

Seed Wheat

Cleaned and Treated

At Your Barn

FOR SMUT

Our Machines are Out
Give Us A Call

Three hundred and nineteen farmers cleaned and tested over 30,000 bushels of seed wheat in 1928.

There was practically no dockage for smut this year. Why not keep your wheat clean at a cost of 18c per acre.

ORDER OF PUBLICATION

Henrietta E. Bishop

vs.
James E. Bishop

In the Circuit Court for Kent County
In Equity, No. 2585.

The object of the Bill filed in the above entitled case is to procure a decree for divorce a vinculo matrimonii for the plaintiff, a resident of Kent County, Maryland, from the defendant, a non-resident of the State of Maryland.

The Bill states:
1. That on the 17th day of April in the year 1922 she, Henrietta E. Bishop, was married to her husband, James E. Bishop. The said marriage took place in Washington, District of Columbia, and that after said marriage she resided in the City of Washington and in a suburb between Washington and Baltimore. That she lived with her husband about two years and that he deserted her some time during the month of June 1924.

2. That, though the conduct of your Oratrix towards her husband, the said James E. Bishop, always has been kind, affectionate and above reproach, the said James E. Bishop has, without any just cause or reason, abandoned and deserted her, and has declared his intention to live with her no longer, and that such abandonment has continued uninterruptedly for at least five years, and is deliberate and final, and the separation of the parties beyond any reasonable expectation of reconciliation.

3. That since their separation your Oratrix was compelled to make her own living and she took up nursing and maintains her home with her father, William C. Townsend, in Kent County, State of Maryland.

4. There has been one child born as result of said marriage namely, James E. Bishop, Jr., age six.

5. That since said desertion by the said James E. Bishop, he has failed to support her but does contribute towards the support of the child. Your Oratrix does not know the whereabouts of her said husband although she has been advised by some member of his family that he had left the State and is now in Miami, Florida, and that he is not a resident of the State.

It is thereupon, this 29th day of August 1929, ordered by the Circuit Court for Kent County, in Equity, that the Plaintiff, by causing a copy of this order to be inserted in some newspaper published in said Kent County, once in each of four successive weeks before the 30th day of September next, give notice to the said James E. Bishop, non-resident defendant, warning him to appear in this Court in person, or by Solicitor, on or before the 14th day of October next, to show cause, if any he has, why a decree ought not to be passed as prayed.

ROBERT A. SHALLCROSS, Clerk.

COACH KIBLER'S TEAM

Four games have been scheduled abroad and four at home for Washington College football team, according to Graduate Manager Fred Dumschott. One open date is not yet filled.

Meanwhile J. Thomas Kibler, athletic director, though not enthusiastic over his gridiron squad, believes his material may be whipped into shape sufficiently well to make a creditable showing. The squad will be light and, since the schedule is also light, it is believed an even break may be anticipated.
Chief Beatty, of Long Branch, N. J., former University of Maryland star and line coach here last year, will be on tap to assist Kibler. A few experienced men are left from last season. Red Burke, this year's captain, played end last year and Stevens, the other end, will also return. Stewart, formerly of Chester (Pa.) High, and Shirley, centers, will also be available, while Griffith and Phillips, the tackles, will report for preliminary practice.

Dopson, Alexander, Norris and Krane will be seen in the backfield again. This quartet did yeoman service last season against superior odds in the way of weight.

Bobby Cavanaugh, former backfield ace, who is now coaching Pennsylvania Avenue High, of Cumberland, will send down a few prospects. One is Hoffman, a backfield scholastic ace.

The schedule:
Sept. 28—U. of M., away.
Oct. 5—Susquehanna Univ., away.
Oct. 12—Loyola College, Baltimore, home.
Oct. 19—Swarthmore College, away.

Oct. 26—Open.
Nov. 2—Drexel Institute, away.
Nov. 9—American Univ., home.
Nov. 16—Balto. Univ., home.
Nov. 23—Mt. St. Mary's, home.

COMING SOON

"Barnett Brothers Three Ring Circus" and Trained Animal Shows.

An added attraction to the already wonderful program of the Barnett Brothers Circus—is Lillian Alton's stupendous offering—"Sweethearts on Parade," she is presenting this wonder spectacle which introduces hundreds of people and animals, and a wealth of wardrobe, this part of the program proceeds the circus program without extra charge, a fete participated in by beautiful women, children and animals showing a wonderful display of feminine beauty and grace.

In the largest city and the smallest town, the Barnett Brothers visit the program is always the same, exhibited as one complete whole without one single curtailment at either the afternoon or the evening performance, the country having comparatively few holidays and work too often shuts out play. The advent of the Barnett Brothers Circus is hailed with delight, then it is that the young and old, far and near join hands and celebrate, for it is the one big circus day, one that temes with glee, glitter and gold, the music of the four bands, the equips of the funny clowns, the smell of the sawdust, and all the thousand thrills of spangle land.

The Barnhart Brothers Circus in all its entirety will exhibit at Chestertown on Saturday, Sept. 14th, for one day only with two performances at 2 and 8, doors open one hour earlier. A free street parade at noon on the day of exhibition. The large city of tents are waterproofed and lighted by electricity. The show will be located on Washington avenue.

Crowds of people who find pleasure in fishing and crabbing from Chester river bridge here have become so numerous as to become a menace to traffic over the bridge, and as a consequence there have been two serious accidents within several days of each other. A small boy was knocked overboard one day the past week when he was struck in the head with a stout fishing rod, and on Sunday while attempting to cross from one side of the bridge to the other a boy was struck by a car bearing a Pennsylvania license, sustaining a broken leg and collar bone for which he received treatment at the office of Dr. H. G. Simpers here. It would not be surprising if the State Roads Commission which has jurisdiction over the bridge should adopt means to protect both traffic and the numerous fishermen among whom are many who come from Delaware, Pennsylvania, and New Jersey, especially on Sundays.

GUERNSEY SIRE FOR SALE

Normanda's Crusader No. 127,229. His dam has class G record of 120, 42 lbs. milk and 571 lbs. fat. This animal coming three years old in September and may be seen at my farm near Locust Grove, Kent County, Md. Apply to A. S. Richards, 1111 Jefferson St., Wilmington, Del. a3-3t

DUCKING SHORE FOR RENT

A splendid shore and point for duck shooting will be rented for the coming season for reasonable price. For particulars apply to Wm. Frazier Russell, Jr., Attorney, Chestertown, Md.

HOG CHOLERA SUMMARY

The disease was reported to exist on 37 premises against 120 a year ago and a ten year average of 74 for the same period. Twenty-two were classed as backyard outbreaks, while 15 occurred on farms where hogs are bred and raised. Thirty-five were classed as primary or new outbreaks while two are secondary of spread of the infection from nearby farms.

Frederick county was out in front with 8 outbreaks. Washington was second with 6, while Kent was a close third with 5 cases. Baltimore reported 4, while Allegany and Queen Anne's were tied with three each.

All of the 35 primary outbreaks were apparently due to the feeding of bones, rinds or scraps of kitchen pork in garage, table scraps, kitchen swill, etc. The two secondary outbreaks were due to permitting sick hogs to run at large and come in contact with well hogs.

On the premises where hog cholera was reported to exist during the month there were 645 hogs when the disease appeared. One hundred two were dead and 176 were visibly sick before the outbreaks were reported.

ROCK HALL

Our boys made a fine showing in the Easton parade of firemen. Walter Mann and family moved to Baltimore. The vacated bungalow will shortly be occupied by Mr. Godwin and family from Pocomoke.

Walter, son of Mr. and Mrs. Reuben Rodney, was the winner of five dollars in a limerick contest held by a Baltimore newspaper.

Mr. and Mrs. William Elburn entertained Monday evening at their home in Allen's Lane, the occasion being the fourteenth anniversary of their wedding. About fifty friends were present. Refreshments were served.

James Coleman has gone to St. Mary's county with a building contractor there.

Joyner's Wharf has been leased by the Aibel Construction Company and machinery is in place for unloading materials to be used in constructing the nine-foot cement roads to Eastern Neck Island bridge and to Tolchester.

The tent meetings which have been in progress evenings the past two and a half weeks closed Sunday evening. Considerable religious fervor has been manifest.

The canning house has opened. Mrs. John Huber has undergone three operations to relieve a blood clot on the brain. She is at St. Agnes Hospital.

Charles Smith has resigned as police officer in the town and George Creighton, who has been an efficient officer at Tolchester will take his place.

Charles Parsons has taken a dwelling at Gratitude avenue and will occupy it immediately with his sons.

Mr. and Mrs. J. B. Jacquette, their daughter, Mrs. Paul Allender, and granddaughter, Miss Charlotte Allender, house guests remembered Mr. Jacquette's 74th birthday with a fine birthday dinner. It was shared by

Mrs. LeRoy Jacquette and mother, Mrs. Medcalf, and Mrs. Anna Jacquette and mother, Mrs. Simms, besides a cousin, Clyde Lindsey, of Oxford, Pa.

Scientists say that flies carry germs of typhoid fever, infantile paralysis, summer disorders and over thirty other diseases. Flies should be killed. FLY-TOX is harmless to people but sure death to mosquitoes, roaches, moths and bed bugs as well as flies. FLY-TOX was developed at the Mellon Institute of Industrial Research by Rex Research Fellowship. Insist on FLY-TOX with its perfume like fragrance.—Adv.

PAYS FOR ITSELF by saving carbon removal costs

You pay from 10 to 15 dollars a year for oil. A thorough job of carbon removal costs varying amounts depending upon the condition of the carbon choked motor and the damage caused by hard carbon. But certainly this cost is more than 10 or 15 dollars. Yet many motorists are forced to remove carbon twice or more

a year, at least doubling these costs. SUNOCO, the 100% distilled oil, which is guaranteed free from paraffine, gives perfect lubrication. You will have no hard carbon—which causes knocks, gummed spark plugs and valves, pre-ignition and loss of power—if you use SUNOCO exclusively.

PISTON NO. 1 was taken from a Ford engine after a run of 1,000 miles. A compounded oil was used.

PISTON NO. 2 was taken from the same engine, same cylinder, after a run of 1,000 miles, and a different compounded oil was used.

PISTON NO. 3 was taken from the same engine, same cylinder, after a run of 1,000 miles, and a third compounded oil was used.

Each of these tests was made under exactly the same conditions

Here's how SUNOCO performed in this test:

You can see the heavy carbon deposits on the pistons 1, 2 and 3 after running only 1,000 miles—hard, flinty carbon, difficult to remove.

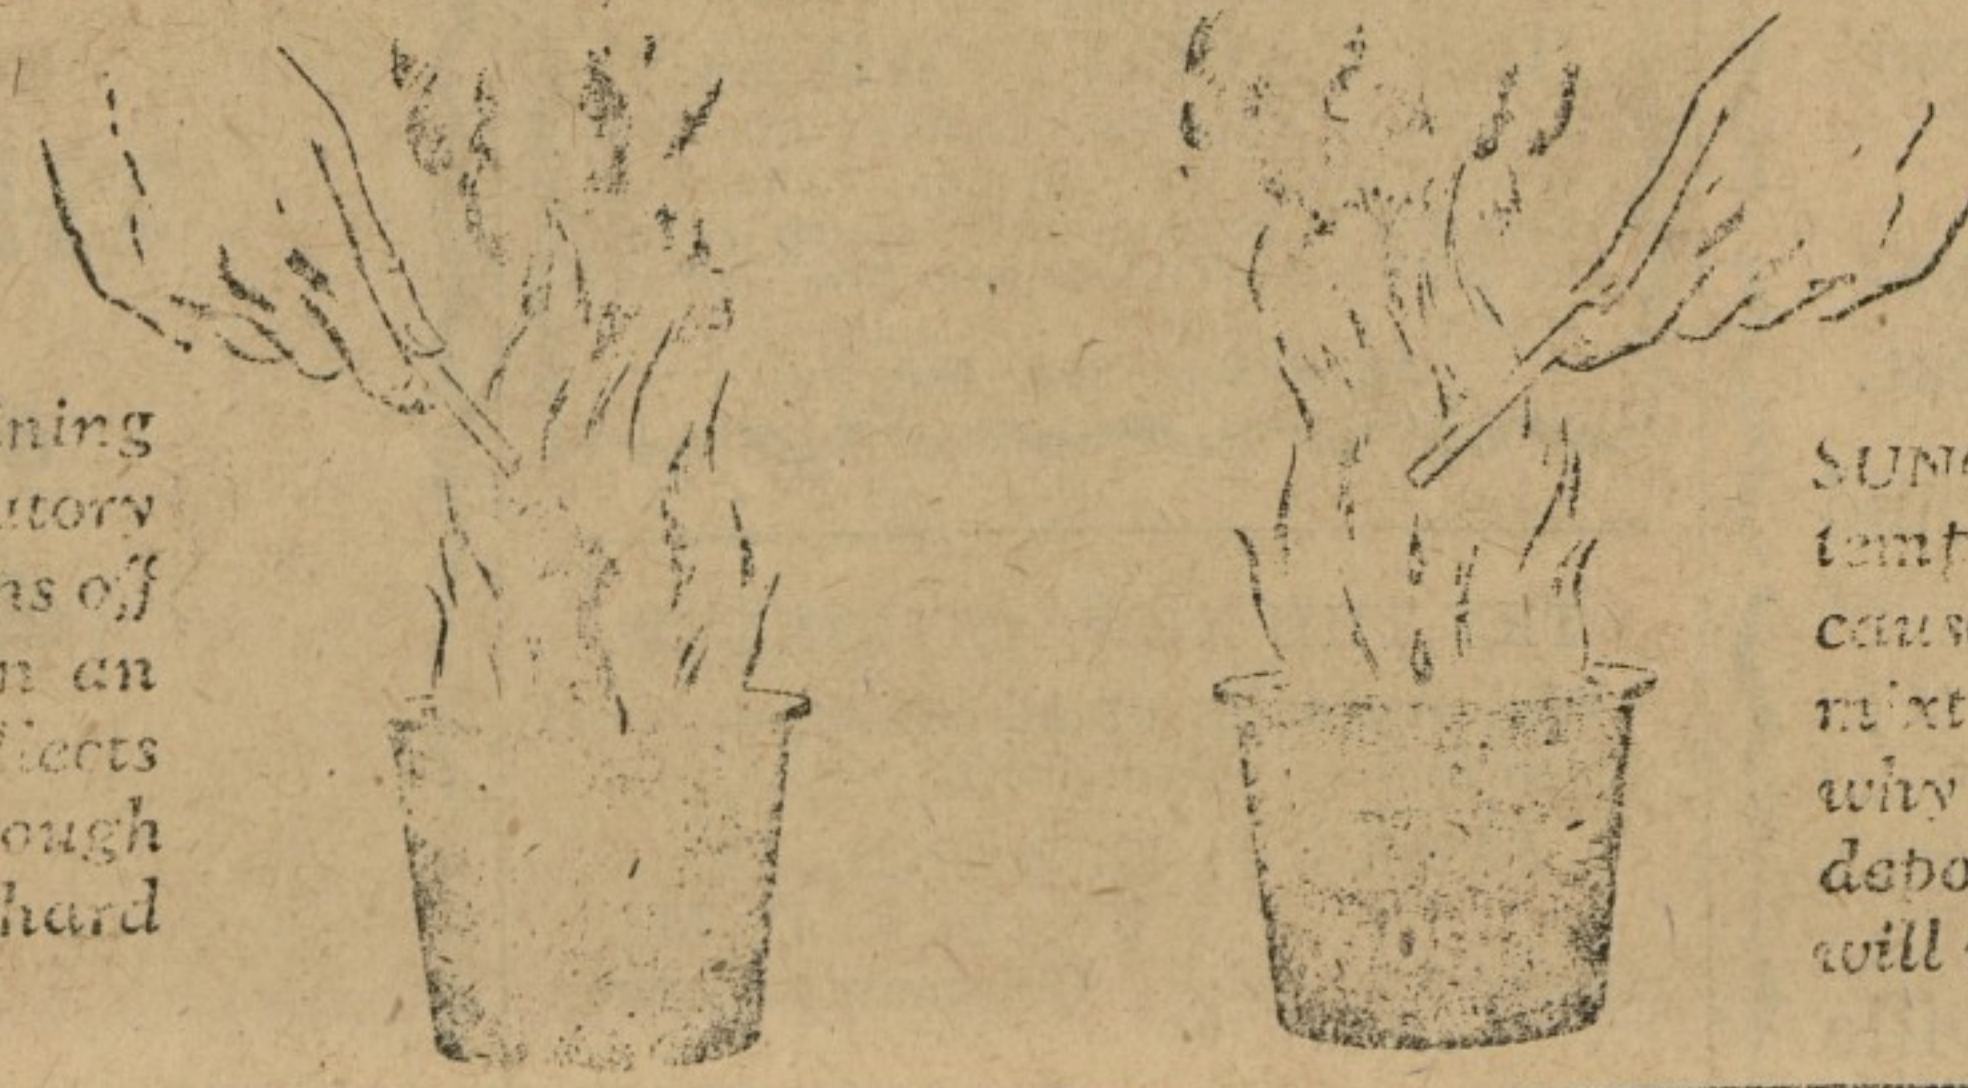

Piston No. 4 was taken from the same Ford engine, same cylinder, after running 5,000 miles (5 times as far). SUNOCO Motor Oil was used. After the test there was only a little soft, harmless soot which could be wiped off easily with a rag—a characteristic SUNOCO performance.

PISTON NO. 4

This BURNING TEST proves that SUNOCO... 100% DISTILLED... Guaranteed free from Paraffine LEAVES NO HARD CARBON

When compounded paraffine oils containing cylinder stock are subjected to laboratory tests at high temperature, the light oil burns off and the sticky cylinder stock remains. In an automobile engine this sticky deposit clogs the intake pipe. Then it is baked into hard carbon.

SUNOCO Motor Oil, when subjected to high temperature, does not leave a sticky residue, because it contains no paraffine. It is not a mixture of a light oil and a hard stock. That's why it does not evaporate; cannot form a sticky deposit on the pistons or cylinder head; and will not form hard carbon.

THE WHOLLY DISTILLED NO HARD CARBON MOTOR OIL
