SCHOOLS OPEN 9 NEW TEACHERS

The White public schools of Kent opened Monday with over 2,000 pupils enrolled. The new teachers who will join the Kent staff this year are Irma G. Lawyer, Millington; Harry R. Poole, Hartmore Riches, Katherine Gessford and S. Madeline Eisenhart, Chestertown High; Evelyn Bryan, Rock Hall; Francis T. Turner, Golt; Morris L. Stier, Chestertown elementary; Louise Akers, Broad Neck. The County Board of Education has granted the request of patrons of Still Pond School for a continuation of two teachers, and Mrs. Myra Wheat Toulson will be retained as principal, with Miss Louise Hepbron assistant. A new elementary school at Galena, costing \$15,000, and another at Rock Hall, costing \$25,000, were dedicated Monday with informal ceremonies.

TREASURE HUNT IN TOWN

An event of interest to many citizens of Chestertown Tuesday night was the "treasure hunt" sponsored by the Triangle Club, a young women's organization affiliated with Christ M. P. Church. A gold coin was at the end of the trail by the fortunate members of the club who detected the hiding place of the "treasure." The trail led through all sections of the community.

Miss Kathryn P. Smith, former president of the Triangle Club, was chairman of the committee in charge. Other members of the committee were Mrs. Charles N. Satterfield, Mrs. William Kelley Smith, Mrs. Alvin Brown, Miss Susie Smith and Miss Mary Kinsey.

Harry W. Fallowfield, Jr., and Frederick G. Usilton, Jr., found the \$5 in court house yard; Mary Joe Wheatley and Robert Huey, Jr., found the box of candy while Misses Patience Pyle and Lucille Rustin found the fountain pen. The hunters were given refreshments after the fun was over. It is estimated that about five miles was traveled in the search for the treasures.

TIBBETT IS DECLARED TO BE OF SANE MIND

Dr. George H. Preston and Dr. Henry Berkeley, alienists from the State Department of Mental Hygiene, have completed an examination of the mental condition of Chas. Tibbett, the Millington fireman accused of arson, and they have declared him sane.

Following the arrest of Tibbett several weeks ago on the charge of causing two fires in the town of Millington within a few hours of each other, Detective Joseph Dougherty, of the State Insurance Commission's office, Baltimore, was detailed to the cases, and with State's Attorney Stephen R. Collins, made an investigation which led to the arrest of Tibbett.

Following the arrest Tibbett is said to have confessed to Detective Dougherty and the State's Attorney that he set fire to the garage of his brother, George Tibbett, in Millington, which caused a \$1,000 loss, but denied any connection with the first fire in the John P. Aherm lumberyard, which was quickly extinguished. Tibbett also admitted, authorities claim, he attempted to set fire to the garage of his grandfather, Samuel Tibbett, near Millington, on the Monday morning following the Millington fires. He accompanied the officers to Millington and showed them how the attempt was made.

Senator S. Scott Beck, his counsel, asked an investigation of the man's sanity. Tibbett is being held in jail here for the action of the grand jury at the October term of court, which will convene on October 16, and State's Attorney Collins stated that he will push the charge of arson against him. Tibbett gave as his reason for starting the fires that he liked to hear the siren alarm sounded when he was under the influence of liquor. He was known to have been intoxicated on the day the Millington fires occurred. He is a member of the Millington Fire Company.

FOR SALE
Thoroughbred Barred Rock Pullets 35 cents the pound. J. H. Gardner, Massey, Phone Millington 16F14 a31-3t

Member Baltimore Symphony Orchestra will be in Chestertown and Rock Hall this season by appointment for Violin Instruction. Address 1907 W. Fayette street, Baltimore, Md. Phone Chestertown 828F4 a24-6mas.

FRANK ELBURN'S SUDDEN DEATH

This community received another shock last Saturday shortly after 1 o'clock when it was learned that R. Frank Elburn had been struck by an automobile and fatally hurt. He was carried to Easton Hospital and died at 5 p. m. Tuesday, aged 61. The body was brought to Chestertown and a coroner's inquest held at 3 o'clock Wednesday. The verdict exonerated Mr. MacNeal as the accident was unavoidable. The accident occurred early Saturday afternoon when Mr. Elburn was making an emergency collection of mail. Stepping from behind the parcel post delivery wagon into the path of an automobile driven by J. Walter MacNeal, of 1720 Thomas avenue, Baltimore, Mr. Elburn was knocked to the stone road and suffered a fractured skull and a concussion of the brain. He did not regain consciousness before his death. The accident occurred on Washington avenue opposite the college campus. Mr. Elburn set out to collect the mail as he often did so as to help the collector. At the spot of the accident he had met the delivery wagon and had crossed to get the mail that it had already collected. He was returning to the college side of the road when struck. From all reports the accident was unavoidable. He was taken to the office of Dr. H. P. Copeland here and later removed to the Eastern Hospital in the Kent County Ambulance. An operation, removing a large section of bone from his head, was performed on Sunday in an effort to save his life. Mr. Elburn would have next month completed 19 years of service in the local postoffice. He was recently named as assistant postmaster by William G. Smyth, following the death of R. Snowden Thomas. He was a member of three fraternal organizations in Chestertown, the Jr. O. U. A. M., the P. O. S. of A. and Modern Woodmen. He was a councillor of the first named organization and president of the Christian Endeavor Society of Christ M. P. Church where he was active in religious work. He was also president of the Board of Stewards. He is survived by three brothers: Thomas Elburn, of Rock Hall, and Charles and Walter L. Elburn, of Chestertown. Funeral services were held from Christ M. P. Church at 2 p. m. on Thursday. He was a son of the late Mr. and Mrs. William Elburn, of this county, who left seven children, four of whom died as the result of accidents. The bearers were Wm. G. Smyth, John W. Barnes, Walker U. Lusby, John C. Davis, Virgil Kendall and Rufus Collins. C. L. Dodd, pastor; Rev. Dr. E. A. Sexsmith officiating. Mr. MacNeal, driver of the car that struck Mr. Elburn, was enroute to Rock Hall from Baltimore. He was accompanied by his wife and father-in-law, James Tracey, of Rock Hall.

WASHINGTON COLLEGE NEWS

When the incoming freshman class of Washington College assembles September 18th for Freshman Week exercises, approximately eighty-five new students will enter the Chestertown institution. At the same time, announcement was made of two important appointments to the faculty have been made and the new officers will be ready for duty when the Eastern Shore college formally opens its first academic semester, September 23. They are Dr. Gertrude V. Ingalls, of Gunnison, Colorado, head of the Department of English, and Dr. Helen E. Hurphy, head of the Department of Biology. The English professor is a native of Utah, a graduate of Oberlin College in Ohio, and a Ph. D. from Yale. She has been associate professor of English in the University of Utah and head of the department at Western State College, Colorado. Dr. Murphy comes from the University of New Mexico where she has been associate professor of biology since 1922. She is a graduate of Cornell and a doctor from the same institution. She has also acted as assistant professor in biology at Colorado College and acting biologist in Scripps Institute of the University of California. She is a distinguished writer in her chosen field and is a contributor to scientific journals. Meanwhile Reid Hall, women's dormitory, and Middle Hall, East Hall and West Hall, men's dormitories, are being remodeled and improved so as to accommodate comfortably, amid delightful surroundings, all the feminine portion of the student body. Proper supervision will be given women students by an augmented body of women instructors and matrons. Dean Genevieve Boland will have general charge of women students.

For the first time a general athletic association for women will be created under supervision of Miss Doris Bell, physical instructor for women. Inter-class games will be played by hockey and basketball teams and archery will be taught as an innovation in the athletic life of Washington young women. No games will be scheduled with other institutions but an inter-class league will be maintained.

More than forty ministers and their wives were registered at Washington College for the fourth annual summer school for town and county ministers which opened here on Monday of this week. From Maryland, Delaware, Pennsylvania, W. Virginia, Virginia and Ohio the ministers gathered to attend this special summer session. All denominations cooperated and it has been a very delightful week. Dr. Paul E. Titsworth, president of the college, is dean of the faculty, which is conducting courses in the human element of the Bible; practical church work for town and county communities; the rural pastor; mental and social hygiene, interspersed with denominational and general conferences on important church topics.

Washington College freshmen will report at the local institution next Tuesday afternoon for the annual Freshmen Week exercises prior to the official opening of college. The purpose of the week of preliminary activity is to introduce the new students to the ways of the college before the beginning of classes. Many meetings and talks as well as a series of entertaining features have been arranged for the incoming students during the week.

TOMATOES BRING 40 CENTS
The tomato market has kept up finely this week and good yields are being reported. One day recently the Campbell Soup Co. bought 32,000 baskets at their five shipping points on Chester river and on Thursday over 20,000 baskets were bought. The price started at 33 cents Monday and Thursday afternoon reached 40 cts. There is no glut. The crop is ripening steadily and making a good supply for the canneries.

APPRAISERS ACT
The State Roads Commission, thru their representative here, Thomas G. Wroth, J. W. Russell and James T. Brown as appraisers to assess the damages done H. P. Skipper and others for right of way on Queen Anne's side of bridge. The committee named \$1150 as the sum but the owners will appeal.

A petition protesting against the location of the new bridge is being signed by Chestertown business men and will be presented to the Commission. In another column bids are being asked for building the new structure.

On Thursday, September 25th, the Chestertown and Centreville Rotary Clubs will participate in a joint meeting in the latter town. The Centreville club will have complete charge of the program.

FINE SPEAKERS AT TURKEY MEET

The Maryland Turkey Growers' Association of Kent County held a special meeting on Wednesday, Sept. 11th, at the Court House where they were addressed by Gordon Sprague of the United States Bureau of Agricultural Economics, Dr. F. B. Bomberger of the State Department of Markets, J. A. Burroughs of the Delmarva Eastern Shore Association, Mr. McVean, County Agent, and U. L. Meloney, a New York Commission man. The meeting was opened by the president, Mrs. Helen M. Baker. Mrs. Baker stated the purpose of the organization as being the raising of better turkeys and getting the best possible prices for the turkey crop in this and neighboring sections of the Peninsula. Mrs. Baker then introduced the first speaker of the afternoon, Mr. Gordon Sprague who, in his work for the Government, has spent the summer among the large western cooperatives in nine states. Mr. Sprague mentioned the fact that there had been a shift in turkey production between the years of 1910 and 1920 at which time the West outnumbered eastern birds but that in the last few years the East had gained and now leads in production since the birds have become popular as a side line in farming. Two things characterize the crop, according to the speaker, the first being the fact that it is a specialty and that the bulk goes into the market on two or three days; and the second, which is closely related to the first, is the seasonality. For these reasons operations are up against overhead for the year for the sake of a few weeks and therefore it is often well to tie up with another type of crop if possible to lessen the overhead. The speaker stated that one of the difficulties of marketing here in Maryland on a cooperative basis is that we are too near the markets and that there will always be individuals who will seek small markets for their small crop. The method used by the Western Cooperatives are practically the same as that tried out by the local Chamber of Commerce, last year, viz, the sending out of questionnaires to determine the amount of birds that may be offered to bidders for the Thanksgiving and Christmas markets. Out West, a January clean-up bid is also used. Bids are asked by graders, birds are carefully graded and the best bidder sets the date for delivery. Mr. Sprague brought out the point strongly that selling collectively lifts the level of turkey prices and that cooperation means a great deal more than merely better prices in that it soon shows the producer the difference between good birds and poor birds and inspires him to produce only the better type, to keep undeveloped birds for later markets, and so obtain the best possible price for his labor and expense. Dr. Bomberger followed Mr. Sprague and stated that Maryland has protection against extra freight charges that the western growers have to pay. He assured the goods will be what are paying for they are only too glad to get the goods and pay fair prices. The State Department of Markets can furnish a Government grader for fifty dollars a week and if turkeys are being shipped by carload-lots it means only about one-tenth of a cent per pound for grading. Mrs. Baker then introduced Mr. Burroughs of the marketing department of the Delmarva Association who said the top grade, known as U. S. Prime, permits for the buyer the use of the Delmarva insignia. The buyer may use this insignia without cost to him and will receive the benefit of the advertising already done by the association. Special advertising will be made in the New York Packer and pamphlets, if desired, will be compiled and distributed throughout the larger marketing centers. The service of the Delmarva was given a splendid and unexpected tribute when the next speaker arose in tribute to the marketing department of the Delmarva Association of New York City. It was not known that Mr. Meloney was well known to a number of growers and to the Chamber of Commerce through contact with his firm last year. Mr. Meloney said nothing had put this Peninsula on the map as the Delmarva advertisement and the use of the insignia on its high grade products which were being recognized and sought in New York markets. Mr. Meloney spoke for the homes' commission merchant and with dry (Continued on Page 4)

NARROW ESCAPE OF LOCAL MAN

James O. Bringman, of Chestertown, superintendent of a number of the A. and P. stores on the Peninsula came near having a serious auto accident on Tuesday last and it was remarkable that he was not killed. He was driving along the public road near North East when a telephone pole fell across the road right in front of his car without any warning. His car smashed into the pole and persons in the school bus right behind him said the Bringman auto rolled over four times. But when they went to the car found Mr. Bringman only slightly hurt and he was trying to extricate himself from the ruined and smashed up machine.

BIG CROWD AT FIDDLERS' CONTEST AT BETTERTON

The Fiddlers' Contest at Betterton on Thursday evening last was a success. The largest crowd of the season was present at the Casino and Manager Howard Turner and his assistants handled the crowd without a hitch. John Alderson's orchestra entertained with a continuation of their excellent dance music. The winner of the fiddlers' contest was John T. Booker, of Barclay, who was 80 years of age and played a fiddle said to be 212 years old. The first prize was \$10 in gold. The second prize of \$5 went to William Wagner, of Rock Hall; and third prize won by Edw. Bramble, of Betterton. The judges were Mrs. Woodall, T. W. Perkins and C. Arthur Bacon.

"SCOTTY" PAROLED; "SCOTTY" ARRESTED

Herman Gosnell, convicted bootlegger of Kent and Talbot counties, familiarly known as "Scotty," was arrested here Monday night, just a week after having been paroled by Governor Ritchie. He was serving a term of one year in the Maryland House of Correction. Gosnell is charged with driving while drunk, and unauthorized use of an automobile. Several months ago, Gosnell's driver's license was taken from him. Sheriff J. T. Hadaway took "Scotty" to jail after the car he was driving, collided with another machine and badly damaged it. Gosnell was recently released by Kent County Circuit Court with the understanding he would never return here. He went to Talbot and from there was sent to House of Correction. He was accompanied by a young lady from Baltimore. State's Attorney Collins communicated with the State Parole Office and "Scotty" was returned to their care to serve out his sentence.

MR. MILLER PROMOTED

The Cecil County Commissioners at their meeting Tuesday appointed J. Z. Miller as County Agent to succeed Thomas H. Bartilson, who was recently assigned to other work under the Department of Agriculture in Washington. Mr. Miller, a native of Georgia, has been Assistant County Agent of this county. The appointment takes effect at once, but Mr. Miller will not go in the county permanently until September 23. He has recently taken unto himself a wife and was rapidly winning his way into the esteem of all with whom he came into contact.

SALE OF PROPERTY

Richard Haggerty's sale of real and personal property on his Eldridge farm in Cecil, Tuesday, was largely attended and a great success. The 30 head of cattle sold as high as \$250 each and average close to \$200. The elegant farm which borders on the Sassafras river was offered and sold to a New York gentleman for \$30,000. There were several local bidders. Mr. Haggerty bought this farm several years ago for \$24,000.

KENT WINS PRIZES

Kent riders were in evidence at the Queen Anne's Horse Show Thursday Mrs. Morris Barroll, W. R. Hubbard, A. Burris, were among the winners in the class entered by them. Other riders from Kent took prizes other than first.
