

**Kent News**

SATURDAY, AUGUST 3, 1929

An effort to enforce rigidly in the counties the provision in the traffic law making it mandatory for motorists to stop before entering or crossing the designated through-traffic roads has been begun. E. Austin Baughman, Commissioner of Motor Vehicles, announced.

Every member of the State police force was notified of the commissioner's intention of having the provision regarding stops enforced. The men were told to station themselves for short periods at boulevard entrances and to arrest all violators of the law.

The worst possible lesson to teach any citizen is contempt for law. No man should take a public office unless he is willing to obey his oath and to enforce the law.

**CERESAN A Treatment for Wheat**

Ceresan is effective in the control of Bunt or Stinking Smut and is recommended for the control of Seed Borne Flag Smut.

Ceresan is a very fine, gray dust, the chemical constituents of which do not cause corrosion of metals. Therefore Ceresan should not clog the drill nor cause injury to its metal parts as is the tendency of some dust disinfectants.

Ceresan enables you to control many of the important cereal diseases speedily, economically and without danger to your seed.
