractor to put out on shares. Need not live on place. Box No. 1, Kent News. m23t

WANTED

23 ft. Chesapeake Bay Shad Skiffs, 7 1/2 H. P. engine, all in good shape. Harry Hartley, Crumpton, Md. Phone Millington 40. m2-4t

ENGINEER SHURE TO LEAVE KENT

It is with regret and pleasure we record the fact that Austin F. Shure, local district engineer of Survey and will shortly be transferred to the Baltimore office of the State Roads Commission. He succeeds R. M. Rein-doll, who was promoted to assistant chief engineer when Harry D. Williar was named engineer.

Mr. Shure has been engineer of this district, composed of Cecil, Kent Queen Anne's, Caroline and Talbot counties, for the past ten years, having taken the position in February, 1918.

In this new position Mr. Shure will have charge of all preliminary and final surveys in work to be done by the Roads Commission. His work will carry him to all sections of the State.

Forty-five applicants last week underwent an examination for the position to be vacated by Mr. Shure. Among this number were Ralph Townsend, Bates Chaires and Lewis in Deputy of the local office.

Mr. Shure will take up his new position as soon as affairs are straightened at the local office. Later his family will move to Baltimore. Mrs. Shure, was before her marriage, Miss Grace Newnam, daughter of Mr. and Mrs. John H. Newnam, of Church Hill. Mr. and Mrs. Shure have two sons, John and Henry.

LAW AND ORDER MEETING

The annual meeting of the Chestertown Law and Order League will be held in the Court House here next Sunday afternoon, at 3.45. Herbert E. Perkins, president of the organization, will preside and give a report of the work accomplished during the past year and addresses will be delivered by State's Attorney Stephen R. Collins, of this county, and O. Norman Forrest, Assistant United States District Attorney.

TO SHOW FARM MACHINERY MOVIES

Moving pictures of new labor-saving machinery, illustrating how the crops can be grown at less cost and with less man power, are to be shown Saturday afternoon, March 16th, at Jones & Satterfield's Store. These pictures are open to the public with the compliments of Jones & Satterfield, our enterprising implement men, who arranged to have them brought here, and who will have the new machines on display in their store.

Power farming, says Mr. Jones, has attracted more attention during the past few years than ever before in the history of agriculture. The use of improved machinery has shown progressive farmers the way to lower production costs and has enabled them to make fair profits even during unfavorable years.

P. R. R. WOULD CLOSE TEN SHORE STATIONS

Contemplated closing of ten stations on the Eastern Shore by the Pennsylvania Railroad, which recently acquired the Baltimore Chesapeake and Atlantic Railroad, has become known here.

Application in this connection has been made to the Maryland Public Service Commission and a public hearing set for the body's office in Baltimore, March 14. Considerable protest is expected to be voiced in some of the cases.

The stations are Parsonsville, Whaleyville, Rockwalkin, Rhodesdale, Bethlehem, McDaniel, Claiborne, Grasonville, Wye Mills and Narrows.

Ellsworth C. Greenwood has purchased from C. Albert Rawleigh the double dwelling on High street, extended.

The men's debating team of Western Maryland College was victor in a debate with the Washington College team held in William Smith Hall here last Friday evening.

MANY BILLS UP AT ANNAPOLIS

After a sharp legislative battle, in the House of Delegates the State soldier bonus bill was defeated on its third reading by a 53 to 48 vote.

The bonus bill would have authorized payment of \$10 a month to State residents who served in the World War with a twenty-five per cent increase for those who saw actual combat.

Several days ago the bill, which would create a State debt of \$9,000,000 subject to referendum, to provide payment in the armed forces of the country during the World War, was advanced in the House. An unfavorable report on the bill by the Ways and Means committee was set aside.

In an effort to find a means of insuring victims of automobile mishaps against losses now incurred through irresponsible drivers, Delegate Alfred E. Sharp introduced a resolution calling for the extension of the life of the Maryland Motorists' Financial Responsibility Commission. The Commission was named in 1927 but up to this members have not reported a remedy for losses suffered from irresponsible drivers.

The abolition of the death penalty in Maryland as a punishment for crime is sought by a bill presented in the House of Delegates by four members of that body.

A bill which would prohibit the use of any drift or gill nets, sunken or anchored, in Maryland waters during December and January was introduced in the Senate. In case of violation conviction would involve the forfeit of nets, boats and tackle used and a fine of between \$50 and \$100. The bill was referred to the Committee on Fish and Game.

Owners of trucks carrying glass bottles on the State highway would be required to secure the cargo, to prevent the bottles from falling on the roads, under a bill introduced by Delegate Shepperd. A violation of the proposed law would be punished by a fine of from \$10 to \$50.

A bill to permit grocers to levy attachments for ten per cent of the salaries of those owing them bills passed the House of Delegates. The vote by which the bill gained approval was 79 to 28. Delegate Frederick Lee Coburn and several associates led the fight against it. The bill was supported strongly by grocers' organizations in the State, especially in Baltimore.

The minimum salary paid to teachers in the State public schools for negro children will be the same as the minimum salary now paid to teachers of corresponding grades in white schools if a bill presented in the House of Delegates is passed by the General Assembly. The bill was referred to the Committee in Education.

A bill making provisions for mothers' pensions was one of three measures affecting women and children introduced in the House of Delegates Tuesday by Delegate Fendall Marbury, of the Second City District.

The mothers' bill directs that a sum equivalent to one-fourth of a cent per \$100 of assessed taxable property of each county and Baltimore city be set aside to provide payments to widowed mothers for the care of their dependent children up to 14 years of age.

An allowance of \$14.00 a month would be made for the oldest child, \$12.00 for the next oldest, and \$10.00 for each additional child.

Administration of the law would be placed in the hands of the Supervisors of City Charities of Baltimore city for widowed mothers in the municipal boundaries and in the Circuit Courts of the counties.

A bill has passed by the Legislature permitting Henry W. Catlin to build a bridge across Churn Creek which will connect two of his farms with the mainland and give an easy outlet from his estate on Still Pond Creek to the southern section of the county and the Telecaster ferries. Mr. Catlin owns six farms in the vicinity of Still Pond Creek which he is combining into one of the largest and most valuable estates on the peninsula.

CHESAPEAKE BAY BRIDGE IS SURE

Governor Ritchie announced Thursday night he had decided tentatively to recommend to the Legislature a bill calling for a \$4,000,000 bond issue to carry out seven special road construction projects which he regards as of vital importance to the State.

Two of these projects are connected with approaches to the proposed Chesapeake Bay bridge on the Harford and Kent sides. The granting of these requests by the bridge builders assures the letting of the contract for the bridge.

At the same time the Governor explained that the State would take advantage of the clause in the Federal inheritance tax law which permits deductions for State taxes up to eighty per cent of the rate imposed by the Federal Government.

The revenue from this source not only will be sufficient to pay all the interest charges on the proposed bond issue for the years 1930 and 1931 but will enable Governor Ritchie to reduce the State tax rate about 1 1/2 cents.

Therefore, if the Governor goes ahead with his plan and obtains the approval of the Legislature, the State in the next two years will receive additional roads to cost \$4,000,000 and will have a tax rate of 24.25 cents, instead of 25.74 cents, as originally proposed by the Governor in his message to the Legislature.

JOINT MEETING OF ROTARY CLUBS

Twenty members of Chestertown and 21 members of Centerville Rotary Clubs held a joint meeting in the private dining rooms of Hotel Centerville, Thursday evening, March 7th, at 6.30 o'clock. The program of the evening was in charge of Chestertown.

The visit of the Kent Rotarians were to return the pilgrimage of Centerville Rotarians several weeks ago.

The Chestertown Rotary Club was the official sponsor of Centerville Club when it was formed nearly two years ago. Since that time a warm friendship has steadily ripened between the two organizations, and the joint meeting Thursday evening was an exceptionally interesting and pleasing affair.

The speaker of the evening was Clark Fountaine, of Chestertown Club, who spoke eloquently on the 6th object of Rotary, Conlyn Noland was in charge of singing and Austin Shure presided.

LOCAL POULTRYMEN GET PROFIT POINTERS

The showing of the poultry picture "On the Trail of the Golden Egg" at the Armory, Chestertown, was worthy of the attentive interest of a representative crowd of local poultry raisers on Wednesday night last.

Through a series of interesting and splendidly photographed scenes on the big poultry experimental plant at Larro Research Farm the audience was shown the extreme care taken to insure accuracy in test work.

The film took us through the laboratory, the feed room, the egg room and many other equally interesting places on this unusual farm.

We were shown how seemingly small increases in efficiency could be responsible for enormous increases in our income from each ton of feed consumed. For instance, by decreasing mortality 2 per cent and adding two ounces to the average weight of baby chicks, our income from one ton of chick starter would be increased \$58.00.

It was splendid entertainment and instruction and P. M. Brooks, local feed dealer, through whose courtesy the film was shown is to be commended for his thoughtfulness in arranging for a local showing.

FLAX FACTORY TO CHESTERTOWN

Since the beginning of the interest taken in flax raising in Kent county, hopes have been entertained that a factory might be brought here which would supply a good market for the crop. The prospects for such a factory are better than they have been at any time. The results obtained by the experimental stations in Queen Anne's county have aroused the attention of manufacturers and it is reported that Kent appeals to them as the best place for a central plant.

A factory of the sort contemplated would receive the flax in bundles of straw from the growers, would red, scutch and seed it in preparation for the manufacture of linen thread.

The Kent County Chamber of Commerce has been following closely the development of the experiment for the past two years and felt that it is advisable for Kent's farmers that they are interested in the possibility of a new and good-paying crop, to use one-quarter or one-half an acre of their land for an experimental crop this season. Those who may desire to try it out can learn about the preparation of the ground, the manner of sowing and all points concerning the raising of flax by getting in touch with John Chambers at Centerville, Md.

The firm of Lowry and Grant, Inc., 79 East 130th Street, New York City, have said, informally, that they would take amounts of flax which Kent's farmers may grow this year. A definite arrangement could be made with the firm at the above address and would be the wisest course so that no grower would meet with disappointment.

The flax raised within a short distance of Kent last season was said by experts to surpass any they had ever seen in this country or abroad.

Barroll, Winter & Co., recently organized local firm of investment bankers, announce the opening of an office on the Eastern Shore of Maryland with headquarters in Chestertown. Morris Keene Barroll, second vice president of the firm, will be in charge of the Eastern Shore office. Mr. Barroll is attorney for and director of the Citizens' Bank of Chestertown. He is well known throughout financial circles of the Eastern Shore.

ELEVEN INJURED IN FUNERAL SMASH

Two white men and nine negroes were injured early Monday afternoon when an automobile skidded off the road while rounding Todd's Corner, crashing into a telephone pole, and another car, following closely, piled into the wrecked machine. One of the negroes is in a serious condition.

The automobiles were part of a funeral cortage from Philadelphia that was headed for Worton, Md., where the body of Henry Hynson, who died in Philadelphia, was being brought for burial. All of the injured were taken to the Union Hospital, Elkton, where their injuries were treated.

CHAMBER AS BUREAU OF COUNTY INFORMATION

More and more the headquarters of the Kent County Chamber of Commerce are being with requests for information for home to rent. Newcomers, or prospective newcomers, call at the Chamber and ask for houses or apartments which may be leased. Few are desirous of buying immediately. The Chamber wishes those property owners having any town property to rent which is not in the hands of real estate dealers, would list houses, stores and offices with the organization.

Mrs. Perry Price, of Fairlee, was struck and injured by an automobile driven by Delegate Ellsworth Bowers, as she was returning from church in that village last Sunday evening. Mrs. Price was walking along the side of the highway when she was struck. She was unconscious for several hours but suffered no serious injuries. Minor cuts and bruises were attended to by a physician and she is improving at this time. Mr. Bowers rendered all possible aid.

The choir of the Chestertown M. E. Church were entertained at a turkey dinner by the Rev. W. F. Corbett at the church Thursday evening.

Rev. T. Bramble, a member of the church, had charge of the altar service at the church on Saturday last about 6.30.

Neighbors observing sparks rising from the chimney at the home of Waters Russell, on Campus Street, turned in an alarm at the Centerville Volunteer Fire Company Saturday last about 6.30.
