SATURDAY, APRIL 27, 1929

(Continued from 1st Page)

WHY?

You Should Vote for the Million Dollar Bond Issue for Good Roads for Kent County May 11th.

- 15-Q. How many miles have been or can be abandoned?
  - A. 50 miles.
- 16-Q. How many miles have already been paved?
  - A. 70 miles, completing the primary or main thoroughfares.
- 17-Q. What are the other classes of roads in the County and how many miles of each?
  - A. (a) Secondary, 68 miles. (b) Tertiary, 80 miles. (c) Light traveled, 157 miles.
- 18-Q. How many miles of concrete roads will \$900,000 provide?
  - A. Approximately fifty miles of nine-foot concrete.
- 19-Q. How many miles of slag will \$100,000 provide?
  - A. Fifty miles.
- 20-Q. How many additional miles of slag road can the County Commissioners build by the use of 10c of the present 20c county road tax as provided by the law?
  - A. Seven miles per year.
- 21-Q. Who will maintain the fifty miles of concrete road to be built by the State out of the proceeds of the \$900,000?
  - A. The State Roads Commission without cost to the County.
- 22-Q. Who will maintain the fifty miles of the slag road to be built by the County from the proceeds of the \$100,000?
  - A. The County out of its own funds.
- 23-Q. Why should the County be interested in getting as many miles as possible under concrete?
  - A. The State maintains all concrete roads. The more it takes over the less the county has to keep up, thereby increasing the amount of money available for the county roads.
- 24-Q. What chance does the average man now living on a dirt road have of getting a hard surface road?
  - A. Two chances out of three.
- 25-Q. What is the present average distance of a man not on a hard surface road from such a road?
  - A. Five miles.
- 26-Q. What will be his average distance after the road program is completed?
  - A. One mile.
- 27-Q. What is the advantage of the bond issue plan over the program of State and County construction?
  - A. With the bond issue, good roads will be accomplished in two years. Under the present program it would be approximately thirty years.
- 28-Q. When this program is completed how will Kent's road system compare with other counties of the State?

A. It will equal and probably surpass any county in the State.

29-Q. What difficulties does the landlord with a farm on a dirt road encounter in securing suitable tenants?

A. A progressive tenant refuses to be hampered by mud.

30-Q. How will the coming of good roads influence the outsider who desires to come to Kent County to live?

A. Good roads are bound to attract new citizens from outside.

31-Q. What obligation has Kent County to the State of Maryland to improve its road system?

A. The future prospects of Kent County are particularly bright at the present time. Contributing to this condition the last Legislature was exceptionally generous in their appropriations for our development. Authorizations were made for a new Chester River bridge, an Armory, and a United States Government postoffice and necessary legislation was passed to make certain the construction of the Chesapeake Bay bridge together with its approaches, all of which will mean the greatest advance that has ever come to Kent County. These advantages combined without increasing our taxation offer a challenge to the people of Kent County to fall in line with the march of progress and further the welfare of the County.

RESOLUTIONS OF RESPECT

Whereas, the Father of mercies and God of all comfort has released from illness the frail body of His servant, Mary A. Pennington, and received into His heavenly home her loyal soul, we sorrowing in our loss, but rejoicing in her gain, do hereby Resolved, that in the death of Mrs. Pennington the Woman's Auxiliary of Shrewsbury Parish which she was a charter member, has lost a competent and zealous friend; each of us an understanding and sympathetic companion. We thank God for the example of her beautiful life which will ever stand as an inspiration to us and cause us to dedicate ourselves anew to the work of the church. That a copy of these resolutions be spread upon our minutes, be sent to her family, be published in the Eastern Shore Churchman and county papers.

IDA V. CROW,  
MAUD D. BAIRD,  
ANNE N. CROW.

DEPARTMENT OF PUBLIC WORKS STATE OF MARYLAND STATE ROADS COMMISSION

Notice to Contractors

Solicited Proposals for building one section of State Highway, as follows: Cecil and Kent Counties, Cont. G-14-B and G-17-B. One section of State Highway from Chesapeake City to Cayote, from Cecil to the Susquehanna River, a distance of 7.5 miles. (Concrete Shoulders), will be received by the State Roads Commission, at its offices, 501 Garrett Building, Baltimore, Maryland, until 12 M. on the 20th day of April, 1929, at which time and place they will be publicly opened and read. Bids must be made upon the blank proposal form which, with specifications and plans will be furnished by the Commission upon application and cash payment of \$1.00, as hereafter no charges will be permitted. No bids will be received unless accompanied by a certified check for the sum of Five Hundred (\$500) Dollars, payable to the State Roads Commission. The successful bidder will be required to give bond, and comply with the Acts of the General Assembly of Maryland, respecting contracts. The Commission reserves the right to reject any and all bids. By order of the State Roads Commission this 15th day of April, 1929. G. CLINTON UHL, Chairman. L. H. STEWART, Secretary.

Pets in the House

Pets about the house help to keep the children as well as ourselves happy. Nevertheless, animals may get sick and may transmit certain diseases to humans. If you are in doubt as to an animal's health, consult a veterinarian.

Static and the Weather

Atmospheric static, so annoying to radio fans, may be the means of saving lives at sea. Navy department officials believe. Static has characteristic sounds that have been identified with storms and can be used to foretell storms.

**Had One**  
A Broadway housewife was leaving the market house with two heavy baskets. She asked a little boy whether he would not carry one basket to the car, telling him she would give him a quarter. He fumbled about in his pocket, then blurted: "Ize already got one."

**Breathing Plants**  
Many plants die indoors because they have not enough fresh air. Keep the window near plants open slightly, by inserting one of the standard ventilators.

**Banana and Wisdom**  
"Fruit of the Wise" Linnæus called the banana, says Nature Magazine because tradition has it that when Alexander the Great crossed into India he found the pundits discoursing under the shade of its giant foliage.

**PREVENTS RICKETS Scott's Emulsion**

*The Right HAT Is Mostly A Matter of STYLE*

Material counts, of course, and so does wearing quality. You get both in a Stetson. But you have more. Every Stetson is absolutely correct in style-right up to the minute.

Many new spring styles have come to the store recently and we'll be glad to show them to you. Stop in and look them over.

**Price \$8.00**

A complete line of makes of Spring Hats at \$3.00 \$3.50 \$4.00 and \$5.00.

**NEWSOME & WHEAT**  
Head-to-foot Outfitters for Men and Boys  
CHESTERTOWN, MARYLAND.

**RED-WING**  
TIRE REPAIR PATCH

**BLAY-LOCKS**  
TIGHT TIRE PRODUCTS
