

KENT DAIRY HERDS WORK

On last Monday evening the 4-H Club held a special meeting to take up the testing of milk for butter fat by the Babcock Method.

The 4-H Club Members are taking the lead in Dairy Herd Improvement Work in Kent County. The boys have heifers or cows which have freshened are weighing the milk, taking samples to test for butter fat, computing the value of milk produced, and are keeping records of feed costs for each cow.

Stanley Sutton, Local Leader, is taking an active lead in this 4-H Herd Improvement Work. J. Z. Miller, Assistant County Agent, who has had experience as a Cow Tester, is teaching the boys to test the milk samples for butter fat and to compute production records for each cow. This work will be carried on by the boys in much the same way as in a regular Herd Improvement Association except that the club boys will do the testing themselves instead of employing a regular cow tester.

The meeting Monday night was held at the home of Mr. and Mrs. L. A. Sutton, near Chestertown. The club members present and taking part in the testing demonstration were Martin Sutton, Wilbur Morris, Albert Sutton, Frank Sutton, Victor Hendrickson, William Carroll, Herschel Carroll, Norman Sutton, Clarence Sutton and Franklin Moffett. Some of the 4-H herds may later be enrolled in the regular testing association.

An effort is being made to organize a Dairy Herd Improvement Association in Kent and it is hoped that it will be formed in May and begin testing herds the first of June. Any dairymen interested in taking up the Dairy Herd Improvement Work, will please take the matter up with the County Extension Agents. The testing plan recommend for Kent, together with estimated costs, will be given in the county papers at an early date.

Famous London Vases
St. Peter-Upon-Cornhill, now suffering from the death watch beetle's pleasant attentions, is a church when built with a vase on its steeple. This is typical of the patron saint of the church, being in the form of a key. Another famous London vase is the huge gilded grasshopper above the Royal Exchange, and not far away, on Bow church, is poised the 9-foot-long dragon.

Health and Purity
The duty of physical health and the duty of spiritual purity and loftiness are not two duties; they are two parts of one duty—which is living the complete life which it is possible for man to live.—Phillips Brooks.

Waste of Time
"When you try to make a man change his mind," said Uncle Eben, "he's pretty sure to start in tryin' to make you change yours and you might as well call it a draw an' go back to work."—Washington Star.

INSTITUTE OF PUBLIC AFFAIRS

Second Institute of Public Affairs will be held at Chestertown on May 4th, 1929.

The Eastern Shore Institute of Public Affairs will hold its second annual conference on May 4th. Sponsored by Washington College and the Maryland League of Women Voters, this all day session on the affairs of the day is a distinct factor in the cultural program of the year.

The program, announced for the sessions to equal, if not exceed, the interest of the first meeting. The morning session will be devoted to a discussion of "Major Interests Abroad" and addresses will be made on "Making the Kellogg-Briand Pact Effective" by Dr. Clinton Winshaw of the Department of Political Science of Goucher College and "Mass Education as a Basis for Democratic Government in China" by Fong Dpen Djang of Shanghai.

In the afternoon, a discussion of Farm Relief will take place and addresses will be made by Mr. Irving Whitehead, of the Federal Farm

Loan Bank, on "Credit as a Factor in Farm Relief," and on "The Farmer as a Political Pawn." Mr. Chas. C. Gelder, Mr. Melvin Stewart and other men active in the Maryland Farm Organizations will discuss the proposed federal legislation as it affects the situation in this state.

Miss Djang is a graduate of the Baptist College at Shanghai and is a graduate student in the Political Science Department at Johns Hopkins. She is the sister of the Secretary of the new Department of Education under the Nationalist government and one of the first Chinese women to come to the United States as a student of politics. On her trip to this country Miss Djang was accompanied by Mme. Chiang Kai Sek, former wife of the General.

The committee in charge of the meeting includes Dr. Paul E. Titworth, President of Washington College, Dr. Esther Dole, Dean Genevieve Boland, Mrs. P. A. M. Brooks, Mrs. Fred. G. Usilton, Miss Ida Crow, Miss Nellie Saunders and Miss Laura Kern.

Sessions will be held in William Smith Hall, at Washington College and will open at 10.30 a. m. on Saturday, May 4th.

Have You Money In Reserve?

Every family that does not live within its means must go through trying and irritating hours during which its members face fact. It is best to have the institution of home based soundly upon the principle that Income must exceed Outgo. Why not put your home affairs on a business basis? Open an account here and adopt the policy of spending just a little less than your income. You will be surprised how quickly you will have cash in hand to make investments that are sound and which will in turn bring you more cash in hand. And remember that in times of financial stress your banker is your best friend.

Before Planting Time, Make Sure YOUR Planter Is Right

The McCormick-Deering "100 Series" planters combine old, time proven principles with a simplified design which insures greater accuracy, a wider range of adaptability, and easier ways of adapting the planters to the different requirements. It has taken a number of years to perfect this combination. The result is a series of planters, which have no unrivaled features. Their superiority lies in the manner in which these proved principles are combined and applied.

The McCormick-Deering "100 Series" planters are furnished both as check-row planters and drills. The check-row planter can be quickly set for drilling, and only a moment is required to change it to power hill-drop for bunch-drop drilling.

The pea-and-bean and fertilizer attachments are of an improved design, and can be quickly installed both on planters and drills. If you are looking for a planter that will plant your crops accurately and that will require minimum attention, it will pay you to ask us to demonstrate a McCormick-Deering "100 Series" planter.

Save fuel... save paint..

LAY Creo-Dipt Stained Shingles right over the siding or roof of your present home. You make your house warmer—most owners report fuel savings of 15% to 25% each year. And you save upkeep—because all genuine Creo-Dipts are stained under pressure—submerged in heated, agitated stain, while compressed air forces preserving oils and colors into wood pores.

Ordinary shingles are merely dipped into stain. Only Creo-Dipts are pressure-stained—that is why we recommend and endorse them.

CHRYSLER MOTORS PRODUCT

Announcing NEW FEATURES that create even Higher Standards in PLYMOUTH Performance, Comfort & Quality

This is Plymouth's National Display and Demonstration Week

Plymouth now shows the public something new and altogether unconventional in even higher standards of performance, comfort and quality.

The obviously greater quality and value are apparent in every phase of its appearance and behavior—in its greater roominess and comfort—in its greater economy of upkeep—and in its greater stamina and long life.

Equally obvious is the greater safety of Plymouth—made certain by its rugged construction, and its positive full-size Chrysler weatherproof internal-expanding 4-wheel hydraulic brakes.

This is National Display and Demonstration week, to enable the public to examine and drive the improved Plymouth. It will be well worth your time.

Ohio FAMOUS Black Hawk Planter

Pays for itself

A hill of corn skipped here and there—or the wrong number of kernels in the hill—may easily cost you more than the price of a planter.

Plowing, fertilizing, cultivating and harvest cost just as much for a poor stand as for a good stand.

You can get a perfect stand with the Black Hawk Planter. It drops the right number of kernels in every hill—every time—Long noted for its superior accuracy—variable drop and accurate check rowing, the Famous Black Hawk is now better than ever. Let us show you the latest improved model.
